Business Entity Bulk CSV Data
Technical Customer Information

Introduction

The Business Entity bulk download data is generated into 9 text files. The files are comma-delimited. The first row in each file contains column headings. Any data columns that might contain embedded commas are wrapped within double-quotes. Any embedded double-quotes are represented as double, double-quotes (this makes the data Excel CSV friendly). All 9 files are compressed into a single file, Business.Entity.zip using WinZip Pro using legacy compression method.

The files contained are:

1. Corporate entity data, Corp.csv
2. LLC entity data, LLC.csv
3. LP entity data, LP.csv
4. Entity Amendment data, Amendment.csv
5. Entity Merger data, Merger.csv
6. Entity Officer/Director data, Officer.csv
7. Entity Reserved Name data, Reserved.Name.csv
8. Entity Name/Fictitious Name History data, Name.History.csv
9. Descriptive tables data, Tables.csv
Contains all code-to-description translations for data layout descriptions that refer to “See TABLES for values”

File Relationships

The entity data files (Corp.csv, LLC.csv, LP.csv) are the main files, which are supplemented by the Amendment, Merger, Officer and Name.History.csv files. There is a 1-to-many relationship on EntityID from the main files to the supplementary files. The Tables.csv file is used for translating codes into descriptive values. There is a 1-to-many relationship on ColumnName and ColumnValue from the main and supplementary files to the Tables.csv file.

The Reserved.Name.csv file is not linked to any of the main entity data files.

Entity Data

The entity data files (Corp.csv, LLC.csv, LP.csv) contain the data relevant to entity filings with the SCC. The EntityID column contains the primary key value that links the entity data to the supplemental data files.

Entity	Max		
ColumnName	Length	Format	Description of content/list of possible values
EntityID	7		Entity ID provided to a business entity by the SCC
Name	100		Entity name
Status	2		Entity status code - See TABLES for values
StatusDate	10	YYYY-MM-DD	Status effective date
Duration	1	YYYY-MM-DD	Date of duration, may contain 9999-99-99
IncorpDate	10	YYYY-MM-DD	Entity date of formation or incorporation
IncorpState	2		Entity state of formation or incorporation - See TABLES for values
IndustryCode	2		Affiliated industry code - See TABLES for values
Street1	45		Principal Office address street line 1
Street2	45		Principal Office address street line 2
City	23		Principal Office address city
State	2		Principal Office address state - See TABLES for values
Zip	10	99999-9999	Principal Office address zip
PrinOffEffDate	1	YYYY-MM-DD	Principal Office (Address) effective date
RA-Name	100		Registered Agent (RA) Name
RA-Street1	45		RA address street line 1
RA-Street2	45		RA address street line 2
RA-City	23		RA address city
RA-State	2		RA address state - See TABLES for values
RA-Zip	9	99999-9999	RA address zip
RA-EffDate	10		RA effective date
RA-Status	1		RA status - See TABLES for values
RA-Loc	3		RA court locality - See TABLES for values
StockInd	1		Stock Indicator – S = Stock, N = Non-Stock
TotalShares	11	99999999999	Stock total shares
MergerInd	1		Merger Indicator: ' ' - Not in Merger N - Non-Survivor S - Survivor
AssessInd	1		Assessment Indicator - See TABLES for values

Technical Customer Information

Officer/Director Data

The Officer.csv file contains data pertinent to entity amendment event history.

Officer	Max		
ColumnName	Length	Format	Description
EntityID	7		Entity ID provided to a business entity by the SCC
OfficerLastName	30	YYYY-MM-DD	Officer Last Name
OfficerFirstName	20		Officer First Name
OfficerMiddleName	20		Officer Middle Name
OfficerTitle	15		Officer Title

Name History/Fictitious Name Data

The Name.History.csv file contains name history and fictitious name data.

Name History	Max		
ColumnName	Length	Format	Description
EntityID	7		Entity ID provided to a business entity by the SCC
NameStatus	2		Name Status: 50 = Fictitious Name, 70 = Old Name
NameEffDate	10	YYYY-MM-DD	Name Effective Date
EntityName	100		Old Name or Fictitious Name

Merger Data

The Merger.csv file contains data pertinent to entity merger event history.

Merger	Max		
ColumnName	Length	Format	Description
EntityID	7		Entity ID provided to a business entity by the SCC
MergerType	1		S = Survivor, N = Non-Survivor
EffDate	10	YYYY-MM-DD	Merger Effective Date
SurvivorID	7		Survivor Entity ID
ForeignName	100		Name of foreign entity not qualified in VA

Reserved Name Data

The Reserved.csv file contains reserved/registered entity name data.

Reserved Name	Max		
ColumnName	Length	Format	Description
ResNumber	7		Reservation number assigned to reserved/registered name
Type	1		Entity type: C = Corporation, L = LP, X = LLC
Status	2		Reservation status: 60 = Registered, 61 = Reserved
Name	100		Registered or Reserved entity name
ExpireDate	10	YYYY-MM-DD	Registration/Reservation expiration date
Requestor	100		Requestor Name
Street1	45		Requestor address street 1
Street2	45		Requestor address street 2
City	23		Requestor address city
State	2		Requestor address state - See TABLES for values
Zip	9	99999-9999	Requestor address zip

Descriptive Tables Data

The Tables.csv file contains all translations of coded data values to the corresponding descriptions. The file includes translations for code values within the main entity and supplemental data files.

Tables	Max	
ColumnName	Length	Description
TableID	2	Table ID number - See TABLES for values
TableContents	50	Table Contents Descriptions
ColumnID	29	Column ID/Name in entity main and supplemental data files
ColumnValue	4	Column Value in entity main and supplemental data files
Description	50	Description corresponding to the table/column/code values
