Re:John Hancock Life Insurance Company (U.S.A.)
Company NAIC # 65838; FEIN #: 01-0233346
Individual Long-Term Care Insurance Rate Revision Submission
Revised Actuarial Memos (See Policy Forms List Below)

Dear Commissioner:

We have recently completed our 2022 experience study. This comprehensive study is generally conducted every three years and examines the usage trend for our insured population. Relative to previous expectations, the new data demonstrates lower mortality for non-claimants, higher utilization of benefits, and longer than expected claims, partly offset by lower claim incidence.

Based on that data, we have determined that there is a need to increase premiums on certain policy series.

As a result of the study, we are requesting a premium rate increase on the policy series listed below and are enclosing the actuarial memos and rates for your review and acceptance.

Policy Series Approval Date Years Sold Average Increase
LTC-03 VA9/5/2003 2003 – 2008 31.8%
BSC-03 VA9/5/2003 2004 – 2007 31.8%
BSC-03 VA Rev. 1/042/11/2004 2004 – 2007 31.8%

The increases requested reflect the timing of the acceptance of our prior rate increase filings in your state as well as any unapproved amounts from our prior filing on an actuarially equivalent basis.

The proposed premium rates will be effective on the next policy anniversary date, following a 90-day policyholder notification period, which will be made as soon as practicable following state acceptance. As we will describe later in this letter, we will also offer affected insureds various benefit reduction options to help mitigate the impact of the rate increase.

Policyholder Options

We are aware that a premium increase may be difficult for our policyholders. Therefore, we will provide all policyholders with options which will help them mitigate the impact of any increase.

•Shared Cost Option

If the policyholder selects this option, they will be able to offset the premium rate increase. The Shared Cost Option consists of two components.

- All policy benefit amounts (all Daily/Weekly/Monthly Benefit amounts and the Policy Limit) will be decreased by an assigned Shared Cost percentage (based upon policy series and the insured’s original issue age and benefit selected); and
•We will also apply that same Shared Cost percentage to future claims for covered charges and will pay our portion (1 minus the Shared Cost percentage) of covered charges, but we will pay no more than the new revised [daily/monthly/weekly] benefit amount and the new Policy Limit. The insured will be responsible for the remaining expenses.

Example: If the revised Daily Benefit for Nursing Facility Care is \$200 and Your Shared Cost Percentage is 20%, we will pay 80% of the Nursing Home charges, but no more than \$200.

- If Your Nursing Home charges are \$100, we will pay \$80 and You will be responsible for \$20.
•If Your Nursing Home charges are \$200, we will pay \$160 and You will be responsible for \$40.
•If Your Nursing Home charges are \$300, we will pay \$200 and You will be responsible for \$100

Shared Cost percentages will be determined to be actuarially equivalent to the rate increases by combination of the issue age

State: Virginia **Filing Company:** John Hancock Life Insurance Company (U.S.A.)
TOI/Sub-TOI: LTC03I Individual Long Term Care/LTC03I.001 Qualified
Product Name: 2022 Inforce Rate Increases- JH CCII
Project Name/Number: 2022 Inforce Rate Increases - JH CCII/

band, benefit period and inflation type.

If Shared Cost is elected, all other policy provisions other than those mentioned above remain unchanged, including the inflation increase option (if selected).

•Inflation Reduction

If the policyholder selects this option, they will be able to offset the premium rate increase.

Policyholders who originally purchased and still retain lifetime 5% compound or 5% simple inflation and some policyholders who took a reduced compound or simple inflation when notified of past premium increases, will be provided with the ability to keep premium at the current level by decreasing their future inflation coverage to a lower percentage which will vary by policy series. These policyholders will be able to keep all accrued inflation increase amounts to date and the lower inflation index will apply on a prospective basis only.

•Paid-up Option

If the policyholder selects this option, the policy will be converted to a paid-up status on the rate increase effective date (the next policy anniversary date). The new policy limit will be equal to the lesser of the current policy limit and 150% of premiums paid, less any claims paid. Under this option, all optional riders will terminate, and no additional inflation adjustments/increases will be provided.

Please note the referenced mitigation options above may not be available on all policy forms if the rate increase is not approved as requested.

•LTC Buy-Out Offer and Policy Termination Option (New)

If the policyholder elects this option, they will receive a payment in exchange for terminating their policy. If elected, this option will terminate the policy effective immediately. Once the policy is terminated in exchange for the payment, the policy will no longer be active and cannot be restored. This offer will only be available for insureds who purchased their policy below age 70. This option will be available for this policy series: LTC-03 VA, BSC-03 VA, and BSC-03 VA Rev. 1/04.

•Nonforfeiture

The nonforfeiture rider benefit, if purchased, may be exercised and the policy will be converted to paid-up status in accordance with the policy provision on the rate increase effective date.

•Contingent Nonforfeiture

If the NAIC contingent nonforfeiture benefit upon lapse is triggered, customers will be offered paid-up coverage in accordance with the provision. We are allowing contingent nonforfeiture if the rate increase trigger is met for all affected policyholders, even if it was not otherwise required in your State.

•Additional Mitigation Options

Policyholders may also be able to reduce their benefit period, adjust their daily/monthly benefit amount, drop optional benefit riders or extend their elimination period.

The corresponding forms for the Shared Cost, LTC Buy-Out, and Paid-up options will be submitted under separate cover shortly.

Policyholder Communication Package

State: Virginia **Filing Company:** John Hancock Life Insurance Company (U.S.A.)
TOI/Sub-TOI: LTC03I Individual Long Term Care/LTC03I.001 Qualified
Product Name: 2022 Inforce Rate Increases- JH CCII
Project Name/Number: 2022 Inforce Rate Increases - JH CCII/

We are also submitting our sample template policyholder communication package regarding the rate increase and options to help mitigate the rate increase for your information. We developed this communication package keeping in mind the amount of meaningful and detailed information to the policyholder and the presentation of the material in a clear manner. We have incorporated suggestions from state regulators, policyholders, and our dedicated policyholder service representatives. This package will be personalized for each customer with reduction options to keep their premium near or at the current level; options will vary by their respective situation. This package is included in Supporting Documentation. We will be submitting the policyholder communication package for review and approval in a separate form filing.

Ensuring No Cross-Subsidization Between States

We have ensured no state's rate increase approvals will subsidize other states' experience. Rate increases will vary by state, but only to reflect the timing and amount of prior rate increases approved by that state. This is accomplished by first backing-out all prior rate increases from our nationwide premium data. We then re-introduce prior rate increases with the amount and timing based on your state's prior approvals. The current proposed rate increases are then determined based on the amounts needed in order to achieve our target loss ratios where our targets reflect the lifetime loss ratios certified to in our prior filing.

Although some states may have capped our previous inforce rate increase filings, in each case this was done with the understanding that the full amount of the proposed rate increases were justified, and that John Hancock would be re-filing for the remainder at a later date. In instances where the remainder remains unapproved, it has been included in the current filings.

Past Losses Testing

Preventing companies from recouping past losses was the subject of discussion by the Health Actuarial Task Force in late 2013. The accepted methodology by the Health Actuarial Task Force is to define past losses as actual past claims less expected past claims when determining loss ratio compliance where expected past claims are defined as the following:

“Expected claims shall be calculated based on the original filing assumptions assumed until new assumptions are filed as part of a rate increase. New assumptions shall be used for all periods beyond each requested effective date of a rate increase regardless of whether or not the rate increase is approved. Expected claims are calculated for each calendar year based on the in-force at the beginning of the calendar year. Expected claims shall include margins for moderately adverse experience; the margins included in the claims that were used to determine the lifetime loss ratio consistent with the original filing or as modified in any rate increase filing.”

The rate increases we calculated follow the methodology described above to ensure that we are not recouping past losses.

This submission is being filed in all states.

The following items are included in this submission:

- *the submission letter.
- *all actuarial material.
- *sample Policyholder Communication Package
- *all required certifications.

Please do not hesitate to contact us regarding this submission. We will be happy to meet with the Department at a time of your convenience.

Thank you for your time and consideration in this matter.

Effective Date:

Status: Approved

Comment: In approving this filing, the Company is reminded that pursuant to 14VAC5-200-153 D, it is required to provide updated experience reports for the next 3 years comparing the actual results to the results that the company projected in justifying the rate increase. We would expect the first of the three experience report filings to be made no later than 15-18 months after implementation, capturing a full 12 months of experience following the rate implementation, and including updated data through the most recent year end.

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	02/27/2024
Submitted Date	02/27/2024
Respond By Date	03/28/2024

Dear Michelle Fluet,

Introduction:

The Bureau has the following concerns and/or needs additional information to continue its review.

Please note, any revisions, modifications, or changes of any type to this filing must be clearly identified and explained in detail. For clarity, multiple changes should be summarized in a cover letter, etc.

Objection 1

- Rate Table, [LTC-03 VA] (Rate)
- Rate Table, [BSC-03 VA] (Rate)
- Rate Table, [BSC-03 Rev. 1/04] (Rate)
- L&H Actuarial Memorandum (Supporting Document)

Comments: After review of the Company's requested rate increase of 31.80%, this rate increase does not fully meet Virginia regulations 14VAC5-200-153. After review by the Commissioner, the following rate increase would bring the request into compliance.

GPO: 31.40%

Simple: 32.00%

Compound: 23.30%

The Bureau would like the company to consider implementing the increase over 2-3 years without using the time value of money.

If this rate increase is acceptable to the company, please revise the actuarial memorandum and the necessary supporting documentation as well as the Rate/Rule Schedule - Company Rate Information and premium schedules. Once the updates are received, we will review for approval.

Conclusion:

We shall be glad to continue our review of this submission upon receipt of the requested information or resolution of the issues described above. Upon subsequent review, other concerns may require attention.

A response to this request for information is expected within 30 days. After 30 days, the filing will be DISAPPROVED and CLOSED unless an extension is requested. An initial extension of up to 30-days will be granted upon request made before the Respond by Date.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed. Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	12/14/2023
Submitted Date	12/14/2023
Respond By Date	01/13/2024

Dear Michelle Fluet,

Introduction:

The Bureau has the following concerns and/or needs additional information to continue its review.

Please note, any revisions, modifications, or changes of any type to this filing must be clearly identified and explained in detail. For clarity, multiple changes should be summarized in a cover letter, etc.

Objection 1

- L&H Actuarial Memorandum (Supporting Document)

Comments: Clearly identify why this request is so much higher than previous.

Objection 2

- L&H Actuarial Memorandum (Supporting Document)

Comments: The Bureau of Insurance has potential concerns about the requested rate increase:

1. Please respond or explain in detail why the requested increase is so large.
 - a. Given that the intent is to adjust rates so that additional requests will be unnecessary, barring significant changes in experience.
 - b. Given the advanced age of the Virginia insureds.
2. Would the company be willing to spread the increase out over 2-3 years, without adjusting for the time value of money?

Conclusion:

We shall be glad to continue our review of this submission upon receipt of the requested information or resolution of the issues described above. Upon subsequent review, other concerns may require attention.

A response to this request for information is expected within 30 days. After 30 days, the filing will be DISAPPROVED and CLOSED unless an extension is requested. An initial extension of up to 30-days will be granted upon request made before the Respond by Date.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed. Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Please let me know if you need additional clarification.

Thank you for your courtesy and consideration in this matter.

Sincerely,

Comments: Please state the intentions of the company regarding a future rate increase if the proposed rate increase is approved. Explain clearly what would trigger a future rate increase if the proposed rate were approved.

Objection 5

- L&H Actuarial Memorandum (Supporting Document)

Comments: Please provide the discount rate the company used in Exhibit 2.

Objection 6

- L&H Actuarial Memorandum (Supporting Document)

Comments: Please explain if any adjustments to mortality or morbidity factors were made for COVID-19. Please fully describe these adjustments.

Objection 7

- L&H Actuarial Memorandum (Supporting Document)

Comments: Please provide all projections required to compute the "Prospective PV" and the "If Knew/Makeup Blend" allowable increases as currently under consideration by the NAIC.

Objection 8

State: Virginia **Filing Company:** John Hancock Life Insurance Company (U.S.A.)
TOI/Sub-TOI: LTC03I Individual Long Term Care/LTC03I.001 Qualified
Product Name: 2022 Inforce Rate Increases- JH CCII
Project Name/Number: 2022 Inforce Rate Increases - JH CCII/

- L&H Actuarial Memorandum (Supporting Document)

Comments: Please provide an Exhibit similar to the one in section 9 for the Nationwide block of business.

Objection 9

- L&H Actuarial Memorandum (Supporting Document)

Comments: Please provide the total cumulative rate increases in Virginia for all forms without the proposed rate increase.

Objection 10

- L&H Actuarial Memorandum (Supporting Document)

Comments: For all projections requested in this question, the baseline should comply with the following:

a. Any policies issued as limited-pay which are now in paid-up status should be removed, both from historical experience and future projections.

b. Premiums should be at the Virginia rate level for both historical and projected future.

Objection 11

- L&H Actuarial Memorandum (Supporting Document)

Comments: To assist the Virginia Bureau of Insurance in its review, for each of the subsets of the business corresponding to the combinations of Benefit Period, Elimination Period and Inflation Option, please provide in Excel format the following projections on a nationwide basis:

a. current assumptions and current rates

b. current assumptions with the proposed rate increase

c. current assumptions with premiums restated as if the proposed rate increase had been in effect from inception.

d. actual historical experience to the projection date and future projections based on the prior assumptions (to be used in the Prospective PV test).

e. original assumptions and original premiums from inception

Projections a. - e. can be separate tabs or combined into separate columns on the same exhibit.

Objection 12

- L&H Actuarial Memorandum (Supporting Document)

Comments: Please identify the portion of the proposed rate increase that is attributed to each of the following components:

a. Changes in the voluntary lapse assumptions

b. Changes in the mortality assumptions

c. Changes in the expected claim cost assumptions

d. Changes in any other assumptions (e.g., interest rates)

Objection 13

State: Virginia **Filing Company:** John Hancock Life Insurance Company (U.S.A.)

Product Name: 2022 Inforce Rate Increases- JH CCII
Project Name/Number: 2022 Inforce Rate Increases - JH CCII/

- L&H Actuarial Memorandum (Supporting Document)
Comments: Please confirm if margin was included in claim reserve estimates.

Objection 14

- L&H Actuarial Memorandum (Supporting Document)
Comments: Please provide the full credibility standard used to determine the credibility of the experience of each policy series associated with this filing. Additionally, please provide the number of claims associated with each policy series.

Objection 15

- L&H Actuarial Memorandum (Supporting Document)
Comments: Please advise if there are any partnership policies issued to any of the remaining Virginia policyholders.

Conclusion:

We shall be glad to continue our review of this submission upon receipt of the requested information or resolution of the issues described above. Upon subsequent review, other concerns may require attention.

A response to this request for information is expected within 30 days. After 30 days, the filing will be DISAPPROVED and CLOSED unless an extension is requested. An initial extension of up to 30-days will be granted upon request made before the Respond By Date.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed. Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Sincerely,
Ian Patterson

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	06/14/2023
Submitted Date	06/14/2023
Respond By Date	06/21/2023

Dear Michelle Fluet,

Introduction:

The Bureau has completed a preliminary review of this filing and have the following concerns and/or requests. A more detailed and thorough review will be performed once these concerns are addressed.

Please note, any revisions, modifications, or changes of any type to this filing must be clearly identified and explained in detail. For clarity, multiple changes should be summarized in a cover letter, etc.

Objection 1

- Long Term Care Insurance Rate Request Summary (Supporting Document)

Comments: Please add the SERFF Tracking number to the form.

Conclusion:

We shall be glad to continue our review of this submission upon receipt of the requested information or resolution of the issues described above. Upon subsequent review, other concerns may require attention.

A response to this request for information is expected within 30 days. After 30 days, the filing will be DISAPPROVED and CLOSED unless an extension is requested. An initial extension of up to 30-days will be granted upon request made before the Respond by Date.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed. Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Please let me know if you need additional clarification.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Bobby Toone

Response Letter

Response Letter Status Submitted to State
Response Letter Date 03/28/2024
Submitted Date 03/28/2024

Dear Bobby Toone,

Introduction:

Thank you for your letter.

Response 1

Comments:

Please find our response to your February 27, 2024 objection on the Supporting Documentation tab labeled as "Response to 2/27/24 objection".

Related Objection 1

Applies To:

- Rate Table, [LTC-03 VA] (Rate)
- Rate Table, [BSC-03 VA] (Rate)
- Rate Table, [BSC-03 Rev. 1/04] (Rate)
- L&H Actuarial Memorandum (Supporting Document)

Comments: After review of the Company's requested rate increase of 31.80%, this rate increase does not fully meet Virginia regulations 14VAC5-200-153. After review by the Commissioner, the following rate increase would bring the request into compliance.

GPO: 31.40%

Simple: 32.00%

Compound: 23.30%

The Bureau would like the company to consider implementing the increase over 2-3 years without using the time value of money.

If this rate increase is acceptable to the company, please revise the actuarial memorandum and the necessary supporting documentation as well as the Rate/Rule Schedule - Company Rate Information and premium schedules. Once the updates are received, we will review for approval.

Response 2

Comments:

Please find our response to your December 14, 2023 objection on the Supporting Documentation tab labeled as "Response to 12/14/23 objection".

Related Objection 2

Applies To:

State:	Virginia	Filing Company:	John Hancock Life Insurance Company (U.S.A.)
TOI/Sub-TOI:	LTC03I Individual Long Term Care/LTC03I.001 Qualified		
Product Name:	2022 Inforce Rate Increases- JH CCII		
Project Name/Number:	2022 Inforce Rate Increases - JH CCII/		

- L&H Actuarial Memorandum (Supporting Document)

Comments: The Bureau of Insurance has potential concerns about the requested rate increase:

1. Please respond or explain in detail why the requested increase is so large.
 - a. Given that the intent is to adjust rates so that additional requests will be unnecessary, barring significant changes in experience.
 - b. Given the advanced age of the Virginia insureds.

2. Would the company be willing to spread the increase out over 2-3 years, without adjusting for the time value of money?

Changed Items:

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Subject: **SERFF Tracking #MULF-133663115**

At the request of the Virginia SCC Bureau of Insurance (the “Bureau”), I have reviewed the filing for the above captioned submission from **John Hancock Life Insurance Company (U.S.A.)** (the “Company”). This is a rate increase filing for a block of Long Term Care Insurance.

Recommendation

My review of this filing was performed according to the provisions of 14VAC5-200. Applicable Actuarial Standards of Practice were considered, including Actuarial Standard of Practice No. 18, “Long-Term Care Insurance” and Actuarial Standard of Practice No. 8, “Regulatory Filings for Rates and Financial Projections for Health Plans”. After review of the Company’s submission, I believe that the Company has demonstrated compliance with the laws and regulations for the block as a whole. However, if the block is segmented by inflation type, policies with compound inflation do not comply with the dual loss ratio test. My recommendation is ambivalent between two options: (1) approve the request as-is based on the block as a whole passing the test, or (2) approve the increases in the row below labeled “Compliant Increase under 14VAC5-200” by segment.

Other Extra-Regulatory Considerations

In addition to the regulatory analysis referenced above, I have reviewed a series of extra-regulatory tests that the Bureau considers for LTC rate filings. The maximum rate increase allowed under each of those tests is shown in the chart below:

Inflation	GPO	Simple	Compound	Total
Requested	31.4%	32.0%	32.0%	31.8%
Compliant Increase under 14VAC5-200	31.4%	32.0%	23.3%	
Future LR w/ALR	full	full	full	full
Additional Test	Max Allowed			
PV Future Loss	27.3%	full	full	full
Prospective PV				37.6%
If-Knew/Makeup				23.8%
State Equity				9.4%

History and Details of Request

The forms subject to this filing are referred to as the CCII block, which were issued from 12/2003-2008. Since all policies are issued 10/1/2003 and later, they are subject to 14VAC5-200-153.

Relevant statistics on these policies are shown in the chart below:

Series	Previous Increases	# of Policyholders	Requested Increase	Cumulative Increase
CCII	22.0% (12/2011) 35.1% (7/2019) 26.7% (2/2021)	5,481	24.1% to 32.0%; Avg 31.8%	175.3%

Methodology

My approach was to a) review the submitted filing materials, b) check the filing contents and assumptions for compliance with all relevant regulations, c) verify the calculations in the supplied exhibits, d) review the projections for reasonableness, and e) analyze the current increase and cumulative increase in Virginia relative to other states.

Assumptions

Assumptions are consistent with best estimate assumptions used for AG51 and GPV projections except that a shock lapse is included in the projections supporting this rate increase.

Assumptions

Morbidity – the morbidity assumptions are derived from a study of Company experience completed in 2022 based on data from 2016-2019. Experience from calendar years 2020 and 2021 was excluded to due to the short-term nature of impacts from Covid-19. The assumptions include future claims improvement of 0.5% per year to age 100 and a 7.5% margin for moderately adverse experience. The A/E results shown in the actuarial memo show a very good match for incidence (101%), terminations (97%) and utilization (102%).

One often-quoted industry basis for measuring credibility is the June 12, 2003 letter from the American Academy of Actuaries Long-Term Care Reserving Work Group to the Accident and Health Working Group of the NAIC Life and Health Actuarial Task Force which recommended a “Rule of Thumb” standard for full credibility of incidence rates of 1,082 claims (within 5% of the true claims with 90% confidence). The letter also reports that the standard for aggregate loss is a multiple of the standard for incidence, in the range of 3 to 5 times (3,246 to 5,410 claims). This particular form has about 3,600 claims during the study period of 2016 through 2019, which would give the data full credibility by this measure.

Original morbidity was based on the 1985 and 1995 NNHS, 1984 NHIS, and 1982 through 1994 NLTCs with adjustments to recognize insured versus population data.

Voluntary Lapse – the lapse assumptions vary by issue age and duration with minimums ranging from 0.3% to 1.2% for policies with inflation and from 0.5% to 1.6% with no inflation. The

original ultimate assumptions used 0.85% to 1.33%. The A/E results are 96%-104% overall. In addition, a 2.4% shock lapse is assumed due to the rate increase.

Mortality – based on the Company’s own experience from 2016 to 2019, varying by plan, underwriting class, marital status, issue age, duration and gender. The A/E result was 100%. Original mortality was based on the 1994 GAM Table with selection and improvement.

Interest – The valuation rates of 4.0%-4.5% are used for discounting.

Justification for Rate Increase

The loss ratio results are as follows:

Benefit Period	Inflation	Original LR	No increase		w/ increase		14VAC5 Test	Allowed
			Fut/ALR	Lifetime	Fut/ALR	Lifetime		
Limited	GPO	58%	104%	72%	83%	67%	PASS	
Limited	Simple	79%	155%	97%	122%	90%	PASS	
Limited	Compound	93%	137%	102%	107%	92%	FAIL	27.4%
Lifetime	GPO	77%	108%	79%	85%	72%	FAIL	6.2%
Lifetime	Simple	94%	160%	105%	125%	96%	PASS	
Lifetime	Compound	102%	136%	93%	106%	84%	FAIL	0.0%
		85%	137%	96%	108%	88%	PASS	

While the 14VAC5-200-153 G test in passed in the aggregate, some segments have shortfalls. If the Bureau wants to enforce the test to pass on each segment, then the highlighted cells above would need to be restricted.

PV of Future Loss Test

Period	Inflation	Original	Current	Proposed	Allowed
Limited	GPO	(139M)	(213M)	(144M)	
Limited	Simple	(555M)	(967M)	(804M)

Lifetime	Compound	(190M)	(172M)	(133M)	0.0%
		(2,995M)	(4,327M)	(3,491M)	

For this analysis, I compared the present value of expected future loss under three scenarios: 1) original assumptions; 2) current assumptions and current premiums; and 3) current assumptions and proposed premiums. The highlighted cells above show that certain segments do not pass the requirements.

Prospective PV Approach

I have reviewed the data provided by the Company supporting this method and believe it follows the guidance of the NAIC LTC Pricing Subgroup. The allowable rate increase under this method is 37.6% in aggregate.

If-Knew/Makeup Blend Approach

I have reviewed the data provided by the Company supporting this method and believe it follows the guidance of the NAIC LTC Pricing Subgroup. The allowable rate increase under this method would be 23.8%.

State Rate Equity

The statistics related to rate actions in all states are presented in the table below.

NW Range	NW Avg	NW Prop	VA Curr	VA Prop	Allowed
0%-159%	82%	128%	109%	175%	9%

Alternatives to Rate Increase

Inflation Landing Spots

The Company is proposing inflation landing spot options in lieu of a rate increase for policyholders who currently have inflation coverage on their policies. The actual landing spot varies depending on whether the insured has elected a landing spot in prior increases. They state that the inflation reductions are actuarially equivalent to the rate increase in the aggregate, but any broad-brush approach like this will not be equitable on an individual policyholder level since the aggregate calculation means that some policyholders would be better and some worse than the average. Most policyholders are not sophisticated enough to determine whether acceptance of the reduced inflation landing spot would be of equivalent value to an increase in premium. At a minimum, the Bureau should require the Company to provide a prominent disclosure that all options available to the policyholder may not be of equal value.

Shared Cost Option

In return for no premium increase, a kind of coinsurance is introduced in the benefits which the Company calls the Shared Cost percentage (SC%). The SC% varies by issue age, inflation and benefit period. So if, for example, the SC% is 15%, then the policy will pay 85% of the covered charges up to 85% of the previous benefit maximum for any future claims.

In a previous rate filing (see Reviewer Note “Shared Cost % Option” in MULF-131210202), I had asked about the seemingly erratic levels of the SC% by pricing cell and the Company responded with their rationale for the assumptions that were made. While not perfect, they have attempted to provide a better fit for policyholder equity by cell in the method they used.

Voluntary Enhanced Paid-Up Policy Option

For those who choose to stop paying premiums, this option will be a paid-up policy with a policy limit equal to the lesser of the current policy limit and 150% of premiums paid less any benefits received.

LTC Buy-Out Offer and Policy Termination Option (New)

If the policyholder elects this option, they will receive a payment in exchange for terminating their policy. If elected, this option will terminate the policy effective immediately. Once the policy is terminated in exchange for the payment, the policy will no longer be active and cannot be restored. This offer will only be available for insureds who purchased their policy below age 70. The payment is 65% of the gross premium valuation reserve.

Reliance and Qualifications

I am providing this letter to the Bureau as the sole intended user. The scope of the review relates only to compliance with applicable laws and regulations relating to the actuarial aspects of the filing under consideration, and the intended purpose is to communicate my findings regarding this filing. Distribution of this letter to parties other than the Bureau by me or any other party does not constitute advice by me to those parties. The reliance of parties other than the Bureau on any aspect of this work is not authorized by me and is done at their own risk.

In arriving at my opinion, I used and relied on information provided by the Company and the Bureau without independent investigation or verification. If this information is inaccurate, incomplete, or out of date, my findings and conclusions may need to be revised. While I have relied on the data provided without independent investigation or verification, I have reviewed the data for consistency and reasonableness. In the event that I found the data inconsistent or unreasonable, I have requested clarification.

I am a member of the American Academy of Actuaries and meet that body's Qualification Standards to render this opinion. I am responsible for this work and have utilized generally accepted actuarial methodologies in arriving at my opinion.

If you have any questions regarding this filing, please contact me to discuss.

Sincerely,

Shawn D. Parks, FSA, MAAA

SERFF Tracking Number:

Revised Rates

Average Annual Premium Per Member: \$4,394

Average Requested Percentage Rate Change Per Member: 31.8%

Range of Requested Rate Changes: 24.1% - 32.0%

Number of Virginia Policyholders Affected: 5,481

Form Number	Product Name	Issue Dates	Prior Rate Increases – Date and Percentage Approved	Outlook for Future Rate Increases
LTC-03 VA	Custom Care II	December 2003 - July 2008	22.0% - 12/01/2011 35.1% - 07/03/2019 26.7% - 02/18/2021	If the requested premium rate schedule increase is implemented and the underlying assumptions are realized, no further premium rate schedule increases are anticipated.
BSC-03 VA BSC-03 VA Rev 1/04	Essential Care II	January 2004 - January 2007	22.0% - 12/01/2011 35.1% - 07/03/2019 26.7% - 02/18/2021	If the requested premium rate schedule increase is implemented and the underlying assumptions are realized, no further premium rate schedule increases are anticipated.

Attach a narrative to summarize the key information used to develop the rates including the main drivers for the revised rates.

This document is prepared by the carrier to help explain the requested rate change and is only a summary of the company's request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing at <https://www.scc.virginia.gov/boi/SERFFInquiry/default.aspx>.

Summary of the John Hancock's 2022 Rate Increase Request John Hancock Life Insurance Custom Care II Policy Series

When pricing a long-term care insurance product, insurance companies use the best available information at that time to predict how many policyholders might ultimately use the benefit in the future. This involves making certain assumptions about a variety of factors including, for example, the expected lifespan of policyholders, the length of time policyholders keep their policies, and the cost of receiving long-term care services. If the actual experience differs in an unfavorable way from the expected experience based on these assumptions, a premium rate increase may become necessary.

John Hancock continuously monitors the experience of our in-force LTC insurance policies. We have completed our most recent triennial comprehensive long-term care experience study. Relative to previous expectations, the new data demonstrates lower mortality for non-claimants, higher utilization of benefits, and lower than expected claim terminations, partly offset by lower claim incidence. Based on that data, we have determined that there is a need to increase premiums on this policy series so we can meet our future claims obligations.

The filing will vary by state based on the amount and timing of prior increases that we were permitted to implement in that state. In this way, policyholders are not subsidizing policyholders in other states.

In Virginia, we are requesting an average rate increase of 31.8% which ranges from 24.1% to 32.0% on this policy series.

No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. John Hancock's decision to increase premiums on certain policies is based upon the future claims anticipated on these policies.

After the rate increase is accepted by the Virginia Insurance Department, affected policyholders will be provided with an extensive and personalized notification communication at least 90 days prior to the effective date, which will describe the increase and options available to mitigate the impact of the rate increase. In addition, customer support will be available through a dedicated customer service team to help our policyholders navigate through their choices and respond to any questions.

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B3
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B7
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 and 2019 Rate Filings
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases

Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C1
John Hancock Life Insurance Company (U.S.A.)

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C3
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Age	GPO Inflation with 2016 and 2022 Shared Cost							1.8% Simple Inflation or 3.4% Simple Inflation with 2016 Shared Cost or 3.2% Simple Inflation with 2022 Shared Cost or 5% Simple Inflation with 2016 and 2022 Shared Cost							1.8%/3% Compound Inflation or 3.4%/3% Compound Inflation with 2016 Shared Cost or 3.2%/3% Compound Inflation with 2022 Shared Cost or 5%/3% Compound Inflation with 2016 and 2022 Shared Cost							Multiplier for 5%/5%

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C5
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Age	GPO Inflation with 2019 and 2022 Shared Cost							2.2% Simple Inflation or 3.4% Simple Inflation with 2019 Shared Cost or 3.7% Simple Inflation with 2022 Shared Cost or 5% Simple Inflation with 2019 and 2022 Shared Cost							2.2%/3% Compound Inflation or 3.4%/3% Compound Inflation with 2019 Shared Cost or 3.7%/3% Compound Inflation with 2022 Shared Cost or 5%/3% Compound Inflation with 2019 and 2022 Shared Cost							Multiplier for 5%/5%

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C7
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 and 2019 Rate Filings
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Age	0.7% Simple Inflation or 1.8% Simple Inflation with 2019 Shared Cost or 2.2% Simple Inflation with 2016 Shared Cost or 3.4% Simple Inflation with 2016 and 2019 Shared Cost or 1.9% Simple Inflation with 2022 Shared Cost or 3.2% Simple Inflation with 2019 and 2022 Shared Cost or 3.7% Simple Inflation with 2016 and 2022 Shared Cost							0.7%/3% Compound Inflation or 1.8%/3% Compound Inflation with 2019 Shared Cost or 2.2%/3% Compound Inflation with 2016 Shared Cost or 3.4%/3% Compound Inflation with 2016 and 2019 Shared Cost or 1.9%/3% Compound Inflation with 2022 Shared Cost or 3.2%/3% Compound Inflation with 2019 and 2022 Shared Cost or 3.7%/3% Compound Inflation with 2016 and 2022 Shared Cost							Multiplier for 5%/5%	Compound Inflation at Issue

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C8
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 1 of 2)

*Premiums to be used only with those that have
previously elected a landing spot option during the 2010, 2016, and 2019 Rate Filings*
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B1
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 2 of 2)

*Premiums to be used only with those that have
not previously elected a landing spot option*
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B3
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B7
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 and 2019 Rate Filings
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases

Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit are calculated by multiplying the rates in the table by the factors listed to the right

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C3
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Age	GPO Inflation with 2016 and 2022 Shared Cost							1.8% Simple Inflation or 3.4% Simple Inflation with 2016 Shared Cost or 3.2% Simple Inflation with 2022 Shared Cost or 5% Simple Inflation with 2016 and 2022 Shared Cost							1.8%/3% Compound Inflation or 3.4%/3% Compound Inflation with 2016 Shared Cost or 3.2%/3% Compound Inflation with 2022 Shared Cost or 5%/3% Compound Inflation with 2016 and 2022 Shared Cost							Multiplier for 5%/5%

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C5
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

Age	GPO Inflation with 2019 and 2022 Shared Cost							2.2% Simple Inflation or 3.4% Simple Inflation with 2019 Shared Cost or 3.7% Simple Inflation with 2022 Shared Cost or 5% Simple Inflation with 2019 and 2022 Shared Cost							2.2%/3% Compound Inflation or 3.4%/3% Compound Inflation with 2019 Shared Cost or 3.7%/3% Compound Inflation with 2022 Shared Cost or 5%/3% Compound Inflation with 2019 and 2022 Shared Cost							Multiplier for 5%/5%

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C8
John Hancock Life Insurance Company (U.S.A.)
LTC-03 VA (Year 2 of 2)

*Premiums to be used only with those that have
previously elected a landing spot option during the 2010, 2016, and 2019 Rate Filings*
Standard rates per \$100 of Monthly Benefit
90 Day Elimination Period

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B1
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
not previously elected a landing spot option
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B3
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B5
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases

Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C1
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
not previously elected a landing spot option
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C3
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C5
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C7

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B1
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
not previously elected a landing spot option
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B3
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B5
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases

Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C1
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
not previously elected a landing spot option
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C3
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C5
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B1
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
not previously elected a landing spot option
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B3
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B5
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B7
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 and 2019 Rate Filings
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases

Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit are calculated by multiplying the rates in the table by the factors listed to the right

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C3
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C5
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C7
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 1 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 and 2019 Rate Filings
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Age	0.7% Simple Inflation or 1.8% Simple Inflation with 2019 Shared Cost or 2.2% Simple Inflation with 2016 Shared Cost or 3.4% Simple Inflation with 2016 and 2019 Shared Cost or 1.9% Simple Inflation with 2022 Shared Cost or 3.2% Simple Inflation with 2019 and 2022 Shared Cost or 3.7% Simple Inflation with 2016 and 2022 Shared Cost							0.7%/3% Compound Inflation or 1.8%/3% Compound Inflation with 2019 Shared Cost or 2.2%/3% Compound Inflation with 2016 Shared Cost or 3.4%/3% Compound Inflation with 2016 and 2019 Shared Cost or 1.9%/3% Compound Inflation with 2022 Shared Cost or 3.2%/3% Compound Inflation with 2019 and 2022 Shared Cost or 3.7%/3% Compound Inflation with 2016 and 2022 Shared Cost							Multiplier for 5%/5%

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B3
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B5
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix B7
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 and 2019 Rate Filings
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C3
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C5
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2019 Rate Filing
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C7
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2016 and 2019 Rate Filings
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Age	0.7% Simple Inflation or 1.8% Simple Inflation with 2019 Shared Cost or 2.2% Simple Inflation with 2016 Shared Cost or 3.4% Simple Inflation with 2016 and 2019 Shared Cost or 1.9% Simple Inflation with 2022 Shared Cost or 3.2% Simple Inflation with 2019 and 2022 Shared Cost or 3.7% Simple Inflation with 2016 and 2022 Shared Cost							0.7%/3% Compound Inflation or 1.8%/3% Compound Inflation with 2019 Shared Cost or 2.2%/3% Compound Inflation with 2016 Shared Cost or 3.4%/3% Compound Inflation with 2016 and 2019 Shared Cost or 1.9%/3% Compound Inflation with 2022 Shared Cost or 3.2%/3% Compound Inflation with 2019 and 2022 Shared Cost or 3.7%/3% Compound Inflation with 2016 and 2022 Shared Cost							Multiplier for 5%/5%

See Appendix D for details on premium calculations for policyholders who elected the Shared Cost options
Rates shown below the line apply only to attained age GPO Inflation Adjustment offers, Shared Care 2-year purchases on exhaustion of benefits, and/or Family Care purchases
Compound rates reflect rates with a 5% annual increase in monthly/daily benefits and a 3% increase in policy limit; rates reflecting a 5% annual increase in both benefit and policy limit
are calculated by multiplying the rates in the table by the factors listed to the right

Appendix C8
John Hancock Life Insurance Company (U.S.A.)
BSC-03 VA, BSC-03 VA Rev 1/04 (Year 2 of 2)
Premiums to be used only with those that have
previously elected a landing spot option during the 2010, 2016, and 2019 Rate Filings
Standard rates per \$10 of Daily Benefit
90 Day Elimination Period; 100% Home Health Care

Age	0.8% Simple Inflation with 2019 Shared Cost or 1.2% Simple Inflation with 2016 Shared Cost or 2.4% Simple Inflation with 2016 and 2019 Shared Cost or 0.8% Simple Inflation with 2022 Shared Cost or 2.0% Simple Inflation with 2019 and 2022 Shared Cost or 2.5% Simple Inflation with 2016 and 2022 Shared Cost							0.8%/3% Compound Inflation with 2019 Shared Cost or 1.2%/3% Compound Inflation with 2016 Shared Cost or 2.4%/3% Compound Inflation with 2016 and 2019 Shared Cost or 0.8%/3% Compound Inflation with 2022 Shared Cost or 2.0%/3% Compound Inflation with 2019 and 2022 Shared Cost or 2.5%/3% Compound Inflation with 2016 and 2022 Shared Cost							Multiplier for 5%/5%	Compound Inflation at Issue

Review Requirements Checklist
 FOR REVISION TO LONG-TERM CARE INSURANCE (LTCI) RATES

NOTE: This document is intended to assist carriers in preparing LTCI rate increase filings for review and approval by the Bureau of Insurance. It provides guidance based on current Virginia laws and regulations. It should be noted, however, that this checklist should not be used exclusive of other important resources, including, but not limited to, any and all other applicable state insurance laws and associated rules and regulations. Note that some regulatory references in the Comments column are approximate. It is the responsibility of the carriers to verify that their products comply with all relevant statutory and regulatory requirements.

REVIEW REQUIREMENTS	REFERENCES	COMMENTS	FILER'S NOTES
Source of Filing	14 VAC 5-101-40	Filings shall be submitted in SERFF. Third-party filing authorization must be included.	Acknowledged
	14VAC5-101-50 C 1	Filing description must include the type of insurance form, including a description of the form and the market for which the form is intended; and intentions to concentrate on a specialized market should be noted.	Acknowledged
	14VAC5-101-50 C 2	Filing description must include the form number of each form that is being filed.	Acknowledged
General Information Filing Description	14VAC5-101-50 C 3	Filing description must state whether submitted form is new, or if replacing, revising, or modifying a previously approved form, the exact changes that are intended.	NA
	14VAC5-101-50 C 4	Filing description must identify any change in benefits and indicate whether the change affects premium rates for the form.	NA
	14VAC5-101-50 C 5	Filing description must state if approval of a form submitted has been withdrawn by another regulatory body and the reasons for such a withdrawal.	NA

Review Requirements Checklist
FOR REVISION TO LONG-TERM CARE INSURANCE (LTCI) RATES

REVIEW REQUIREMENTS	REFERENCES	COMMENTS	FILER'S NOTES
	14VAC5-101-50 F	Any form filed that is to be used with a previously approved form, including an application, shall identify the form number, approval date, and SERFF or state tracking number in the new filing.	NA
	14VAC5-101-50 G	Any amendment, endorsement, or rider that intends to revise a previously approved form shall be accompanied by the previously approved form filed as supporting documentation.	NA
Form Number	14VAC5-101-60 1	Form Number must appear in the lower left-hand corner of the first page of the form. It shall consist of numbers, letters, or a combination of both. The form number shall distinguish the form from all other forms used by the company.	NA
Company Name and Address	14VAC5-101-60 2	Full and proper name (including "Inc.") must appear prominently on first page or cover sheet of all forms. Home office address must be included on first page of any policy, application, or enrollment form.	NA
Marketing Name or Logo	14VAC5-101-60 3	A marketing name or logo also may be used on the form, provided that the marketing name or logo does not mislead as to the identity of the company.	NA
	14VAC5-101-60 4	The cover page of a policy also shall include the address of an office that will administer the policy if different from the home office, a company telephone number, and company website address.	NA
Final Form	14VAC5-101-60 5	Form must be submitted in "final form" and in "John Doe fashion" to indicate its intended use.	NA
Electronic Version	14VAC5-101-60 6	Each form that is to be used in an electronic version shall be filed in a format that matches the electronic version exactly.	NA
Readability	14VAC5-101-70 A	Each form submitted for review or approval shall be written in simplified language, logically and clearly arranged, and printed in a legible format.	NA

Review Requirements Checklist
FOR REVISION TO LONG-TERM CARE INSURANCE (LTCI) RATES

REVIEW REQUIREMENTS	REFERENCES	COMMENTS	FILER'S NOTES
	14VAC5-101-70 C	Defined words and terms shall be placed in a separate definition section that is clearly identified, unless only used in one section.	NA
Type Size	14VAC5-101-70 E	Any form submitted for review or approval shall be printed in at least 10-point type size.	NA
	14VAC5-101-70 F	Any policy shall achieve a minimum Flesch reading ease score of 50 or an equivalent score using another comparable test, unless otherwise specified by statute, or an exception requested pursuant to 14 VAC 5-101-70 G.	NA
Variability	14VAC5-101-80	<p>A. Use of variable bracketed information shall be limited. All variable information shall be clear, easily understood and fully explain each use of the variable language.</p> <p>B. Administrative information, such as officer names, titles and signatures, contact information, or company logo may be presented as variable bracketed text.</p> <p>C. Different types of benefits may be variable only for inclusion or exclusion within the form. The use of brackets within brackets is not permitted, except when variability is necessary to identify a period of time or other numeric value.</p> <p>D. Each instance of variable text shall appear in brackets on a form and shall be separately and completely explained in detail in a Statement of Variability document. Each explanation of variability shall appear in the same order that it appears on the form.</p> <p>E. Requests for revisions to a Statement of Variability contained in a previously approved filing shall be accomplished by notification in the original filing.</p>	NA

	14VAC5-200-153 C 3	In the event that a policy form has both exceptional and other increases, the values in subdivisions 2 b and d of this subsection will also include 70% for exceptional rate increase amounts; and	N/A
	14VAC5-200-153 C 4	All present and accumulated values used to determine rate increases shall use the maximum valuation interest rate for contract reserves as specified in § 38.2-1371 of the Code of Virginia. The actuary shall disclose as part of the actuarial memorandum the use of any appropriate averages.	Using Maximum statutory valuation rates at time of issue.
	14VAC5-200-153 D	For each rate increase that is implemented, the insurer shall file for approval by the commission updated projections, as defined in subdivision B 3 a of this section, annually for the next three years and include a comparison of actual results to projected values. The commission may extend the period to greater than three years if actual results are not consistent with projected values from prior projections. For group insurance policies that meet the conditions in subsection K of this section, the projections required by subdivision B 3 a of this section shall be provided to the policyholder in lieu of filing with the commission.	OK
	14VAC5-200-153 E	If any increased premium rate in the revised premium rate schedule is greater than 200% of the comparable rate in the initial premium schedule, the premiums exceeding 200% shall be clearly identified and lifetime projections, as defined in subdivision B 3 a of this section, shall be filed for approval by the commission every five years following the end of the required period in subsection D of	OK

		this section. For group insurance policies that meet the conditions in subsection K of this section, the projections required by this subsection shall be provided to the policyholder in lieu of filing with the commission.	
Premium Rate Increases for Policies Issued After September 1, 2015.	14VAC5-200-154 A	An insurer shall request the commission's approval of a pending premium rate schedule increase, including an exceptional increase, prior to the notice to the policyholders and shall include:	N/A
	14VAC5-200-154 A 1	Information required by 14VAC5-200-75;	N/A
	14VAC5-200-154 A 2	Certification by a qualified actuary that:	N/A
		a. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated; and	N/A
		b. The premium rate filing is in compliance with the provisions of this section;	N/A
	14VAC5-200-154 A 3	An actuarial memorandum justifying the rate schedule change request that includes:	
		a. Lifetime projections of earned premiums and incurred claims based on the filed premium rate schedule increase and the method and assumptions used in determining the projected values, including reflection of any assumptions that deviate from those used for pricing other forms currently available for sale;	N/A
		(1) Annual values for the five years preceding and the three years following the valuation date shall be provided separately;	N/A
		(2) The projections shall include the development of the lifetime loss ratio, unless the rate increase is an exceptional increase;	N/A

Review Requirements Checklist
FOR REVISION TO LONG-TERM CARE INSURANCE (LTCI) RATES

Access to Administrative Letters, Administrative Orders, Regulations and Laws is available at:
<http://www.scc.virginia.gov/boi/laws.aspx>

The Rates Section of the Life and Health Division reviews long-term care insurance rate revisions . Please contact the assigned rates examiner or this section directly at (804) 371-9348 if you have questions or need additional information about this line of insurance.

The Flesch reading ease score of the filed policy form is NA.

I represent that a review of the enclosed form has been conducted, and I certify that, to the best of my knowledge and belief, each form submitted is consistent and complies with the requirements of Title 38.2 of the Code of Virginia and the applicable rules and regulations. I understand that a failure to comply with these requirements will result in a disapproval of the filing.

I hereby certify that I have reviewed the attached revision to the long-term care insurance rate filing and determined that it is in compliance with the Revision to Long-Term Care Insurance (LTCI) Rates checklist.

Issue Brief

JUNE 2016

KEY POINTS:

Private LTCI is complex—a policyholder is essentially paying today for a varied range of care he or she may or may not need years, if not decades, into the future.

Insurers are gradually learning through their claims experience what the actual levels of benefits are and will be.

A means for taking corrective action to accommodate the changing future is important.

Understanding Premium Rate Increases on Private Long-Term Care Insurance Policyholders

America faces a great public need in addressing long-term care (LTC) financing, and that need is growing even more critical because the population is aging. There can be substantial costs for LTC services and supports, and for elderly Americans and their families, finding ways to pay for those services and supports can be challenging. According to the U.S. Department of Health and Human Services, about half of Americans turning 65 today will need LTC; one in seven adults will need care for more than five years; and one in six will spend at least \$100,000 for future LTC.¹

Private LTC insurance (LTCI) is an option for financing future LTC needs; however, it is often considered cost-prohibitive by many potential consumers. In particular, in recent years, LTC^{2,3} has gotten a lot of attention because of the relative size and frequency of premium rate increases. The American Academy of Actuaries' Long-Term Care Reform Subcommittee has developed this issue brief to enhance understanding of what is leading to significant rate increases, examine how the need for a rate increase is determined, discuss the effects of increases on various stakeholders, and explore alternatives to premium rate increases.

AMERICAN ACADEMY of ACTUARIES

Objective. Independent. Effective.™

¹ [Long-Term Services and Supports for Older Americans: Risks and Financing Research Brief](#), Office of the Assistant Secretary for Planning and Evaluation; U.S. Department of Health and Human Services, February 2015.

² Many LTCI policies include a "guaranteed renewable" contractual provision requiring an insurance company to offer to renew these policies, but the insurance company may do so with a premium rate increase only on a class basis.

³ Some states include short-term care insurance (which generally provides similar coverage to LTC, but for shorter benefit periods, typically for a year or less) under the classification of long-term care insurance. For clarity, this issue brief is not intended to address such short-term care insurance.

Factors Affecting LTCI Premium Increases

Private LTCI is complex—a policyholder is essentially paying today for a varied range of care he or she may or may not need years, if not decades, into the future. As such, LTCI requires a long projection period, with some policyholders receiving benefits beyond age 100. Therefore even for the average issue age of 57, policy projections require assumptions for more than 50 years into the future. The future period is even longer for younger policyholders. Further, calculating premiums relies on a number of assumptions for variables such as:

- mortality;
- voluntary lapses;
- interest rates; and
- morbidity, including
 - incidence of disabilities requiring LTC services;
 - recoveries and mortality while on claim;
 - benefit expiry;
 - service inflation costs of covered services relative to inflation protection assumptions; and
 - the amount of services required while disabled (for policies that reimburse actual expenses).

In addition, there has been and continues to be a high level of uncertainty and change in circumstances that affect the level of sufficient premium rates, such as:

- changing pattern of service/care providers (e.g., growth of assisted living facilities and continuing care retirement communities, access to home care services that are covered by LTCI);
- changing medical practice (e.g., criteria for diagnosis of Alzheimer’s disease and other cognitive impairments);

- effects of mortality improvement in the population, leading to more older age benefits and longer stays for a given age;
- changes in family composition and availability of caregivers, leading to fewer supports for care at home;
- lower investment income, a crucial consideration for a financial instrument that must accumulate large reserves over many decades to prefund the high cost of services that occur at advanced ages; and
- limited available data under existing LTCI coverage beyond 20 policy years for advanced ages, where morbidity tends to be substantially different from general population data due to the characteristics of those who purchase insurance.

If not for the ability to adjust premiums to better reflect actual experience, carriers would not have offered this type of insurance product. Without LTCI, many more people would exhaust their savings on care costs and then rely on public programs such as Medicaid for their additional care needs.

Often, examining adverse experience from older policy form blocks provides valuable insights that may be applicable to newer blocks. After reviewing the adverse experience, insurers may need to change projection assumptions used for the newer policy forms. The revised projections could identify a need for a premium rate increase. It is important to note that even though adverse experience has not developed yet for a newer block, the revised expected future benefits may be higher for that newer block than previously expected. Recognizing the need to fund the higher expected future benefits for the newer block comes in the form of a premium rate

Members of the Long-Term Care Reform Subcommittee include: P.J. Eric Stallard, MAAA, ASA, FCA, chairperson; Bruce Stahl, MAAA, ASA, vice chairperson; Mark Billingsley, MAAA, FSA; Dave Bond, MAAA, FCA, FSA; Michael A. Boot, MAAA, FSA; Malcolm A. Cheung, MAAA, FSA; Robert W. Darnell, MAAA, ASA; Timothy D. Gustafson, MAAA, FSA; Clark Heitkamp, MAAA, FSA; David E. Kerr, MAAA, ASA; Perry Kupferman, MAAA, FSA; Brad S. Linder, MAAA, ASA; Jamala Murray, MAAA, FSA; David Plumb, MAAA, FSA; Zenaida Samaniego, MAAA, FSA; Steven W. Schoonveld, MAAA, FSA; Sara Teppema, MAAA, FCA, FSA; Matthew Winegar, MAAA, FSA; and Ali Zaker-Shahrak, MAAA, FSA.

increase. Actuaries will then communicate the amount of premium rate increases along with their assumed implementation timing to state insurance departments. Both the increase and its associated implementation timing are very important. Deferring implementation of a needed rate increase is detrimental because waiting to implement the rate increase will not start the accumulation of the needed increased premium to fund the higher expected benefits, resulting in the need for a further increase. The effect on consumers is that deferrals generally lead to the need for a higher rate increase than originally calculated.

When original LTCI policy forms were issued in the 1980s and '90s, often morbidity assumptions were based upon general population statistics, and lapse and mortality assumptions upon experience of non-LTC insurance products. Not only did the insured population behave differently than the general population, but improvements in medical diagnostic practices and services and a large increase in the use of assisted living facilities helped increase (1) the number of individuals surviving to ages where the levels of disability are higher, leading to higher claim rates per insured; and (2) the survival time following the onset of disability.

Insurers are gradually learning through their claims experience what the actual levels of benefits are and will be; nonetheless, they still do not yet have a complete basis for assessing the ultimate levels of claims to be paid at advanced ages and later policy durations, nor how these levels might change over time. Insurers will continue to use existing information to estimate these ultimate claim levels and may need to raise premium rates further as more insured life experience develops or if there are unfavorable changes in benefit usage in the future.

Differences Between Current and Past LTCI Policies

There are significant differences in the pricing characteristics for LTCI policies issued in the past, especially more than a decade ago, compared to policies being issued today and what is expected going forward. The possibility of a future rate increase, at any point in time, is a function of the confidence level in the underlying assumptions and risks associated with these assumptions. With more conservative assumptions, more data to support those assumptions, key assumptions approaching their absolute limits (e.g., ultimate lapse rates approaching zero), and higher explicit margins, it is likely that the probability of rate increases on the current generation of LTCI policies will be lower than the probability of rate increases on previous generations. Future changes in the underlying morbidity, mortality, policyholder behavior, provider behavior, or regulations could alter this likelihood, yet statistical analyses on the experience are helpful when applying historical results to future projections.

A recent presentation⁴ of the likelihood of future rate increases on policies issued in 2014 versus policies issued in 2007 and 2000, based on a survey of insurers writing business in 2000, 2007, and 2014, found the following:

- Barring the potential changes mentioned above, and using the same projection model for each time period, the risk of a future rate increase issued in 2014 (using 2014 assumptions) is only one-quarter that of the risk on business issued in 2000 (using 2000 assumptions), and only one-third that of the risk on business issued in 2007 (using 2007 assumptions).
- The primary reasons for this improved expectation of future premium stability are the substantially greater insured experience behind each successive set of assumptions, the significantly lower future downside risk of most assumptions, and an increase in the margins for adverse experience.

⁴ Stephen Douglas Forman, James M. Glickman, and Roger Loomis, "[LTCI New Business Pricing - How Safe Is It?](#)" Society of Actuaries Annual Meeting, October 11-14, 2015.

- Amount of data increased 16-fold from 2000 to 2014.
- Claims data for ultimate experience (e.g., durations 10 and beyond) at attained ages over 80 increased 70-fold from 2000 to 2014.
- Ultimate voluntary lapse rate assumptions decreased from 2.8 percent in 2000 to 0.7 percent in 2014. This leaves very little room for future adverse deviations from lower voluntary lapse rates.
- Best estimate ultimate claim costs in the year 2000 were estimated at 70 percent of the recently released 2000-2011 SOA LTC Experience Study.⁵ The corresponding best estimate ultimate claim costs used for 2014 pricing were 108 percent of that SOA LTC Experience Study.
- Ultimate mortality being used in 2014 pricing is 72 percent of the mortality assumption used in 2000.
- Investment portfolio rates were assumed to be 6.4 percent for every future year of a policy issued in 2000, while they are now assumed to be 4.6 percent for every future year of a policy issued in 2014.
- As a consequence of the above, the average policy premiums (for the same benefits) increased to 215 percent of the year 2000 premiums by 2014.

Determining the Need for Premium Rate Increases

In determining whether LTCI policies require a premium rate increase, two authorized methods are applied—one for policies subject to minimum loss ratio certifications and one for a rate stability certifications.

Historically, LTCI pricing was subject to a 60 percent minimum loss ratio (MLR) by most states, meaning that the ratio of the present value of lifetime claims to premiums could not fall below 60 percent. Beginning in the early 2000s, many states enacted rate stability laws, which stated that LTCI should be priced without using the MLR approach. Instead actuaries would need to certify that the premium rates had enough margin to withstand moderately adverse experience (MAE).

Under the MLR approach, if an insurer demonstrates that revised historical and future projected experience produces a lifetime loss ratio greater than 60 percent (or the originally priced-for loss ratio), a premium rate increase could be filed that would allow the projected experience on the policies to return to that lifetime loss ratio.

Under the rate stabilization approach, a premium rate increase could be requested if actual past experience combined with projected future experience exceeds the original or previously defined MAE margin. If revised projections using updated experience exceed the MAE margin, then a premium rate increase could be filed such that the lifetime loss ratio on the original premiums is assumed to be the greater of 58 percent and the original assumed loss ratio; and the lifetime loss ratio on the increased premiums is at least 85 percent (with claims projected into the future including MAE). For this premium rate increase filing, the amount of premium rate increase needs to be large enough for the insurer's designated actuary to certify that the premiums are sufficient with no further premium rate increases in the future unless the actual experience exceeds a revised MAE margin.

⁵ Society of Actuaries, [Long Term Care Intercompany Experience Study – Aggregate Database 2000-2011 Report](#), January 2015.

Under either approach, the need for a premium rate increase should be driven by projected lifetime loss ratios also, rather than actual past experience alone. Despite the relatively straightforward mathematical calculations to determine premium increases, determining projection assumptions (e.g., whether actual historical experience is sufficiently credible to justify changes in future projected assumptions) can be difficult.

Some assumptions have a higher degree of credibility earlier in the life of a policy than others. For example, policy lapses are more likely to occur in the earlier years of the policy, and claim submissions are more likely to occur in later policy years. As such, actual lapse experience develops a higher degree of credibility in the earlier years of the business while actual claim experience has a lower degree of credibility in the earlier years of the business.

With LTCI it can take a long time from the purchase of a policy until the first time a claim is submitted, and this time period can be several decades for many individual policies. As such, there is often little claims experience to justify premium rate increases on a relatively young group of policy forms based on the experience of those forms alone. Section 3.2.1 of Actuarial Standard of Practice No. 18, *Long-Term Care Insurance*, requires actuaries to use alternative data sources such as public data or experience from the insurance company's older, similar policy forms for identifying reasonable assumptions.⁶ Waiting until there is adequate claim information on each policy form could result in much larger, less affordable rate increases.

Filing and Approval Process

The rate increase process can vary across state jurisdictions, and can be time-consuming. While a company prepares the same initial rate increase filing in each jurisdiction, the filings are addressed differently by many states. Each state/jurisdiction approval includes unique conditions. Approvals are often for different amounts, which sometimes may not be at an adequate level as determined by the company, with different administrative implementation rules and time frames for that approval to be effective.

Larger rate increase requests may experience delays in approval within a state, and depending on the time taken in the approval process might mean the insurer does not receive approval in the year filed, and for that missed year will need to be made up in later years, in the form of an even higher premium rate for that state. Similarly, if a state approves less than the needed increase, carriers will likely request additional increases to make up for the expected shortfall. Thus, the cumulative amount of the increase could be larger than the original request in that state.

It would be necessary to develop steps to improve the filing and approval process that consider regulatory requirements found in state laws and regulations, including:

- An insurer's thorough review signed by an actuary with LTCI experience identifying deterioration and migration from each of the initial pricing assumptions;
- Predesigned rules or guidelines for increase approval that take into account the necessary total increase or an implementation plan for a series of preferred rate increases;

⁶ Actuarial Standards Board, [Actuarial Standard of Practice No. 18, *Long-Term Care Insurance*](#), January 1999.

- Preset benefit reduction options that will be offered to policyholders in their effort to maintain the same premium level;
- Standardized dates and methods of implementing the rate increases nationally; and
- Seeking greater ability through enhanced standards at the Interstate Compact for premium rate increase approvals.⁷

The Effects of Premium Rate Increases

LTCI premium rate increases may not align the premiums with the future benefits as well as one might otherwise expect because individual behavior may not align with predictions. There are several reasons for this.

First, an insurer may offer an opportunity to reduce benefits in order to keep the premium dollars a policyholder pays roughly equivalent after the premium rate increase versus before (e.g., reducing the daily maximum benefit). When offered, policyholders may select benefits that better match their current/anticipated health care needs. For example, many policyholders are in the position where they have higher maximum daily benefits than actual current cost of services because the policyholders originally purchased inflation coverage⁸ to meet expected inflation needs but actual inflation turned out to be lower. A policyholder who has coverage limits significantly higher than the actual cost of LTC services may reduce their daily maximum coverage such that the premiums do not change and the new maximum benefit levels continue to remain higher than the actual cost of services. Similar examples may exist for lapsing of particular riders or other benefit options.

Second, many states' regulations require that a nonforfeiture benefit be given in lieu of lapse to those who cease paying premiums and whose

cumulative premium rate increases exceed a specific percentage based on the issue age of the policyholder. The nonforfeiture benefit is a paid-up benefit with a total policy limit that equals the premiums paid to date (less any claims paid), and payable according to the benefits of the policy had it not ceased to be premium-paying upon implementation of a premium rate increase. The insurer maintains a reserve for these remaining paid-up benefits. While this remaining nonforfeiture reserve is lower, the company will have a harder time monitoring residual benefits in cases in which there is a significant reduction in policyholder contact and no incentive to report an insured's death.

Finally, the policyholders who choose to lapse their policies or reduce their benefits may be the healthier policyholders, leaving the remaining pool of policyholders with higher average expected claims. Ideally, and to the extent the experience is credible, the morbidity experience following a premium rate increase should be compared to the morbidity of similar policies without a premium rate increase.

Alternatives to a Premium Rate Increase

Insurers have routinely allowed insureds to reduce coverage by changing typical benefit options in order to help offset some or all of a rate increase. In recent years, in an effort to enable policyholders faced with a rate increase to retain significant coverage, some companies have started making available an option for policyholders to avoid the rate increase and keep their same premium by reducing the size of the future benefit increases for plans with automatic built-in inflation increases.

For example, policyholders would be able to keep their accrued benefit at their current inflation rate and only the future increases are lower

⁷ The Interstate Insurance Product Regulation Compact allows member states to establish standards for long-term care insurance, among other insurance products. These insurance products are governed by the [Interstate Insurance Product Regulation Commission \(IIPRC\)](#), where there is a limited ability to control rate increases through reviews of rate filing standards.

⁸ A popular inflation option selected by policyholders was the 5 percent option because states required LTC applicants to sign that they rejected this option, which often led to applicants selecting the 5 percent option. This inflation option turned out to be higher than actual LTC cost increases, leaving many policyholders with more coverage than needed.

than they would otherwise be. This is most effective as a conservation tool if it is done on an actuarially equivalent basis, meaning that the new prospective inflation accrual is set so that the present value of the expected reduction in benefits over time will be equal to the present value of the premium increase that is forgone. This is in contrast with most benefit reductions, which are in essence “partial surrenders” where there may be a reduction in the insurer’s liability.

When insureds reduce their benefits to help offset a rate increase, an insurer would expect some adverse selection—meaning that the healthier insureds are the ones reducing their benefits and thus the experience on the block will likely worsen over time. With the approach described above, there may be less adverse selection involved because the benefit reductions are gradual and may not become significant for many years.

In the past relatively few insureds have chosen to lapse their policies when premiums were increased and alternatives to the increase were offered. According to a 2010 report from Gen Re (a reinsurance company) based on an industry survey, lapses at the time of a rate increase were only higher than normal by 2.5 percent of the total policies exposed to an increase.⁹ The low 2.5 percent extra lapse rate suggests that the increases were generally affordable for the vast majority of policyholders, which is likely due to LTC insurance purchasers being in the higher income and asset demographics than non-purchasers.

Conclusion

Predicting future policyholder and service provider behavior can be difficult. A means for taking corrective action to accommodate the changing future is important. The more conservative assumptions in today’s pricing of private LTCI and improved speed at taking corrective action should improve future projections, resulting in fewer and smaller rate increases.

⁹ The context for the premium rate increases at the time of the survey included: a low-interest-rate environment, generally lower-than-anticipated lapses and mortality, an average rate increase of about 25 percent in the survey, and premium price points that were generally at or below what policyholders could purchase at their attained ages.

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

<u>Product Name</u>	<u>Form Number</u>	<u>Issue Date Range</u>
Custom Care II	LTC-03 VA	Dec 2003 - Jul 2008
Essential Care II	BSC-03 VA	Jan 2004 - Jan 2007
Essential Care II	BSC-03 VA Rev 1/04	Feb 2004 - Jan 2007

These policy form rates were originally priced with a margin for moderately adverse experience in accordance with the NAIC model rate stability regulations which were being implemented on a State by State basis during the time of our initial rate filing.

1. Scope & Purpose

This memorandum consists of materials which support the development of new premium rates for the above captioned policy series forms. The purpose of this memorandum is to demonstrate that the requirements of this State in regards to an in force rate increase request have been met. This rate filing is not intended to be used for any other purpose.

2. Justification for Rate Increase

John Hancock has completed our most recent triennial comprehensive long-term care experience study which examines the usage trends for our insured population. Relative to previous expectations, the new data demonstrates lower mortality for non-claimants, higher utilization of benefits, and lower than expected claim terminations, partly offset by lower claim incidence. Based on that data, we have determined that there is a need to increase premiums on certain policy series. Further detail on assumptions and recent analysis is provided in **Addendum #1 - Assumptions and Analysis Performed.**

3. Requested Rate Increase

The Company is requesting an average rate increase of 26.6%, which varies by issue age, benefit period, and inflation option, and ranges from 23.3% to 32.0%. These rate increases will be phased in over a period of up to 2 years, with a maximum of 25% per year, as requested by the state. Rate increases were derived as outlined below, ensuring at each step that the proposed rate increases did not result in premium rates that exceed rates for older issue ages:

1. The Company first determined the projected lifetime loss ratio for this form based on nationwide actual experience and projected future experience assuming the prior rate increase request was approved in full and within three months of the original filing date. We then determined the amount of rate increase (23.0%) that would be needed in order to revert to the applicable lifetime loss ratio (87.7%) certified to in our prior filing for this form.
2. Rate increases were adjusted to account for the timing of approvals on prior filings in your State. Adjustments are proportional to the amounts requested in prior filings and were determined such that the achieved lifetime loss ratio matches that targeted in Step #1 above. After the application of this adjustment, the average rate increase for the forms listed in this memo is 25.4%, ranging from 24.1% to 25.4%.
3. Unapproved rate increases initially requested in our 2019 inforce rate filings (SERFF Tracking No. MULF-132322015) were included in this filing. These rate increases continue to be actuarially justified and are unchanged from our original request with the following exception: to account for the delayed

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

implementation of the originally-requested rate increases, we have adjusted the portion of the current proposed rate increases attributable to the 2019 remainder so that on a present-value basis it is equivalent to implementing our original request all at once. After taking the unapproved amount into account and applying this adjustment, the average rate increase for the forms listed in this memo is 31.8%, ranging from 24.1% to 32.0%.

4. We ensured that the resulting overall increase in rates satisfied the rate stability rule ensuring a loss ratio no less than 85% (or the original pricing loss ratio if greater) on the rate increase portion, while applying 58% (or the original pricing loss ratio if greater) on the original rate schedule. This is demonstrated at the bottom of Exhibit 1 where it can be seen that the sum of past and future projected incurred claims excluding past losses is not less than the sum of the original premium times the greater of 58% and the original pricing loss ratio and the rate increase premium times the greater of 85% and the original pricing loss ratio.
5. Per the state's request, the rate increases were then capped at 31.4% for GPO inflation policies, 32.0% for simple inflation policies, and 23.3% for compound inflation policies, and then phased-in over two years with a maximum of 25% per year, resulting in an average rate increase of 26.6%, ranging from 23.3% to 32.0%.

A summary of proposed rate increases can be found in **Appendix A**.

In the rate schedules by policy form, **Appendix B1** contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *never* elected an inflation reduction or shared cost option as part of the 2010, 2016, or 2019 rate increase filings.

In the rate schedules by policy form, **Appendices B2** forward contain the new proposed rate tables for all policy forms included with this filing for those policyholders that *did* elect an inflation reduction or shared cost option as part of the 2010, 2016, and/or 2019 rate increase filings.

Please note that the actual rates implemented may vary slightly from those in the Appendices due to implementation rounding algorithms.

Exhibit 1 contains nationwide past premium and claims experience as well as future premium and claim projections. Waived premiums are not included. It illustrates that the anticipated lifetime loss ratio with the capped requested rate increase is 89.0%, which exceeds the original pricing loss ratio of 85.3%. The lifetime loss ratio as of 12/31/2021 is calculated as the sum of accumulated past and discounted future claims divided by the sum of accumulated past and discounted future earned premium where accumulation and discounting occur at the maximum statutory valuation discount rate.

Exhibit 1 also contains the original expected loss ratio projections, adjusted for the actual mix of business issued, with the lifetime loss ratio also calculated as stated above.

Furthermore, **Exhibit 1** demonstrates that the calculated loss ratio respects the applicable pre and post stability requirements:

Post-stability form requirements:

The sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

1. Accumulated value of the initial earned premium times the greater of the original assumed lifetime loss ratio and 58%,
2. Accumulated value of prior premium rate schedule increases times the greater of the original assumed lifetime loss ratio and 85%,
3. Present value of future projected initial earned premium times the greater of the original assumed lifetime loss ratio and 58%, and
4. Present value of future projected premium in excess of the projected initial earned premium times the greater of the original assumed lifetime loss ratio and 85%.

Pre-stability form requirements:

The sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times the greater of the original assumed lifetime loss ratio and 60%,
2. Accumulated value of prior premium rate schedule increases times the greater of the original assumed lifetime loss ratio and 80%,
3. Present value of future projected initial earned premium times the greater of the original assumed lifetime loss ratio and 60%, and
4. Present value of future projected premium in excess of the projected initial earned premium times the greater of the original assumed lifetime loss ratio and 80%.

Exhibit 2 contains the same past experience and future projections as Exhibit 1, except only for policies issued in Virginia. Please note that the experience alone is not credible and was not used to develop the proposed rate increase.

March 20, 2024

6. Proposed Effective Date

These rates will be effective on the next policy anniversary date, following at least a 90 day policyholder notification period. The assumed effective date used to calculate the rate increase is 01/01/2024.

7. History of Previous Rate Revisions

A 22.0% rate increase on these policy forms was accepted by your state on December 01, 2011.

A 35.1% rate increase on these policy forms was accepted by your state on July 03, 2019.

A 26.7% rate increase on these policy forms was accepted by your state on February 18, 2021.

8. Reduced Benefit Options (RBOs)

Although this is a closed block of business, we are filing the following options that will provide policyholders alternatives to the rate increase:

- ***LTC Buy-Out Offer and Policy Termination Option***

We will be making an offer to buy-out policies which are active and paying premium. Policyholders who accept this offer will agree to receive a one-time, lump sum payment in exchange for the immediate termination of their policy and any riders.

The LTC Buy-Out Offer Amount will be based on the best estimate value of the policy, determined by an actuarial calculation which takes into account several factors including morbidity, mortality, and interest rate assumptions. This offer will be available to policies issued prior to age 70. Additional details have been provided in **Addendum #3 – LTC Buy-Out Offer and Policy Termination Option Details**.

- ***Inflation Landing Spots***

Future inflation options (also referred to as “landing spots”) allow policyholders that have Compound or Simple inflation coverage the option to offset the rate increase. Under these options, the policyholders get to keep their current accumulated Daily benefit and their current remaining Lifetime Maximum Benefit, but the future indexation rate will be reduced to a level which is actuarially equivalent to the requested rate increase in aggregate. The future indexation rate will be reduced as follows:

Previously Elected Landing Spot	Current inflation	Proposed Landing Spot
None	5.0%	3.4%
2010	3.9%	2.4%
2016	3.2%	1.8%
2019	3.7%	2.2%
2010 and 2016	2.0%	0.8%
2010 and 2019	2.5%	1.2%
2016 and 2019	1.9%	0.7%

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

All indexation rates were determined to be actuarially equivalent to the requested rate increases in aggregate and therefore these options are only available as listed above if the full rate increase requested is accepted.

Inflation reduction landing spots are not available to limited pay policies or policyholders who have elected three prior inflation reductions.

The premium rate tables for these options are included in the rate schedules by policy form as **Appendix C**.

• ***Shared Cost Option***

Shared Cost option is an actuarially equivalent option that allows policyholders the option to offset the rate increase. The Shared Cost option would:

- Reduce the policyholder’s current policy benefit amounts by their Shared Cost percentage. The daily/monthly benefit and the policy limit will be reduced by the Shared Cost percentage
- Apply a percentage factor to any future claim payments equal to the Shared Cost percentage. John Hancock will pay our portion (1 minus the Shared Cost percent) of any covered services, but will not pay more than the new reduced daily/monthly benefit amount and the policyholder will be responsible for the remainder.

Shared Cost Percentages are calculated using seriatim, nationwide data for each benefit period, inflation type and issue age band combination. Shared Cost percentages are determined to be actuarially equivalent to the requested rate increases by combination of 5-year issue age band, benefit period and inflation type, and therefore these options are only available as filed if the full rate increase requested is accepted. The Shared Cost option is not available to limited pay policies or policyholders who have elected two prior Shared Cost options.

For policyholder Shared Cost percentages and for details on premium calculations for policyholders who elected the Shared Cost option, please see **Appendix D** in the filing package. The Shared Cost percentages in **Appendix D** will apply to all policyholders who have not bought additional attained age coverage. For those who have, the applicable Shared Cost percentage for a given rate increase is the lesser of what is shown in Appendix D and 80% of the benefit reduction available at the time of election to offset that rate increase. The Shared Cost percentages are included in **Appendix D** as follows:

Elected Shared Cost	Appendix
2022	D1
2019	D2
2016	D3
2016 and 2019	D4
2019 and 2022	D5
2016 and 2022	D6

The premium rate tables for these options are included in the rate schedules by policy form as **Appendix C**.

Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

- ***Voluntary Enhanced Paid-Up Policy Option***

For those who choose to stop paying premiums, this option will be a paid-up policy with a policy limit equal to the lesser of the current policy limit and 150% of premiums paid less any benefits received. The Paid-Up Policy will only be offered if the full or a substantial portion of the rate increase is approved.

9. State Policyholder Counts & Average Annual Premium

The table below summarizes the number of policies inforce that could be affected by the rate increase in your state and their annualized premiums, as well as the average annual premium per policy before and after the requested increase.

Counts and premiums are based on policies inforce as of 12/31/2021. Premium-paying policies as well as policies on claim are included, since although the premium for policies on claim is currently waived, they could be subject to the rate increase upon recovery. Paid-up policies and policies which have exercised the nonforfeiture benefit option are excluded.

Form	Number of Policies	2021 Annualized Premium*	2021 Average Annual Premium Before the rate increase*	2021 Average Annual Premium After the capped rate increase
LTC-03 VA	5,249	17,554,092	3,344	4,234
BSC-03 VA	232	737,465	3,179	4,025
BSC-03 VA Rev 1/04	(incl. above)	(incl. above)	(incl. above)	(incl. above)

*Premiums reflect the rate increases approved in prior filing(s), including approvals where implementation is not yet complete

10. State and Nationwide Distribution of Business as of December 31, 2021

The state-specific and nationwide distribution of business for policyholders impacted by the rate increase is shown below by inflation type, benefit period, and issue age. The breakdown of business by Premium Payment Option is also included to show the number of policyholders no longer paying premiums due to nonforfeiture election or paid-up status.

Inflation Type

11. Benefit Description(s)

A brief policy description for each of the policy forms:

LTC-03 VA

Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility, home health care, hospice care, respite care, or

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

attendance at an Adult Day Care Center providing Adult Day Care.

Provides reimbursement of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily/monthly amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toileting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

BSC-03 VA, BSC-03 VA Rev 1/04

Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility, home health care, hospice care, respite care, or attendance at an Adult Day Care Center providing Adult Day Care.

Provides reimbursement of covered long-term care expenses incurred after an elected elimination period is met. For care received in a nursing home, benefits are paid up to 100% of the maximum daily/monthly amount. For care received in an assisted living facility, benefits are paid up to 80% of the maximum daily/monthly amount. For all other care, benefits are paid up to 50%, 80% or 100% of the maximum daily/monthly amount, as elected at issue. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toileting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving Nursing Home or Assisted Living Facility benefits and will continue to be waived until the insured stops receiving such benefits.

12. Renewability

All policy forms are guaranteed renewable.

13. Applicability

This filing is applicable to in force policies only, as these policy forms are no longer being sold in the market. The premium changes will apply to the base forms as well as all applicable riders.

14. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

15. Marketing Method

This product was typically marketed through our traditional agency system and brokers involving a personal contact with each applicant.

16. Underwriting

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

These policy forms were underwritten using a medical and risk questionnaire. We also utilized Attending Physician Statement and personal interviews depending on the age of the applicant and medical conditions.

17. Premium Classes

The base policy premium rates vary by issue age, benefit period, inflation option, home health care maximum benefit percentage, and underwriting class, as in the initial rate filing.

All premium factors related to the insured elected benefit design options or any eligible discount remain unchanged from the initial rate filing.

18. Premium Modalization Rules

Frequency	Multiple of Annual Premium
Semiannual	.52
Quarterly	.27
Monthly	.09

19. Issue Age Range

The issue age range is 18-84 for all policy forms.

20. Area Factors

Area factors are not applicable to any of the policy forms or riders.

21. Reserves

Active Life Reserves have not been used in this rate increase demonstration. Minimum Statutory Claim reserves as of 12/31/2021 have been discounted to the date of incurral of each respective claim and included in the historical incurred claims. Incurred But Not Reported claim reserves as of 12/31/2021 have also been allocated to the calendar year of incurral and included in historic incurred claims.

22. Data Credibility

Regarding the credibility of data for younger blocks of business such as Custom Care II, the Company would like to draw attention to the American Academy of Actuaries Issue Brief “*Understanding Premium Rate Increases on Private LTCI Policyholders 060216.pdf*”, which has been included with this filing. The brief provides guidance on determining the need for premium rate increases on pages 4 and 5. This guidance includes a discussion on determining assumptions used for projections, particularly in situations where experience credibility may be low. Because of the long duration nature of Long Term Care policies, claims are often not seen in early durations which leads to lower credibility in actual experience for younger groups of policies. In situations where this is the case, the Actuarial Standards of Practice require that industry data or company data for older, similar business be used to set assumptions. Specifically, the brief states the following:

“Section 3.2.1 of Actuarial Standard of Practice No. 18, Long-Term Care Insurance, requires actuaries to use alternative data sources such as public data or experience from the insurance company’s older,

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

similar policy forms for identifying reasonable assumptions. Waiting until there is adequate claim information on each policy form could result in much larger, less affordable rate increases.”

Since Custom Care II is a younger block of business, our proposed rate increases on this form are based on our experience from this form as well as similar forms where we have over 20 years of experience. Overall, our unfavorable morbidity experience is at later durations and older attained ages, where we have significant data on our older plans and less on younger ones. With our combined data we are able to make credible decisions regarding future assumptions, in accordance with ASOP 18. Focusing solely on past experience for this product discredits our future projections and prevents us from acting on this information in a timely manner. Delaying rate increases until we have amassed similar experience on this particular policy form would take a considerable amount of time and would result in much higher rate increases for our customers which would be more difficult to manage and would require larger reductions in benefits in order to mitigate them.

23. Ensuring No Cross-Subsidization Between States

We have ensured no state's rate increase approvals will subsidize other states' rate increases. Rate increases will vary by state, but only to reflect the timing and amount of prior rate increases approved by that state. This is accomplished by first backing-out all prior approved rate increases from our nationwide premium data. We then re-introduce actual prior rate increases with the amount and timing based on your state's prior approvals (as detailed in the section entitled **History of Previous Rate Revisions**). The current proposed rate increases are then determined based on the amounts needed in order to achieve our target lifetime loss ratios certified to in our prior filing.

Although some states may have capped our previous inforce rate increase filings, in each case this was done with the understanding that the full amount of the proposed rate increases were justified and that John Hancock would be refiling for the remainder at a later date. In instances where the remainder remains unapproved, it has been included in the current filings.

24. Past Losses Testing

Preventing companies from recouping past losses was the subject of a discussion by the NAIC in late 2013. The accepted methodology which was incorporated into the 2014 Long Term Care Model Regulation defines past losses as actual past claims less expected past claims when determining loss ratio compliance. Expected past claims are defined as the following:

“Expected claims shall be calculated based on the original filing assumptions assumed until new assumptions are filed as part of a rate increase. New assumptions shall be used for all periods beyond each requested effective date of a rate increase [regardless of whether or not the rate increase is approved]. Expected claims are calculated for each calendar year based on the in-force at the beginning of the calendar year. Expected claims shall include margins for moderately adverse experience; either amounts included in the claims that were used to determine the lifetime loss ratio consistent with the original filing or as modified in any rate increase filing.”

We apply this methodology in demonstrating that we are not recouping past losses.

The ‘Adjusted Expected Incurred Claims’ are initially calculated by applying the original pricing durational loss ratio to the actual earned premium in a given calendar year. Later, in years in which and after which we filed for inforce rate increases, expected incurred claims are based on the new assumptions that were filed.

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

The accumulated value of the Adjusted Expected Incurred Claims is compared to the accumulated value of Actual Incurred Claims. The lesser of the Adjusted Expected Incurred Claims or Actual Incurred Claims is used for past claims when ensuring that the resulting overall increase in rates satisfies the rate stability rule ensuring a loss ratio no less than 85% (or the original pricing loss ratio if greater) on the rate increase portion, while applying 58% (or the original pricing loss ratio if greater) on the original rate schedule. This is demonstrated at the bottom of **Exhibit 1**. The derivation of Adjusted Expected Incurred Claims and comparison to Actual Incurred Claims can be seen in **Addendum #2 – Demonstration of not Recouping Past Losses**.

25. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing long-term care insurance premiums and filing for increases in long-term care insurance premiums. This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8.

The preceding Actuarial Memorandum contains:

- a) the assumptions on which this certification is based;
- b) the adjustments to prior assumptions with an explanation of the reasons previous assumptions were not realized;
- c) a lifetime projection of the prior premium rate schedules and incurred claims plus future expected premiums and claims which demonstrates that the revised premium rate schedule meets the loss ratios standards and necessary details of this state; and
- d) disclosure of the manner, if any, in which reserves have been recognized.

Due to the capped approval, if the requested premium rate schedule increase is implemented and the underlying assumptions which reflect moderately adverse conditions are realized, additional rate increases will be necessary to achieve the full actuarially justified one-time request based on the Lifetime Loss Ratio.

I have reviewed and taken into consideration the policy design and coverage provided, and our current underwriting and claims adjudication processes.

In forming my opinion, I have used actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary. Based on these assumptions or statutory requirements where necessary, the premium rate filing is in compliance with the loss ratio standards of this state.

The basis for contract reserves has been previously filed and there is no anticipation of any changes.

P.J. Beltramini, FSA, MAAA
VP, Long Term Care Inforce Management
John Hancock Life Insurance Company

March 20, 2024

Addendum #1 - Assumptions and Analysis Performed

As part of the inforce management of the business, the Company monitored the performance of the business by completing periodic analysis for morbidity, voluntary lapse rates, and mortality. The findings from these analyses were used in projecting the inforce business to determine the effect of experience on the projected lifetime loss ratio. The most current studies show unfavorable trends since the study that prompted our 2019 rate increase filings.

Relative to previous expectations, the new data demonstrates lower mortality for non-claimants, higher utilization of benefits, and lower than expected claim terminations, partly offset by lower claim incidence.

Our nationwide best estimate assumptions for morbidity, voluntary termination rates, and mortality are the same as our best estimate assumptions used for AG51 and GPV projections, with one exception. A shock lapse rate is applied in rate increase filings as described below, but the benefit of shock lapse is not reflected within our AG51 and GPV projections.

For both mortality and morbidity, adjustments were made in the experience analysis to normalize for differences in underwriting by setting different expectations by issue year/product series which are proxies for underwriting era.

The information that follows shows in aggregate how our new and prior assumptions compare to actual experience.

A. Current & Prior Assumptions

Morbidity

The morbidity assumptions are derived from our own experience, following our most recent comprehensive claim study completed in 2022. The study analyzed all major components of morbidity including incidence, claim terminations due to recovery or death, and benefit utilization across many attributes, focusing on the 4-year period of 2016-2019. Given the age of our inforce block of business, experience in durations 10+ is used for Incidence, Termination, and Utilization. Experience from calendar years 2020 and 2021 was excluded due to the short-term nature of impacts from Covid-19. The study has been peer reviewed both internally as well as by two independent third parties.

For the 2022 study, the JH Retail block was split into Pre-Custom Care and Custom Care and later blocks as the experience emerges.

Overall our morbidity experience has been unfavorable since the last filing.

Morbidity assumptions are represented below by incidence, claim termination, and utilization rate assumptions.

Our claims projections also include future morbidity improvement of 0.50% per calendar year applied as an incidence adjustment until attained age 100, as well as a 7.50% margin for moderately adverse experience consistent with the margin originally anticipated in our original pricing loss ratio. No future morbidity improvement is assumed beyond attained age 100.

Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

Incidence

Incidence rates are the likelihood a policyholder will go on claim during a given duration.

Overall incidence experience has been favorable. Experience is favorable for younger attained ages and adverse for the oldest attained ages where experience continues to emerge.

Below are the current and prior weighted average incidence rates before future morbidity improvements for LTC-03 with a 90 Day elimination period, across all risk classes, genders, marital statuses and inflation types for both 4-Year and Lifetime Benefit Periods. Assuming Issue Year 2008.

Current:

Policy Duration	4 Year Benefit Period			Lifetime Benefit Period		
	Issue Age			Issue Age		
	55	65	75	55	65	75

Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

After updating assumptions to reflect the generally favorable experience, the overall A/E ratio is 101%.

Incidence (Count)		
Duration	A/E Before Assumption Update	A/E After Assumption Update
10-11	93%	99%
12-14	95%	101%
15+	94%	102%
Total	94%	101%

Claim Terminations

Claim termination rates are the likelihood a policyholder will either die while on claim or recover and re-enter the active population.

Our termination experience has been unfavorable, particularly during the first several months on claim.

Below are the current and prior weighted average termination rates for LTC-03 with genders, risk classes, issue ages and marital status combined.

Current:

Months on Claim	4 Year Benefit Period			Lifetime Benefit Period		
	Attained Age at Claim			Attained Age at Claim		
	80	85	90	80	85	90
avg 1-3	5.5%	4.7%	4.7%	4.5%	3.8%	3.8%
avg 4-12	2.6%	2.5%	2.8%	2.1%	2.0%	2.3%
18	2.2%	2.2%	2.6%	1.7%	1.8%	2.1%
30	2.0%	2.1%	2.5%	1.6%	1.7%	2.0%
60	2.0%	2.3%	2.6%	1.6%	1.9%	2.1%
90	3.3%	4.1%	5.4%	2.8%	3.5%	4.6%

Prior:

Months on Claim	4 Year Benefit Period			Lifetime Benefit Period		
	Attained Age at Claim			Attained Age at Claim		
	80	85	90	80	85	90
avg 1-3	6.2%	6.1%	6.3%	5.6%	5.5%	5.7%
avg 4-12	2.7%	2.4%	2.7%	2.4%	2.1%	2.3%
18	2.1%	2.3%	2.6%	1.8%	2.0%	2.2%
30	2.1%	2.5%	3.0%	1.8%	2.1%	2.6%
60	2.4%	3.1%	3.7%	2.1%	2.6%	3.1%
90	2.7%	3.8%	4.5%	2.3%	3.2%	3.8%

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

Current/Prior:

Months on Claim	4 Year Benefit Period			Lifetime Benefit Period		
	Attained Age at Claim			Attained Age at Claim		
	80	85	90	80	85	90
avg 1-3	89%	77%	74%	79%	68%	66%
avg 4-12	95%	104%	105%	90%	98%	98%
18	100%	95%	100%	96%	91%	95%
30	96%	86%	81%	92%	82%	77%
60	82%	77%	70%	79%	73%	67%
90	121%	109%	118%	122%	111%	120%

Since the termination assumptions have generally decreased through the first several years, more policies will remain on claim. For a more intuitive perspective, the table below shows the remaining portion of policies on claim consistent with the termination rate changes.

Percentage of policies still on claim

End of Year	4 Year Benefit Period								
	Attained Age 80 at Claim			Attained Age 85 at Claim			Attained Age 90 at Claim		
	New	Prior	New/ Prior	New	Prior	New/ Prior	New	Prior	New/ Prior
1	66%	64%	103%	69%	66%	104%	67%	64%	104%
2	51%	50%	103%	53%	50%	105%	49%	47%	104%
3	40%	38%	104%	41%	37%	110%	36%	32%	112%

End of Year	Lifetime Benefit Period								
	Attained Age 80 at Claim			Attained Age 85 at Claim			Attained Age 90 at Claim		
	New	Prior	New/ Prior	New	Prior	New/ Prior	New	Prior	New/ Prior
1	72%	68%	106%	74%	70%	106%	72%	68%	107%
2	58%	54%	107%	60%	55%	109%	56%	52%	108%
3	48%	44%	109%	49%	43%	114%	44%	38%	116%

As can be seen, the changes result in a higher proportion of policyholders remaining on claim through the first few years, resulting in longer average claims.

After updating assumptions to reflect termination experience, the A/E is 99% for the first 5 months on claim and 97% overall.

Terminations (Count)						
Benefit Period	All Months		Months 1-5		Months 6+	
	A/E Before Assumption Update	A/E After Assumption Update	A/E Before Assumption Update	A/E After Assumption Update	A/E Before Assumption Update	A/E After Assumption Update
<10 years	97%	98%	95%	99%	98%	97%
10+ years	91%	96%	91%	102%	92%	93%
Total	96%	97%	94%	99%	97%	96%

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

Utilization

Utilization rates are the estimated percentage of the maximum daily benefit that a policyholder is expected to use, reflecting the number of days it is used. Benefit utilization rates vary by gender, marital status at issue, inflation type, benefit period, issue age, policy year of incurral and time on claim. Utilization does not vary by maximum daily benefit, however because there is a tendency toward a higher maximum daily benefit at lower issue ages, lower expected utilization is assumed for issue ages below age 60. The future Cost of Care growth rate reflected in the utilization assumption is 4.5%.

Utilization experience has been adverse, particularly for compound inflation.

Below are current and prior expected sample utilization rates for LTC-03, Standard risk class, Female, Single, 3rd year of being on claim, Issue Age 60-69:

Current:

Policy Year of Incurral	4 Year Benefit Period			Lifetime Benefit Period

March 20, 2024

Voluntary Lapses

The voluntary lapse rates are based on our own experience between 2016 and 2019. Lapse experience from 2016 through 2019 was analyzed both by policy count (for credibility) and by policy amount (for assumption recommendations). Note that “Amount” is defined as the Maximum Daily Benefit multiplied by a Benefit Period factor to ensure that policies with longer benefit periods are appropriately weighted.

In prior studies, policies were not allowed to reenter the study following the rerate shock lapse period (2 years). In the 2022 study we continue to exclude policyholder experience within the shock lapse period, but as rate increase filings have become more prevalent, the rerate shock lapse period has been redefined as within 11 months since the last rerate effective date and within 6 months of the next rerate effective date.

The experience has shown that our prior assumptions were reasonable in total, but there was some deviation amongst cohorts with offsetting impacts.

Current assumption lapse rates vary by product, gender, attained age, issue age, duration, marital status, risk class, benefit period and inflation type. The prior voluntary lapse rates were based on experience between 2013 and 2017, and varied by issue age, duration, and inflation option.

Below are current and prior expected sample lapse rates for Female, standard, single, issue ages 55, 65 and 75, 4-Year and Lifetime benefit periods.

Current:

4-Year Benefit Period									
Duration	Compound Inflation			Simple Inflation			GPO

March 20, 2024

Prior:

All Benefit Periods									
Duration	Compound Inflation			Simple Inflation			GPO		
	Issue Age			Issue Age			Issue Age		
	55	65	75	55	65	75	55	65	75
15	0.4%	0.6%	0.9%	0.4%	0.6%	0.9%	0.8%	1.2%	1.4%
20	0.4%	0.6%	1.5%	0.4%	0.6%	1.5%	0.5%	1.0%	2.1%
25	0.5%	1.2%	2.2%	0.5%	1.2%	2.2%	0.6%	1.4%	2.1%
30	0.6%	2.2%	2.2%	0.6%	2.2%	2.2%	0.8%	2.1%	2.1%
35	1.2%	2.2%	2.2%	1.2%	2.2%	2.2%	1.4%	2.1%	2.1%

In addition to the lapse rates shown above, we also assume a 2.4% shock lapse rate due to the rate increase. The additional lapse rate is used to adjust future premiums and claims down by 2.4% starting at the expected date of the rate increase.

Actual to Expected ratios by amount for this block (John Hancock individual business) summarized by inflation and duration groups before and after the assumption update are shown below.

Lapse (Amount)						
Duration	No Inflation		With Inflation		Total	
	A/E Before Assumption Update	A/E After Assumption Update	A/E Before Assumption Update	A/E After Assumption Update	A/E Before Assumption Update	A/E After Assumption Update
1-5	120%	72%	91%	100%	91%	99%
6-10	104%	87%	105%	107%	105%	104%
11-15	88%	95%	96%	100%	95%	99%
16-20	125%	93%	128%	103%	128%	101%
21-25	126%	119%	127%	123%	127%	121%
26+	109%	100%	88%	92%	104%	98%
Total	107%	96%	105%	104%	105%	102%

The changes to the expected lapse assumption improved the fit across cohorts and resulted in a total A/E of 102%.

Mortality

The mortality rates have been derived based on our own experience for the individual long-term care block of business over the four-year period from 2016 to 2019 on an Active Life basis. Healthy life mortality experience was analyzed both by policy count (for credibility) and by policy amount (for assumption recommendations). Note that “Amount” is defined as Maximum Daily Benefit multiplied by a Benefit Period factor to ensure that policies with longer benefit periods are appropriately weighted.

15% of lapses for attained ages 80+ are considered deaths due to underreporting of deaths in LTC. Prior studies had assumed 25% but since the last study a new process has been implemented which has reduced the amount of “missed” deaths.

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

The experience for Retail showed lower A/Es for older attained ages. The expected mortality assumption has been updated to address this developing trend.

Current mortality assumptions vary by issue age, duration, gender, risk class, marital status, and product generation. Sample mortality rates before future mortality improvements for Female, Single marital status at issue are shown below.

Current:

Policies Issued in 2004 and later

Policy Duration	Preferred Risk			Standard Risk		
	Issue Age			Issue Age		
	55	65	75	55	65	75
15	0.002	0.007	0.024	0.004	0.012	0.034
20	0.005	0.017	0.066	0.007	0.025	0.077

30	0.029	0.077	0.294	0.038	0.088	0.294
35	0.050	0.135	0.475	0.065	0.135	0.475

Prior (including 3 years of mortality improvement for comparison to Current):

Policies Issued in 2004 and later

Policy Duration	Preferred Risk			Standard Risk		
	Issue Age			Issue Age		
	55	65	75	55	65	75
15	0.002	0.007	0.029	0.004	0.011	0.042
20	0.005	0.019	0.060	0.008	0.027	0.088
25	0.014	0.045	0.118	0.017	0.059	0.155
30	0.031	0.090	0.286	0.040	0.116	0.312
35	0.059	0.150	0.464	0.075	0.193	0.469

Future mortality improvements are based on US general population data covering experience from 1933 to 2015 and were developed in a manner consistent with prescribed Canadian Institute of Actuaries' rates. The rates vary by attained age and are not distinct by gender or smoker status; linear grading is applied between key ages.

- 1.0% per year for attained ages 0-85
- 0.2% per year for attained age 95
- 0.0% per year for attained age 105.

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

The below table shows the healthy life A/E ratios by amount before and after the assumption update for our Retail Individual business.

Mortality (Amount)		
Duration	A/E Before Assumption Update	A/E After Assumption Update
1-5	100%	105%
6-10	99%	99%
11-15	96%	99%
16-20	94%	102%
21-25	97%	101%
26+	76%	84%
Total	95%	100%

Expenses

Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate.

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

B. Original Pricing Assumptions

The initial premium schedule was based on the originally filed pricing assumptions which were believed to be appropriate, given company and industry experience available, when the initial rate schedule was developed.

The original pricing assumptions for morbidity, voluntary termination rates, and mortality are provided below. A comparison of actual to expected experience using the original pricing assumptions is not available because original pricing assumptions are no longer used to analyze current experience. Instead, we show actual to expected experience relative to the prior and new assumptions.

Morbidity

Claim assumptions were derived using data published by the National Center for Health Statistics National Nursing Home Survey (1985 and 1995), the National Health Interview Survey (1984), the National Long-Term Care Survey (1982, 1984, 1989, and 1994), Medicare data, and other experience furnished to us by consultants, with adjustments due to the impact of underwriting, inflation options, elected options, anti-selection considerations, and the savings incurred because the maximum daily benefit will not always be paid.

Below are the original sample annual claim costs for an LTC-03 policy, \$300 monthly benefit, with no inflation (which included a 7.5% margin for moderately adverse experience):

Issue Age 55		
Age	4 yr	Lifetime
55	0.88	0.84
60	9.68	10.68
65	11.07	20.92

Accum Value of Adjusted Expected Incurred Claims) = 1,317,084,416

The lesser of actual and expected past claims, \$1,317,084,416, is used in demonstrating compliance with the minimum loss ratio in Exhibit 1

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care II Series
March 20, 2024

Addendum #3 - LTC Buy-Out Offer and Policy Termination Option Details

With this filing a separate disclosure endorsement has been submitted requesting your state to approve an additional rate increase alternative option for policyholders. This new option is an offer for John Hancock to buy-out an insured’s policy by providing a one-time lump-sum payment in exchange for the immediate termination of the policy and any riders. Upon election of this option the insured’s policy will be terminated and the insured will no longer be eligible for any long-term care benefits from John Hancock. The insured will have a 30-day period to change their mind, after which the policy will not be eligible for restoration.

Long Term Care insurance does not provide a cash surrender value and this offer should not be considered as one. It will be made on a one-time basis as part of the rate increase request documented in this actuarial memorandum. We do not anticipate making this LTC Buy-Out Offer and Policy Termination Option available again to these insureds should additional rate action be required at a later time. The intention with this offer is to provide a one-time alternative to insureds who no longer wish to retain their policy. We anticipate that policyholders who expect to use their benefits in the future will not accept this offer.

The LTC Buy-Out Offer Amount to be identified in the disclosure endorsement is scaled to our expectation of a policy’s remaining risk and will be based on the best estimate value of the policy, determined by an actuarial calculation which takes into account several factors including morbidity, mortality, and interest rate assumptions. This offer will be available on policies issued prior to age 70, which are active, premium-paying policies with an approved rate increase.

The actuarial calculation that will determine the LTC Buy-Out Offer Amount for each insured will be a Buy-out Factor (60%) multiplied by the best estimate actuarial present value of expected future benefits payable under their policy. The actuarial present value of expected future benefits represents the value of the remaining risk in the policy from John Hancock’s perspective. While the LTC Buy-Out Offer Amounts will be calculated on a policy-by-policy basis, both the Buy-out Factor and the methodology for calculating the expected future benefits will be consistent for all insureds issued in your state who receive a buy-out offer under the policy forms included in this actuarial memorandum. The expected benefits will be consistent with those used to calculate the Gross Premium Valuation (GPV) reserve, discounted at 5.75% annually. LTC Buy-Out Offer Amounts will be calculated as of September 30, 2022¹.

Since LTC Buy-Out Offer Amounts are based on expected future benefits, they will vary by both policy and policyholder attributes, including but not limited to: product features and riders, benefit amounts, inflation type, policy duration, age at policy issue, sex, and risk class. Depending on the risk characteristics of the policy, the resulting LTC Buy-Out Offer Amount may be higher or lower than the total premiums that the insured has paid into their policy. Below are two sample policies which demonstrate how the LTC Buy-Out Offer Amount is calculated from the components of the GPV reserve as well as how the value of it can vary from one insured to another. These are not actual policies but are provided for illustrative purposes only.

Sample Policy #	Cumulative Premium	GPV Reserve =	PV Future Benefits (PVFB)	+ PV Future Expenses	- PV Future Premiums	Buy-out Factor	LTC Buy-Out Offer Amount (Buy-out Factor x PVFB)
1	10,000	17,000	18,000	2,000	3,000	60%	10,800
2	10,000	11,000	12,000	2,000	3,000	60%	7,200

¹ For policyholders who are on claim as of or have claims paid after September 30, 2022 and later come off claim for long enough to receive the rate increase requested in this filing, they will receive a LTC Buy-Out Offer and Policy Termination Option at the time of their rate increase reflecting a valuation date after their return to active status.

Certain cells are blank because there are no nationwide policies with that benefit period, issue age and inflation combination

For GPO policies with multiple layers of coverage, the Shared Cost percentage will be based on the issue age of the base contract. Each GPO layer will be reduced by the Shared Cost percentage
 Shared Cost percentages are calculated based on policyholder data at the time of election

Appendix D3
Custom Care II (LTC-03) and Essential Care II (BSC-03)
Prior Shared Cost percentage previously used only with those that elected the Shared Cost option during the 2016 Rate Filing

Certain cells are blank because there are no nationwide policies with that benefit period, issue age and inflation combination

For GPO policies with multiple layers of coverage, the Shared Cost percentage will be based on the issue age of the base contract. Each GPO layer will be reduced by the Shared Cost percentage

Shared Cost percentages are calculated based on policyholder data at the time of election

Appendix D4
Custom Care II (LTC-03) and Essential Care II (BSC-03)
Prior Shared Cost percentage previously used only with those that elected the Shared Cost option during the 2019 and 2016 Rate Filings

Certain cells are blank because there are no nationwide policies with that benefit period, issue age and inflation combination
 For GPO policies with multiple layers of coverage, the Shared Cost percentage will be based on the issue age of the base contract. Each GPO layer will be reduced by the Shared Cost percentage
 Shared Cost percentages are calculated based on policyholder data at the time of election

Appendix D5
Custom Care II (LTC-03) and Essential Care II (BSC-03)
Proposed Shared Cost percentage to be used only with those that have previously elected the Shared Cost option during the 2019 Rate Filing

Certain cells are blank because there are no nationwide policies with that benefit period, issue age and inflation combination

For GPO policies with multiple layers of coverage, the Shared Cost percentage will be based on the issue age of the base contract. Each GPO layer will be reduced by the Shared Cost percentage
 Shared Cost percentages are calculated based on policyholder data at the time of election

Appendix D6
Custom Care II (LTC-03) and Essential Care II (BSC-03)
Proposed Shared Cost percentage previously used only with those that
elect the Shared Cost option during the 2016 Rate Filing

Certain cells are blank because there are no nationwide policies with that benefit period, issue age and inflation combination

For GPO policies with multiple layers of coverage, the Shared Cost percentage will be based on the issue age of the base contract. Each GPO layer will be reduced by the Shared Cost percentage
 Shared Cost percentages are calculated based on policyholder data at the time of election

Appendix D1-D6
Custom Care II (LTC-03) and Essential Care II (BSC-03)
Shared Cost Percentages

Note on premium calculation for a policyholder who elects the Shared Cost option:

To calculate the premium after election of the Shared Cost option, the premium rate schedules in Appendix C should be used. Since the Shared Cost option reduces the daily benefit, an additional factor is required to calculate the premium appropriately, as shown below:

$$\text{Premium after electing Shared Cost option} = \frac{(\text{Premium Rate Schedule per } \$10 \text{ daily benefit: Appendix C}) * (\text{New Daily Benefit}/10)}{(1 - \text{Shared Cost Percentage})}$$

A similar formula can be used for GPO policies with multiple layers of coverage:

$$\text{Premium after electing Shared Cost option} = \frac{[(\text{Premium Rate Schedule, Base Issue Age per } \$10 \text{ Daily Benefit: Appendix C}) * (\text{New Base Daily Benefit}/10) + (\text{Premium Rate Schedule, GPO Layer 1 Issue Age per } \$10 \text{ Daily Benefit: Appendix C}) * (\text{New Layer 1 Daily Benefit}/10) + \dots]}{(1 - \text{Shared Cost Percentage})}$$

**Long Term Care Insurance Rate Request Summary
Part 1 – To Be Completed By Company**

Company Name and NAIC Number: John Hancock Life Insurance Company (U.S.A), 69477

SERFF Tracking Number: MULF-133663115

Revised Rates

Average Annual Premium Per Member: \$4,225

Average Requested Percentage Rate Change Per Member: 26.6%

Range of Requested Rate Changes: 23.3% - 32.0%

Number of Virginia Policyholders Affected: 5,481

Form Number	Product Name	Issue Dates	Prior Rate Increases – Date and Percentage Approved	Outlook for Future Rate Increases
LTC-03 VA	Custom Care II	December 2003 - July 2008	22.0% - 12/01/2011 35.1% - 07/03/2019 23.7% - 02/18/2021	Due to the capped approval, if the requested premium rate schedule increase is implemented and the underlying assumptions which reflect moderately adverse conditions are realized, additional rate increases will be necessary to achieve the full actuarially justified one-time request based on the Lifetime Loss Ratio.
BSC-03 VA BSC-03 VA Rev 1/04	Essential Care II	January 2004 - January 2007	22.0% - 12/01/2011 35.1% - 07/03/2019 23.7% - 02/18/2021	Due to the capped approval, if the requested premium rate schedule increase is implemented and the underlying assumptions which reflect moderately adverse conditions are realized, additional rate increases will be necessary to achieve the full actuarially justified one-time request based on the Lifetime Loss Ratio.

Attach a narrative to summarize the key information used to develop the rates including the main drivers for the revised rates.

This document is prepared by the carrier to help explain the requested rate change and is only a summary of the company's request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing at <https://www.scc.virginia.gov/boi/SERFFInquiry/default.aspx>. (Rev. 06/19)

Summary of the John Hancock's 2022 Rate Increase Request John Hancock Life Insurance Custom Care II Policy Series

When pricing a long-term care insurance product, insurance companies use the best available information at that time to predict how many policyholders might ultimately use the benefit in the future. This involves making certain assumptions about a variety of factors including, for example, the expected lifespan of policyholders, the length of time policyholders keep their policies, and the cost of receiving long-term care services. If the actual experience differs in an unfavorable way from the expected experience based on these assumptions, a premium rate increase may become necessary.

John Hancock continuously monitors the experience of our in-force LTC insurance policies. We have completed our most recent triennial comprehensive long-term care experience study. Relative to previous expectations, the new data demonstrates lower mortality for non-claimants, higher utilization of benefits, and lower than expected claim terminations, partly offset by lower claim incidence. Based on that data, we have determined that there is a need to increase premiums on this policy series so we can meet our future claims obligations.

The filing will vary by state based on the amount and timing of prior increases that we were permitted to implement in that state. In this way, policyholders are not subsidizing policyholders in other states.

In Virginia, we are requesting an average rate increase of 26.6% which ranges from 23.3% to 32.0% on this policy series.

No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. John Hancock's decision to increase premiums on certain policies is based upon the future claims anticipated on these policies.

After the rate increase is accepted by the Virginia Insurance Department, affected policyholders will be provided with an extensive and personalized notification communication at least 90 days prior to the effective date, which will describe the increase and options available to mitigate the impact of the rate increase. In addition, customer support will be available through a dedicated customer service team to help our policyholders navigate through their choices and respond to any questions.

Individual Long-Term Care Insurance Rate Revision Submission
Revised Actuarial Memos (See Policy Forms List Below)

Dear Commissioner:

We have recently completed our 2022 experience study. This comprehensive study is generally conducted every three years and examines the usage trend for our insured population. Relative to previous expectations, the new data demonstrates lower mortality for non-claimants, higher utilization of benefits, and longer than expected claims, partly offset by lower claim incidence. Based on that data, we have determined that there is a need to increase premiums on certain policy series.

As a result of the study, we are requesting a premium rate increase on the policy series listed below and are enclosing the actuarial memos and rates for your review and acceptance.

Policy Series	Approval Date	Years Sold	Average Increase
LTC-03 VA	9/5/2003	2003 – 2008	31.8%
BSC-03 VA	9/5/2003	2004 – 2007	31.8%
BSC-03 VA Rev. 1/04	2/11/2004	2004 – 2007	31.8%

The increases requested reflect the timing of the acceptance of our prior rate increase filings in your state as well as any unapproved amounts from our prior filing on an actuarially equivalent basis.

The proposed premium rates will be effective on the next policy anniversary date, following a 90-day policyholder notification period, which will be made as soon as practicable following state acceptance. As we will describe later in this letter, we will also offer affected insureds various benefit reduction options to help mitigate the impact of the rate increase.

Policyholder Options

We are aware that a premium increase may be difficult for our policyholders. Therefore, we will provide all policyholders with options which will help them mitigate the impact of any increase.

- **Shared Cost Option**
If the policyholder selects this option, they will be able to offset the premium rate increase. The Shared Cost Option consists of two components.

- All policy benefit amounts (all Daily/Weekly/Monthly Benefit amounts and the Policy Limit) will be decreased by an assigned Shared Cost percentage (based upon policy series and the insured's original issue age and benefit selected); and
- We will also apply that same Shared Cost percentage to future claims for covered charges and will pay our portion (1 minus the Shared Cost percentage) of covered charges, but we will pay no more than the new revised [daily/monthly/weekly] benefit amount and the new Policy Limit. The insured will be responsible for the remaining expenses.

Example: If the revised Daily Benefit for Nursing Facility Care is \$200 and Your Shared Cost Percentage is 20%, we will pay 80% of the Nursing Home charges, but no more than \$200.

- *If Your Nursing Home charges are \$100, we will pay \$80 and You will be responsible for \$20.*
- *If Your Nursing Home charges are \$200, we will pay \$160 and You will be responsible for \$40.*
- *If Your Nursing Home charges are \$300, we will pay \$200 and You will be responsible for \$100*

Shared Cost percentages will be determined to be actuarially equivalent to the rate increases by combination of the issue age band, benefit period and inflation type.

If Shared Cost is elected, all other policy provisions other than those mentioned above remain unchanged, including the inflation increase option (if selected).

- **Inflation Reduction**

If the policyholder selects this option, they will be able to offset the premium rate increase.

Policyholders who originally purchased and still retain lifetime 5% compound or 5% simple inflation and some policyholders who took a reduced compound or simple inflation when notified of past premium increases, will be provided with the ability to keep premium at the current level by decreasing their future inflation coverage to a lower percentage which will vary by policy series. These policyholders will be able to keep all accrued inflation increase amounts to date and the lower inflation index will apply on a prospective basis only.

- **Paid-up Option**

If the policyholder selects this option, the policy will be converted to a paid-up status on the rate increase effective date (the next policy anniversary date). The new policy limit will be equal to the lesser of the current policy limit and 150% of premiums paid, less any claims paid. Under this option, all optional riders will terminate, and no additional inflation adjustments/increases will be provided.

Please note the referenced mitigation options above may not be available on all policy forms if the rate increase is not approved as requested.

- **LTC Buy-Out Offer and Policy Termination Option (New)**

If the policyholder elects this option, they will receive a payment in exchange for terminating their policy. If elected, this option will terminate the policy effective immediately. Once the policy is terminated in exchange for the payment, the policy will no longer be active and cannot be restored. This offer will only be available for insureds who purchased their policy below age 70. This option will be available for this policy series: LTC-03 VA, BSC-03 VA, and BSC-03 VA Rev. 1/04.

- **Nonforfeiture**

The nonforfeiture rider benefit, if purchased, may be exercised and the policy will be converted to paid-up status in accordance with the policy provision on the rate increase effective date.

- **Contingent Nonforfeiture**

If the NAIC contingent nonforfeiture benefit upon lapse is triggered, customers will be offered paid-up coverage in accordance with the provision. We are allowing contingent nonforfeiture if the rate increase trigger is met for all affected policyholders, even if it was not otherwise required in your State.

- **Additional Mitigation Options**

Policyholders may also be able to reduce their benefit period, adjust their daily/monthly benefit amount, drop optional benefit riders or extend their elimination period.

The corresponding forms for the Shared Cost, LTC Buy-Out, and Paid-up options will be submitted under separate cover shortly.

Policyholder Communication Package

We are also submitting our sample template policyholder communication package regarding the rate increase and options to help mitigate the rate increase for your information. We developed this communication package keeping in mind the amount of meaningful and detailed information to the policyholder and the presentation of the material in a clear manner. We have incorporated suggestions from state regulators, policyholders, and our dedicated policyholder service representatives. This package will be personalized for each customer with reduction options to keep their premium near or at the current level; options will vary by their respective situation. This package is included in Supporting Documentation. We will be submitting the policyholder communication package for review and approval in a separate form filing.

Ensuring No Cross-Subsidization Between States

We have ensured no state's rate increase approvals will subsidize other states' experience. Rate increases will vary by state, but only to reflect the timing and amount of prior rate increases approved by that state. This is accomplished by first backing-out all prior rate increases from our nationwide premium data. We then re-introduce prior rate increases with the amount and timing based on your state's prior approvals. The current proposed rate increases are then determined based on the amounts needed in order to achieve our target loss ratios where our targets reflect the lifetime loss ratios certified to in our prior filing.

Although some states may have capped our previous inforce rate increase filings, in each case this was done with the understanding that the full amount of the proposed rate increases were justified, and that John Hancock would be refiling for the remainder at a later date. In instances where the remainder remains unapproved, it has been included in the current filings.

Past Losses Testing

Preventing companies from recouping past losses was the subject of discussion by the Health Actuarial Task Force in late 2013. The accepted methodology by the Health Actuarial Task Force is to define past losses as actual past claims less expected past claims when determining loss ratio compliance where expected past claims are defined as the following:

“Expected claims shall be calculated based on the original filing assumptions assumed until new assumptions are filed as part of a rate increase. New assumptions shall be used for all periods beyond each requested effective date of a rate increase regardless of whether or not the rate increase is approved. Expected claims are calculated for each calendar year based on the in-force at the beginning of the calendar year. Expected claims shall include margins for moderately adverse experience; the margins included in the claims that were used to determine the lifetime loss ratio consistent with the original filing or as modified in any rate increase filing.”

The rate increases we calculated follow the methodology described above to ensure that we are not recouping past losses.

This submission is being filed in all states.

The following items are included in this submission:

- the submission letter.
- all actuarial material.
- sample Policyholder Communication Package
- all required certifications.

Please do not hesitate to contact us regarding this submission. We will be happy to meet with the Department at a time of your convenience.

Thank you for your time and consideration in this matter.

Sincerely,

Michelle Fluet

Re: **Notice of Premium Rate Increase – Long-Term Care Insurance Policy No. 00009999.**
Decision Required by July 3, 2024.
John Hancock Life Insurance Company (U.S.A.) (John Hancock)

Dear Jane Doe,

We are writing to let you know that the premium for your John Hancock long-term care (LTC) insurance policy is increasing. This notice will provide you with:

- **Details** about the premium increase
- **Options** available to you to help keep your premiums at or near their current level
- **Next Steps** and the resources to help you decide how to manage the increase

About the Premium Increase

John Hancock is committed to helping ensure LTC benefits will be there when most needed. To uphold this responsibility, we continuously monitor the experience of our LTC policies and the policies we service. Our most recent comprehensive claims study, which we generally conduct every three years, was completed in 2022; it examined the usage trends for our insured population. When pricing a long-term care insurance product, John Hancock uses the best available information at that time to predict how many policyholders might ultimately use the benefit in the future. This involves making certain assumptions about a variety of factors including, for example, the expected lifespan of policyholders, the length of time policyholders keep their policies, and the cost of receiving long-term care services. If the actual experience differs in an unfavorable way from the expected experience based on these assumptions, a premium rate increase may become necessary. Based on that data, as well as data from prior studies as applicable, we have determined that there is a need to increase premiums in order to meet future claims obligations. Please refer to the Frequently Asked Questions in this package for details on our recent comprehensive claim studies.

Your Premium Increase

The approved rate increase is 35.0% for your policy, which will be phased-in over 2-years. Based on your current benefit selections, unless you elect a personalized option as described in your Options Worksheet, your premium will increase as illustrated in the table below. Your premium will continue to increase on each policy anniversary until the total annual premium amount of \$2,500 is reached. You will receive a notification each year as future premium increase segments are implemented. Please note this letter is not a bill.

Date of Premium Increase	Current Annual Premium	New Annual Premium
August 2, 2024	\$2,000	\$2,250
August 2, 2025	\$2,250	\$2,500

It is important for you to know that:

- the rate increase request was reviewed by Virginia’s State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are

- available for public inspection and may be accessed online through the Virginia State Corporation Commission’s webpage at <https://scc.virginia.gov/boi/SERFFInquiry/LtcFilings.aspx>
- no person has been singled out for an increase
- no increase is due to a policyholder’s advancing age or changing health

The decision to increase premiums on certain policies is based upon the future claims anticipated on these policies and has been made by John Hancock - not your insurance agent nor the Virginia Bureau of Insurance. As a reminder, per the terms of your policy, **premium rates are not guaranteed and could be increased again in the future.** In the event that our experience continues to deteriorate, future increases may be required. In that event options to reduce your premiums may be available.

Your Options

We understand that a premium increase may not be affordable for some. **Therefore, we are offering you options to help keep your premiums at or near their current level, or you can elect the LTC Buy-Out Offer and Policy Termination Option (“LTC Buy-Out Offer”). Please see the enclosed “Options Worksheet” for more information on these options. Please note that all the options available to you may not be of equal value.**

Included in this Package

- **Options Worksheet** (pages 3-10) – provides details about your current coverage and the options you have to help mitigate the premium increase. Please review this information carefully.
- **Frequently Asked Questions** (page 11-12) – provides answers to some of the most common questions.
- **Coverage Change Request Form** (page 13-14) – may be used to elect an option to help mitigate the increase.
- **Important Things You Should Consider** (page 15-16 – please review these important considerations before electing the LTC Buy-Out Offer and Policy Termination Option.
- **LTC Buy-Out Offer and Policy Termination Option Election Form** (page 17-18) – may be used to accept the Company’s option to terminate your policy in exchange for the LTC Buy-Out Offer Amount.

Next Steps

- We recommend that you review all options available to you (including paying the rate increase and any available benefit reduction options) and consult with your family members and other advisors to determine which option is appropriate for your needs.
- If you decide to reduce your coverage as outlined in the Options Worksheet, simply complete the “Coverage Change Request Form” and return it to John Hancock by **July 3, 2024**. These changes will be effective as of your next policy anniversary.
- If you decide to elect the LTC Buy-Out Offer and Policy Termination Option, review the “Important Things You Should Consider” and review and complete the “LTC Buy-Out Offer and Policy Termination Option Election Form” and return it to John Hancock by **July 3, 2024**. Your policy termination will be effective immediately.
- If you choose to make no changes to your coverage, no action is required, and your new increased premium will become effective on Anniversary date **August 2, 2024**.

Where to Get Help

- **Contact John Hancock** with any questions you may have. Please visit www.jhinfocenter.com or contact one of our customer service representatives at 844-272-7842, Monday through Friday from 8:00 a.m. – 5:00 p.m. Eastern Time. The TTY number for the hearing impaired is 800-555-5421. Our dedicated team is available to help you make a decision that best meets your personal needs.
- **You may contact your local State Health Insurance Assistance Program (SHIP)** if you need additional counseling on your options. Please go to www.shiptacenter.org to find the SHIP location closest to you.
- **You may also contact your State Department/Bureau of Insurance** if you need additional information associated with long-term care insurance. Please go to http://naic.org/state_web_map.htm to find your State Department/Bureau of Insurance.

We sincerely regret having to take this action, but we hope you find that the options and resources provided are helpful.

Sincerely,

Laurene Polignone
Assistant Vice President, Long-Term Care Operations

YOUR OPTIONS SUMMARY

The table below shows:

- Your current premium and the new premium you will be charged if you keep your current coverage; and
- Options you have available to help mitigate the premium increase, including any impact the change would have on your coverage and the resulting premium, where applicable. Please also see page 6 for other options that may be available to you.

Please visit www.jhinfocenter.com for current **cost of care** information specific to your area. As you evaluate what is best for you, we encourage you to consider the current and projected cost of care in your area, as well as how much of that amount you are able to pay from your own savings.

Current Coverage ¹		Coverage Change Options					
	Accept Rate Increase	Reduce your Annual Inflation Rate ²	Shared Cost Option ³	Reduce your BP ⁴	Reduce your DB ⁴	Paid-Up Policy ⁵	LTC Buy-Out Offer ⁶
Daily Benefit (DB) ⁷	\$250	\$250	\$226	\$250	\$225	\$250	N/A
Benefit Period (BP)	5-years	5-years	5-years	3-years	5-years	N/A	N/A
Inflation Option	5% Simple	3.7% Simple	5% Simple	5% Simple	5% Simple	N/A	N/A
Shared Cost Option	0%	0%	13.7%	0%	0%	N/A	N/A
Elimination Period	90 Days					N/A	
Optional Riders	None					N/A	
[Policy Limit	\$450,000	\$450,000	\$406,800	\$270,000	\$405,000	\$45,000	N/A]
Current Annual Premium	\$2000						
LTC Buy-Out Offer Amount							\$32,000
New Annual Premium⁹	\$2250	\$2000	\$2000	\$1500	\$1750	N/A	N/A

Note - certain benefit reduction options will reduce your overall Policy Limit. Please contact John Hancock at 844-272-7842 for details on the impact these changes will have on your Policy Limit. Please note that, as the insured, you have the right to a revised premium rate or rate schedule upon request.

Important: Your policy includes a "Limited Pay" premium provision. Please consider the number of remaining payments on your policy before making the decision to reduce your benefits.

¹Assumes no recent changes in your current coverage.

²A reduction to your future annual inflation rate will apply to your Daily Benefit and Policy Limit

³This change will also result in a reduction to your overall Policy Limit.

⁴This reduction will also result in a reduction to your overall Policy Limit. You may also want to review the restoration of benefits provision in your policy before making your decision.

⁵You have the option to convert your policy to a paid-up status with a reduced Policy Limit. See page 9 for more details.

⁶Please refer to the "Important Things You Should Consider" and the "LTC Buy-Out Offer and Policy Termination Option Election Form" for important information for review.

⁷DB is the most the coverage will reimburse for the costs of covered long-term care services received on any day.

⁸Please contact John Hancock at 844-272-7842 to learn the amount of your LTC Buy-Out Offer.

⁹As of August 2, 2024.

YOUR OPTIONS

The following are options you have available to help mitigate the premium increase by keeping your premium neutral or as close as possible to your current premium, along with an option to terminate your policy and accept a buy-out amount and an option(s) for paid-up coverage. Other reduction options to offset the premium increase may be available, for information, please call John Hancock at 844-272-7842.

1.Reduce your Future Annual Inflation Rate¹ - One time opportunity to offset all segments of the premium rate increase and keep your premium at its current level.

To keep your premium at its current level we are offering you the opportunity to reduce your future annual inflation rate from 5% simple to 3.7% simple.

This inflation reduction will only be applied to future inflation increases that occur after the rate increase effective date. All other existing benefits and previous inflation increases that have already been applied to your policy through the effective date of the inflation rate reduction will be maintained.

Important: Reducing your future annual inflation rate may result in the loss of Partnership status and your policy may no longer qualify for Medicaid Asset Protection. If you wish to retain Partnership status, do not elect this option. Other options to help minimize the increase and retain your Partnership status may be available to you. For more information, please call John Hancock at 844-272-7842.

The graph below is an example of how a \$150 daily benefit amount increases over the next 30 years at 5% and 4% simple annual increases. The chart to the right shows the national average annual increase over a five year period for the cost of care in various care settings. Please visit www.jhinfocenter.com for current cost of care information specific to your area.

Trends in the Cost of Care

Long-Term Care Setting	5-Year Average Annual Increase
Nursing homes and adult day services	3.2%
Care of elderly at home	2.8%

The 5-year average annual increases are based on 2016 and 2021 index averages, series "Nursing homes and adult day services in U.S. city average, all urban consumers, not seasonally adjusted" and "Care of invalids and elderly at home in U.S. city average, all urban consumers, not seasonally adjusted". Data obtained from the Bureau of Labor Statistics of the U.S. Department of Labor at www.bls.gov.

¹ A reduction to your future annual inflation rate will apply to your Daily Benefit and Policy Limit.

YOUR OPTIONS

2. Elect the Shared Cost Option: One time opportunity to offset this premium rate increase and keep your premium at its current level

We are offering you an option to elect a personalized Shared Cost option. This option would:

- **Reduce your current benefit amounts to reflect your Shared Cost percentage of 13.7%.** Choosing this option will result in a **new nursing home daily benefit of \$226** and a **reduction to your overall Policy Limit**. Your Shared Cost percentage will be 13.70%. Your new daily benefit amount and your new Policy Limit will continue to grow at the rate of your automatic inflation coverage, if applicable.

AND

- **Apply your Shared Cost percentage to any future claim payments.** John Hancock will pay 86.30% of any covered services, but we will not pay more than the new daily benefit amount of \$226 and the new Policy Limit. You will be responsible for the remaining portion of covered charges and all remaining costs.

Please note: If you elect this option it will offset this premium rate increase. If you elect this option you will not be subject to future segments of this premium increase. If you do not elect this option now, it will not be available to you when future premium increase segments of this premium increase are implemented.

The table below demonstrates the impact this change would have on three different claim examples after electing the Shared Cost Option, compared to a traditional Daily benefit reduction. The examples reflect our payment amount and your payment amount under the Shared Cost Option and the Daily Benefit Reduction Option for three different claim expense scenarios, based on your cumulative Shared Cost percent. Note – all amounts below are rounded to the nearest dollar for illustrative purposes.

	Example 1 \$139 Claim Submitted			Example 2 \$199 Claim Submitted			Example 3 \$259 Claim Submitted		
	Keep Current Coverage	DB Reduction Option	Shared Cost Option	Keep Current Coverage	DB Reduction Option	Shared Cost Option	Keep Current Coverage	DB Reduction Option	Shared Cost Option
Daily Benefit	\$250	\$200	\$226	\$250	\$200	\$226	\$250	\$200	\$226
John Hancock's payment amount	\$139	\$139	\$120	\$119	\$199	\$172	\$250	\$200	\$224
Your payment amount	\$0	\$0	\$19	\$0	\$0	\$27	\$9	\$59	\$33

Using example #3, let's look at how the Shared Cost amounts are determined (using rounded dollar amounts):

- Your existing daily benefit is reduced to \$226 to reflect your Shared Cost percentage
- You submit a claim for \$259
- John Hancock pays 86.30% (which is 1 - 13.70%) of any covered service – but no more than your new daily benefit of \$226 ($\$259 \times 86.30\% = \224 ; which is greater than your new daily benefit of \$226 – therefore your claim reimbursement from John Hancock = \$226)
- You are responsible for paying the remaining amount ($\$259 - \$226 =$ your payment of \$33)

YOUR OPTIONS

2. Elect the Shared Cost Option: One time opportunity to offset this premium rate increase and keep your premium at its current level cont.

When compared to a traditional daily benefit reduction, the Shared Cost option allows you to retain a higher daily benefit and Policy Limit, for a similar annual premium (see page 4).

Please note – as shown in the examples above, the Shared Cost Option is a benefit reduction option and impacts the amount of out of pocket expenses you will pay for covered services.

3. Reduce Your Benefit Period

Reduce your benefit period from 5-year to 3-year, resulting in a new annual premium of \$1,500.00. Reducing your benefit period will also reduce your overall Policy Limit. There will be no change to your other benefit levels.

4. Reduce your Daily Benefit

Reduce your daily benefit from \$250 to \$225, resulting in a new annual premium of \$1,750.00. Reducing your daily benefit will also reduce your overall Policy Limit. There will be no change to your other benefit levels.

5. Elect the LTC Buy-Out Offer and Policy Termination Option – Terminate Your Policy in Exchange for a One-Time LTC Buy-Out Offer Amount

This option is instead of accepting the premium rate increase or other coverage change options to your policy that may off-set or reduce the premium rate increase.

We are offering this *option* to terminate your policy in exchange for the LTC Buy-Out Offer Amount of **\$32,000**. If you elect this option your LTC policy will terminate **effective immediately**. No claim for a previous or future loss will be eligible for consideration under a terminated policy, and your policy will not be eligible for restoration if you elect this offer. **This change will be effective immediately**. Once you have terminated your policy in exchange for the LTC Buy-Out Offer Amount your policy will no longer be active, and you will have only 30 days to change your mind. After that time your acceptance of this LTC Buy-Out Offer and Policy Termination Option cannot be undone, and your policy cannot be restored.

If you choose to elect this option you must return the LTC Buy-Out Offer and Policy Termination Option Election Form. If you do not return the LTC Buy-Out Offer and Policy Termination Option Election Form but do not continue to pay the premiums necessary to keep your policy in force, your policy will lapse pursuant to its terms and you will not receive the LTC Buy-Out Offer Amount.

You made an important decision to purchase your LTC policy. Please review the benefits of your policy carefully along with your needs for coverage and understand what you are giving up by terminating your policy. Please consider whether electing to decrease your benefits or selecting a paid-up option with a decreased policy limit is better for you.

Please refer to “Important Things You Should Consider” and the LTC Buy-Out Offer and Policy Termination Option Election Form for important information to assist with deciding if this option is right for you.

IMPORTANT – This option may or may not be right for you. Please consult with a financial advisor, tax and/or legal professional and family members to help with your decision.

6. Paid-Up Policy Option, resulting in a paid-up policy with reduced benefits

If you choose to elect this option, your policy will be converted to a paid-up status with a modified Policy Limit where no further premiums are due. Your new Policy Limit will be \$45,000, which represents the lesser of your current Policy Limit or 150% of all premiums paid*. By exercising this option, you may be significantly reducing your policy benefits, so you should give this careful consideration before you select it.

The following terms apply if you choose to exercise the Paid-Up Policy Option:

- No benefits will be paid in excess of your new Policy Limit.
- Benefits will be paid subject to the daily benefit levels (and other coverage limits) in effect at the time you convert your policy to paid-up status, but limited to your new Policy Limit.
- All optional benefit riders will automatically terminate as of the effective date of your paid-up status.
- No future inflation adjustments will be made.
- All other applicable policy provisions, conditions, and limitations will remain in effect.

*Calculated based on benefits paid and premiums paid as of April 19, 2024. The actual Paid-Up Policy option amount may differ as it will be calculated based on current benefits and premiums paid to date as of the effective date of your paid-up status.

8. Other Benefit Reduction Options

In addition, you may be eligible to reduce other benefits to help lower the premium increase. These benefits can be reduced upon your request at any time.

- Reduce your daily benefit*
 - Reduce your benefit period*
 - Increase your elimination period
 - Drop an optional rider
- * This reduction will also result in a decrease to your overall Policy Limit.

Please note - in certain instances the ability to reduce your benefits may not be available due to available plan options. In addition, certain changes are subject to Partnership regulatory benefit minimum requirements. For more information on these options as well as the new premium amounts, please call John Hancock at **844-272-7842**.

IMPORTANT DATES

- ▶ If you choose an option **listed on the enclosed Coverage Change Request Form**, you must complete, sign and return the form by **July 3, 2024**. Changes will be effective as of your next policy anniversary.
- ▶ If you decide to elect the LTC Buy-Out Offer and Policy Termination Option, complete the **separate** "LTC Buy-Out Offer and Policy Termination Option Election Form" and return it to John Hancock by **July 3, 2024**. **Your policy termination will be effective immediately.**
- ▶ If you choose to make no changes to your coverage, no action is required. Your level of coverage will not change and your new increased premium will become effective on **August 2, 2024**.

1. Why do you need to raise premium rates — can you explain further?

When pricing a long-term care insurance product, insurance companies use the best available information at that time to predict how many policyholders might ultimately use the benefit in the future. This involves making certain assumptions about a variety of factors including: particular medical conditions; the expected lifespan of policyholders; the length of time policyholders keep their policies; and the cost of receiving long-term care services. If the actual experience differs in an unfavorable way from the expected experience based on these assumptions, a premium rate increase may become necessary.

Based on our most recent comprehensive claims study which we generally conduct every 3 years, which was completed in 2022, we have determined that there is a need to increase premiums in order to meet future claims obligations.

Premium rates are not guaranteed and may be increased in accordance with the terms of your policy. We will continue to monitor the claims experience to determine whether future increases will be necessary.

2. What is the policy provision that allows you to raise my premiums?

The provision that allows for an increase in premiums can be found on the front page of your policy. Your policy indicates that, while your insurance company cannot change coverage or refuse to renew coverage for reasons other than nonpayment of premiums, the company is allowed to change or increase premiums so long as the increase applies to an entire class of policies. Any future rate increase will not be implemented until the request has been filed with Virginia's State Corporation Commission and determined to be compliant with applicable Virginia laws and regulations addressing long-term care insurance.

3. If I no longer live in the state where I purchased my policy, does the increase still apply?

Yes. All LTC policies are regulated by the original state in which they were written at the time of the purchase of the policy. That means that the state where you were residing when you purchased your policy continues to be the applicable state, even if you are now residing elsewhere.

4. Do I need to complete and return the enclosed Coverage Change Request Form?

The Coverage Change Request Form should only be used if you decide you want to adjust your benefits. If you decide to elect the LTC Buy-Out Offer and Policy Termination Option, please use the LTC Buy-Out Offer and Policy Termination Option Election Form. Otherwise, no action is necessary on your part, as the premium rate increase will take place automatically on the policy anniversary date specified in your letter.

5. If I pay premiums through online banking or an automatic draft plan and my premium is changing, is there any action I need to take?

If you have an automatic draft plan established through John Hancock, no action is necessary, we will adjust the drafted amount. If you pay your premiums through online banking, please update your payment information with the new premium amount prior to the rate increase effective date.

For questions on the LTC Buy-Out Offer and Policy Termination Option, please see the "Important Things You Should Consider" and the "LTC Buy-Out Offer and Policy Termination Option Election Form" included in this package.

COVERAGE CHANGE REQUEST FORM
Individual LTC Insurance Policy for Jane Doe
Policy # 00009999
John Hancock Life Insurance Company (U.S.A.)

If you choose to make no changes to your current coverage, **no action is required** and your new increased premium will be effective on **August 2, 2024**.

If you choose to change your coverage, you must select an option listed below, sign and return this Coverage Change Request Form by **July 3, 2024**.

Before choosing any tax qualified long-term care policy option, we recommend that you review the option with a qualified tax professional or attorney to determine which option is best for you and to consider potential individual income tax consequences.

Step 1: Select an option (please choose only one option)

For more details, please see your Options Worksheet. As a reminder, you may have additional options available to help mitigate the premium increase. In some instances, certain changes are subject to Partnership regulatory benefit minimum requirements. For more information, please call John Hancock at **844-272-7842**. One of our Customer Service Representatives can discuss the impact of any change to your policy and provide you with new premium amounts.

COVERAGE CHANGE OPTIONS		NEW ANNUAL PREMIUM
<input type="checkbox"/>	Reduce your future annual inflation rate from 5% Simple to 3.7% Simple. This option will offset all segments of the premium rate increase and keep your premium at its current level.	\$2,000.00
<input type="checkbox"/>	Elect the Shared Cost Option resulting in a new daily benefit of \$226 and a reduction to your overall Policy Limit to \$406,800. <i>This option will offset the premium increase and keep your premium at its current level.</i>	\$2000
<input type="checkbox"/>	Reduce your Benefit Period from 5-year to 3-year. This will result in a reduction to your overall Policy Limit to \$270,000.	\$1,500.00
<input type="checkbox"/>	Reduce your Daily Benefit from \$250 to \$225. This will result in a reduction to your overall Policy Limit to \$405,000.	\$1,750.00
<input type="checkbox"/>	Elect the Paid-Up Policy Option available on your policy. Your policy will be converted to a paid-up status with a reduced Policy Limit of \$45,000.	N/A

LTC Buy-Out Offer and Policy Termination Option Election
 To elect the **LTC Buy-Out Offer Amount of \$32,000, and terminate your policy**, please complete the “**LTC Buy-Out Offer and Policy Termination Option Election Form**” included in this package.

Step 2: Review Agreement and Acknowledgement

I understand that my benefits and premium for those benefits will change based upon the option(s) I select. I understand that premium rates are not guaranteed and may be increased again in the future if I am among the group of policyholders whose premiums are determined to be inadequate.

If I select an option(s) to change my coverage, I understand that, within 30 days of the date this change becomes effective, I may cancel the change in my coverage and return to my original coverage at the increased premium level.

I understand the policy change(s) I selected above. By signing below, I agree that any change(s) selected above will be effective on my next policy anniversary provided this form is returned to John Hancock by July 3, 2024.

Before sending, remember to keep a copy for your records.

Step 3: Sign and Date

Signature (Jane Doe)

Date

Step 4: Return this completed form using the enclosed postage-paid envelope by July 3, 2024.

LTCforms@jhancock.com

The following is to assist you with some important information as you decide whether the LTC Buy-Out Offer and Policy Termination Option is right for you. You made an important decision in purchasing your policy to cover costs associated with long-term care, and you should carefully review the benefits of your policy to understand what you would be giving up by accepting this offer. Terminating your policy, which includes all riders on your policy, may not be the right choice for you. **Please consider this information carefully.**

Please discuss this option and your coverage with your family members, tax, legal and financial advisors before making any decision.

1. What is the LTC Buy-Out Offer and Policy Termination Option?

The LTC Buy-Out Offer and Policy Termination Option is a limited-time offer to terminate your policy and receive a one-time payment in exchange. If you select this option, your policy, which includes all riders on your policy, will terminate, and you will have no long-term care insurance coverage for any prior or future services or expenses associated with long-term care services.

Please be aware that all policy riders you have in force will terminate with your policy if you elect the LTC Buy-Out Offer and Policy Termination Option, including, but not limited to, the SharedCare Benefit Rider, the FamilyCare Benefit Rider, and Survivorship & Waiver of Premium Benefit Rider. You should consider speaking with your family, spouse, partner and other individuals who may have an interest in those riders and coverage before you make your decision to elect the LTC Buy-Out Offer and Policy Termination Option.

If you elect this option, we will send a notice to the individual you designated to receive notice of a policy lapse. The notice will indicate that you have elected to terminate your policy. You may also want to consider informing your designee of your interest in electing this LTC Buy-Out Offer and Policy Termination Option.

2. Do I have to terminate my policy?

No, this option is an offer for your consideration and is one of your options in this communication material regarding your premium rate increase. If you do not complete and return the "LTC Buy-Out Offer and Policy Termination Option Election Form" your policy will remain active at the increased premium level and you will not receive a LTC Buy-Out Offer Amount. If you wish to keep your policy in force, but do not want to pay the increased premium, there are additional alternative options available for you to consider on the "Options Worksheet".

3. Why is John Hancock making this offer?

This option may be mutually beneficial to John Hancock and to any eligible customer whose needs have changed and who no longer wants or needs their policy.

We know premium rate increases on your policy may be challenging and that your expected long-term care needs may have changed since purchasing your policy. We have developed this option for you to consider as an alternative to the current premium rate increase. We do not anticipate making this LTC Buy-Out Offer and Policy Termination Option available to you during future rate increases.

This option may provide financial benefits for John Hancock as the payment of any LTC Buy-Out Offer Amounts may be less costly to us than continuing to guarantee the benefits and it may enable the Company to reallocate capital.

4. How is the LTC Buy-Out Offer Amount calculated?

Your LTC Buy-Out Offer Amount was determined by an actuarial calculation which takes into account several factors including morbidity, mortality and interest rate assumptions. Consistent with how John Hancock values the reserves it holds for your policy, your offer amount reflects the characteristics of both you and your policy including, but not limited to product features and riders, benefit amounts, inflation type, policy duration, age at policy issue, sex, and risk class.

Premiums paid for coverage beyond your policy termination date will be refunded to you. The premium refund amount will be added to the LTC Buy-Out Offer Amount that you will receive if you accept this offer.

5. When will my policy terminate and my LTC Buy-Out Offer Amount be sent?

Once we receive the completed "LTC Buy-Out Offer and Policy Termination Option Election Form" in good order your policy will terminate effective immediately. Upon termination, a LTC Buy-Out Offer and Policy Termination Disclosure Endorsement will be sent to you, and the LTC Buy-Out Offer Amount will be separately mailed to you within 10 business days after the policy termination.

6. If I elect this option, can I change my decision in the future if I pay back the LTC Buy-Out Offer Amount?

Yes, but you will only have 30 days from your policy termination date to change your mind about terminating your LTC policy and contact us to reverse your decision. Prior to reversing your decision and restoring your policy we must receive the full LTC Buy-Out Offer Amount you received and any amount of premium refund included in your LTC Buy-Out Offer Amount. After the expiration of the 30 days, your acceptance of the LTC Buy-Out Offer and Policy Termination Option will become irrevocable and your policy cannot be restored.

You must contact John Hancock in writing at P.O. Box 55978, Boston, MA 02205 or call 844-272-7842 to reverse your decision to elect the LTC Buy-Out Offer and Policy Termination Option. The full LTC Buy-Out Offer Amount and any premium refund applicable must be sent to John Hancock at P.O. Box 55978, Boston, MA 02205, within 10-days of your request to reverse your decision.

If you do reverse your decision and your policy is restored, your increased premium amount will need to be paid on time unless you elect an alternative option available for you on the "Options Worksheet".

7. Is the LTC Buy-Out Offer Amount taxable?

If you elect this option, the LTC Buy-Out Offer Amount you receive may result in taxable income in some circumstances. If you accept this LTC Buy-Out Offer and the amount you receive exceeds your cumulative premiums paid, John Hancock will provide an IRS Form 1099 reporting the excess as taxable income, if it is required. Depending on your circumstances, your taxable income may be higher than the amount reported on IRS Form 1099, such as if you deducted premiums from your taxable income or if you previously excluded from taxable income premiums that were paid by your employer.

Before you make a decision to elect the LTC Buy-Out Offer and Policy Termination Option Election, please consult with your tax advisor on any potential individual income tax consequences of electing this LTC Buy-Out Offer and Policy Termination Option terminating your policy.

Please also discuss your decision on this option with your family members, legal and financial advisors before making any decision.

8. How will I pay for long-term care services if needed in future?

Prior to electing this option and terminating your policy you should think through how you will pay for long-term care services if you need them in the future and how using those resources will affect your way of life. Retaining your policy may help pay for the costs of long-term care services, allowing you to help keep your savings and assets longer. Your policy benefits may also help allow you to continue your independence and receive long-term care services at home.

The cost of long-term care services is generally not covered by health insurance, long-term disability insurance or government programs. Medicare may only pay for some care and Medicaid may only cover those individuals whose assets are at or below state-required levels.

You should consider how electing this LTC Buy-Out Offer and Policy Termination Option may affect not only your savings, but also family members and those closest to you, should they need to help pay for your care.

9. How much do long-term care services cost?

The cost of long-term care services varies based on the type of care and the geographical area in which care is provided. Please visit www.jhinfocenter.com for current cost of long-term care information specific to your area to assist you in making this important decision.

10. If my policy is an LTC Partnership policy that receives special treatment under Medicaid, what will happen if I terminate my policy?

Unfortunately, if you terminate your LTC Partnership policy you will generally no longer benefit from certain favorable asset eligibility rules under Medicaid that apply to “partnership” long-term care insurance policies, and therefore, you will forfeit favorable treatment under the Medicaid laws. We suggest you contact the department that administers the LTC Partnership program in the state where you live as well as the state in which you lived when you purchased your policy (if different) with any questions regarding Medicaid and the LTC Partnership program applicable for your policy.

11. If my spouse/partner has a policy, will they receive this offer?

This offer is available as an option for eligible insureds receiving a rate increase on their policy in states in which the offer was filed and approved by the state. If your spouse purchased the same John Hancock long-term care product, is currently receiving a premium rate increase, and is eligible based on issue age when they purchased their policy, then he/she will receive a LTC Buy-Out Offer and Policy Termination Option, though it will likely differ in offer amount.

12. If I choose not to elect this option, can John Hancock cancel my policy?

No, we cannot cancel your policy as long as you continue to pay the required premium. You have the right to continue your policy for as long as you live or until your benefits have been exhausted under the policy. We cannot cancel your policy unless you do not make the required premium payments on a timely basis. To continue this policy, you must make sure that you pay the premiums when they are due.

LTC BUY-OUT OFFER AND POLICY TERMINATION OPTION ELECTION FORM

Individual LTC Insurance Policy for Jane Doe

Policy # 00009999

John Hancock Life Insurance Company(U.S.A.)

Use this form to elect the LTC Buy-Out Offer and Policy Termination Option and terminate your coverage. Please read all the information provided carefully and complete the required information below. **THIS IS A LIMITED TIME OFFER.** To accept this offer, return the completed form to John Hancock by **July 3, 2024** in good order for timely processing.

In good order means that we receive the LTC Buy-Out Offer and Policy Termination Option Election form in a manner that is satisfactory to us, it is sufficiently complete and clear that we do not need to exercise any discretion to follow such instruction, it complies with Company requirements, and all signatures and dates we require to terminate your Policy and pay the LTC Buy-Out Offer Amount are completed.

You are not required to elect this option and accept this offer and terminate your policy. Other benefit decrease options may be available to you to mitigate the premium rate increase.

1. Important Things You Should Consider Before You Elect this Option

- Once the termination of your policy is effective, which includes termination of all riders, you will no longer be able to make a claim under your policy for any past or future long term care services or expenses or have any other rights under your policy, including but not limited to any nonforfeiture rights or any paid-up premium rights.
- Once the termination of your policy is effective you will have 30 days from the termination effective date to change your mind. Once the 30 day period expires, your election of this LTC Buy-Out Offer and Policy Termination Option cannot be undone, and your policy cannot be restored.
- Your decision to purchase your LTC policy was an important one. Please carefully review the benefits of your policy and your coverage needs and be sure you understand what you are giving up by terminating your policy before you make your decision.
- **If you believe you may need long-term care services in the future, terminating your policy may not be in your best interest.**
- This option may or may not be right for you. Please consider this option carefully and consult with a financial advisor, tax and/or legal professional and family members to help with your decision.
- Please refer to the "Important Things You Should Consider" document included in this package for valuable information before you elect this option.
- **THIS IS A LIMITED TIME OFFER. Return the completed form to John Hancock by July 3, 2024. If after this date you elect not to continue to pay the premiums necessary to keep your policy in force, your policy will lapse pursuant to its terms and you will not receive the LTC Buy-Out Offer Amount.**

Contact **John Hancock** with any questions you may have. Please visit www.jhinfocenter.com or contact one of our customer service representatives at 844-272-7842, Monday through Friday from 8:00 a.m. – 5:00 p.m. Eastern Time. The TTY number for the hearing impaired is 800-555-5421.

2. Tax Information

Electing this LTC Buy-Out Offer and Policy Termination Option may result in taxable income in some circumstances. If you accept this LTC Buy-Out Offer and Policy Termination Option and the amount you receive exceeds your cumulative premiums paid, John Hancock will provide an Internal Revenue Service (IRS) Form 1099 reporting the excess as taxable income, if it is required. Depending on your circumstances, your taxable income may be higher than the amount reported on IRS Form 1099, such as if you deducted premiums from your taxable income or if you previously excluded from taxable income premiums that were paid by your employer.

Before you make a decision to elect the LTC Buy-Out Offer and Policy Termination Option, please consult with your tax advisor regarding the potential individual income tax consequences of electing this LTC Buy-Out Offer and Policy Termination Option. We cannot provide advice regarding the tax consequences associated with electing the LTC Buy-Out Offer and Policy Termination Option. Please be advised that John Hancock will send a copy of Form 1099 to the IRS as well reporting taxable income with respect to the LTC Buy-Out Offer Amount, if it is required.

3. LTC Buy-Out Offer and Policy Termination Option and LTC Buy-Out Offer Amount Information

The LTC Buy-Out Offer Amount will be in the form of a check and mailed to your address of record. Please note, if your address on file with John Hancock has changed within the last 30 days, your signature must be notarized.

The check will be made payable to the policyholder.

LTC Buy-Out Offer Amount: \$32,000.

To accept, you must return the completed form to John Hancock by July 3, 2024.

Upon receipt of your completed LTC Buy-Out Offer and Policy Termination Option Election Form in good order, your policy will terminate effective immediately.

4. LTC Buy-Out Offer and Policy Termination Option Election, Acknowledgement & Signature

I acknowledge that I have read and understand the information provided in this LTC Buy-Out Offer and Policy Termination Option Election Form, along with the LTC Buy-Out Offer and Policy Termination Option Important Things You Should Consider document and other material provided to me from John Hancock with the Notice of Premium Rate Increase letter. By signing this form below, I agree to accept the LTC Buy-Out Offer and Policy Termination Option and terminate my policy identified above.

By signing below, I also acknowledge and confirm my understanding of the following:

- This LTC Buy-Out Offer and Policy Termination Option is completely voluntary and there is no obligation to accept it.
- By accepting this LTC Buy-Out Offer and Policy Termination Option I will receive the LTC Buy-Out Offer Amount identified in section [3] above, my LTC policy and all riders attached to it will terminate effective immediately and John Hancock will have no liability for any benefits or claims under my LTC policy, including claims for benefits related to prior and future services and expenses.
- I understand that once the policy is terminated any nonforfeiture, paid-up premium and return of premium benefits will no longer be available to me, and that after the policy has been terminated for 30 days it cannot be restored.
- I have had the opportunity to consult with a financial advisor, tax and/or legal professional and family members to help with my decision. I have determined, based on all the facts and circumstances, that it is better for me to accept the offer instead of keeping my LTC insurance policy.
- I have read the tax disclosures provided on this form regarding the tax treatment of this transaction, including the tax treatment of my policy termination and my receipt of the LTC Buy-Out Offer Amount.
- I understand that within 30 days of the termination date of my policy, I may cancel my election and restore my policy by calling 844-272-7842 or writing to John Hancock at the address below and returning the full LTC Buy-Out Offer Amount I received along with any premium also refunded to me. Once John Hancock receives the full LTC Buy-Out Offer Amount and premium refunded to me, my policy will be restored and will then return to my coverage in effect immediately prior to the termination date. I understand that I will also need to pay the new increased premium amount on time when due unless I elect another option that will impact the premium increase amount.

Ian Patterson

Re: John Hancock Life Insurance Company (U.S.A)
2022 Inforce Rate Increase – JH CCII
SERFF ID: MULF-133663115

Dear Mr. Patterson,

This letter is in response to your objection dated June 23, 2023 regarding the above filing. Your questions/concerns are included below in bold with our responses following.

- 1) Please advise if you had an NAIC Multistate Advisory Committee (MSA) review on a rate increase related to these forms within the past 12 months. If yes, please provide the SERFF Tracking Number and date of submission or provide us the MSA report via email @ ian.patterson@scc.virginia.gov .**

We have not had an MSA review on a rate increase related to these forms in the past 12 months.

- 2) Please provide Exhibits in Excel with working formulas so that the calculations may be followed.**

Please refer to the excel file "VA CCII Exhibits 1 & 2.xlsx" included with our response.

- 3) Please provide the average issue age and current attained age for the Virginia policyholders.**

The average issue age is 57 and the current attained age is 73 for the CCII policy series.

- 4) Please state the intentions of the company regarding a future rate increase if the proposed rate increase is approved. Explain clearly what would trigger a future rate increase if the proposed rate were approved.**

The requested premium rate schedule is based on assumptions developed from our 2022 experience study. If the requested premium rate schedule increase is implemented and the underlying assumptions are realized, no further premium rate schedule increases are anticipated based on assumptions developed from our 2022 experience study. Comprehensive experience studies are completed every three years. Additional future rate increases will be necessary if experience deteriorates to the point where the lifetime loss ratio, without any applicable margins for moderately adverse expectations, exceeds the target loss ratio certified to in our current filing.

- 5) Please provide the discount rate the company used in Exhibit 2.**

The discount rates used in Exhibit 2 are the same as those used in Exhibit 1. For CCII, the discount rate is 4.5% for policies issued before 2006, and 4.0% for policies issued during or after 2006.

6) Please explain if any adjustments to mortality or morbidity factors were made for COVID-19. Please fully describe these adjustments.

Our filing is based on nationwide experience through 2021, which includes impacts on actual claims in 2020 and 2021 due to COVID. In particular, in 2020 and 2021, we saw elevated claimant mortality and some changes to usage of LTC benefits. The result from these years (including claims that were opened prior to 2020) is a reduction to the lifetime loss ratio and reduces the amount of rate increase that otherwise would have been requested. We consider this experience temporary and do not expect it to recur in the future. As a result, our assumptions are set based on claim experience prior to the onset of COVID, as we expect this to be the best basis for projecting the future. We will continue to monitor any impacts of COVID, including both impacts on claims and cost of care, and continue to assess whether any adjustments should be made to the future projections.

7) Please provide all projections required to compute the "Prospective PV" and the "If Knew/Makeup Blend" allowable increases as currently under consideration by the NAIC.

Please see the attached file "PPV Method Projections.xlsx" for all projections required for the Prospective PV method. A summary of results is below.

The Catchup Provision reflects the additional rate increase for the Prospective PV method due to the capped approval at the "If/Knew Makeup Blend" for the prior rate increase. This Catchup Provision is described in the October 2018 document from the NAIC Pricing Subgroup, "Approaches to LTC Rate Increases Final from Pricing Subgroup.pdf", which is attached.

Total Rate Increase - Prospective Present Value Method			
Product	Base Rate Increase	Catchup Provision	Total Rate Increase
CCII	32.2%	5.4%	37.6%

Please see the attached file "Blended If-Knew Projections.xlsx" for all projections required for the If Knew/Make Up Blend method.

8) Please provide an Exhibit similar to the one in section 9 for the Nationwide block of business.

Please refer to the file "Nationwide Counts & Average Annual Premium.xlsx" for the requested exhibit. We estimated the premiums after rate increases.

9) Please provide the total cumulative rate increases in Virginia for all forms without the proposed rate increase.

The cumulative approved rate increase for Virginia CCII is 109%.

10) For all projections requested in this question, the baseline should comply with the following:

a. Any policies issued as limited-pay which are now in paid-up status should be removed, both from historical experience and future projections.

b. Premiums should be at the Virginia rate level for both historical and projected future.

The projections comply with a & b.

11) To assist the Virginia Bureau of Insurance in its review, for each of the subsets of the business corresponding to the combinations of Benefit Period, Elimination Period and Inflation Option, please provide in Excel format the following projections on a nationwide basis:

- a. current assumptions and current rates
- b. current assumptions with the proposed rate increase
- c. current assumptions with premiums restated as if the proposed rate increase had been in effect from inception.
- d. actual historical experience to the projection date and future projections based on the prior assumptions (to be used in the Prospective PV test).
- e. original assumptions and original premiums from inception

Projections a. - e. can be separate tabs or combined into separate columns on the same exhibit.

Please see the attached file "VA CCI Exhibits (split by BP and inflation).xlsx" for the information requested in a. – c. and e. The exhibits are split by inflation type and between lifetime and non-lifetime benefit periods.

We do not have data for PPV available by sub-bucket, but please see the response to Objection 7 for overall PPV projections. Splits by Elimination Period are not provided as almost 90% of policies have a 90-day EP.

12) Please identify the portion of the proposed rate increase that is attributed to each of the following components:

- a. Changes in the voluntary lapse assumptions
- b. Changes in the mortality assumptions
- c. Changes in the expected claim cost assumptions
- d. Changes in any other assumptions (e.g., interest rates)

Please see the chart below for a breakdown of the drivers of the rate increase:

Drivers of the Rate Increase	
Changes in the voluntary lapse assumptions	3%
Changes in the mortality assumptions	36%
Changes in the morbidity assumptions	61%
Changes in any other assumptions (e.g., interest rates)	0%
Total Rate Increase	100%

13) Please confirm if margin was included in claim reserve estimates.

No margin is included in claim reserve estimates.

14) Please provide the full credibility standard used to determine the credibility of the experience of each policy series associated with this filing. Additionally, please provide the number of claims associated with each policy series.

In general, we have fairly credible data over our whole book of business and feel using our own data is best in predicting the future. Credibility determinations for LTC products are difficult due to a lack of homogeneity in the data and a lack of a standard industry table for reference. Our assumptions are set at a nationwide level and in general we do not consider policy series level experience to be credible.

Please refer to the file "Claim Counts.xlsx" for the number of incurred claims on each policy series based on our most recent data. Please note that the claims for 2020 and 2021 include an estimate for incurred but not reported claims.

15) Please advise if there are any partnership policies issued to any of the remaining Virginia policyholders.

There are currently 2338 active partnership policies in Virginia for the CCII policy series.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

P.J. Beltramini, FSA, MAAA
VP, Long Term Care Inforce Management
John Hancock Life Insurance Company

Long-term Care Insurance

Approaches to Reviewing Premium Rate Increases

NAIC LTC Pricing Subgroup

October 2018

Executive Summary

Several years ago, the NAIC Long-term Care Pricing Subgroup proposed changes to the NAIC Long-term Care (LTC) Model Regulation (Model 641) aimed at strengthening the pricing of LTC insurance. These proposed changes were adopted by the NAIC in August of 2014. These changes apply to LTC insurance policies issued on or after the date that the state where the policy is issued adopts the changes.

Despite these changes, along with changes made to the pricing methodology of LTC insurance in 2002, carriers find themselves in situations where they must increase premium rates in order to cover future expected claims. Most of these increases are implemented on blocks that are no longer open to new business. Regulators often treat the review and approval of these rate increases differently.

Over the past year, the LTC Pricing Subgroup studied and discussed approaches used by various states to review LTC rate increases. These approaches were discussed on public calls consisting of regulators, industry representatives, and consumer advocates. Through that process, this document was developed to serve as a resource that states can use in their review of LTC rate increases. The goal is to create a more predictable and transparent process for reviewing LTC rate increase filings.

Scope

This document describes two methodologies for computing rate increases for LTC insurance policies. Regulators should consider applicable laws in their state when applying these methods to a particular block of policies.

Background

Prior to 2002, LTC insurance was priced using a fixed lifetime loss ratio methodology. This methodology was meant to ensure that premium rates were not too high. However, as experience evolved, the premiums set using this methodology proved to be inadequate, leading to large rate increases. In addition, this approach allowed for the portion of the premium available for expenses and profit to increase when actual claims were higher than what was expected when the product was initially priced.

In 2002, a new method of pricing LTC insurance was adopted by the NAIC. This new method, known as the rate stabilization methodology, moved away from fixed loss ratios applied to initial premiums and moved to a rating methodology designed to increase the probability

that premiums will remain unchanged for the life of the contract, even under moderately adverse experience.

Even under the revised methodology, policyholders continue to experience large rate increases. In response, the NAIC Long-term Care Pricing Subgroup proposed changes to the NAIC Long-term Care Model Regulation (Model 641) aimed at strengthening the pricing of LTC insurance. These proposed changes were adopted by the NAIC in August of 2014. These changes apply to LTC insurance policies issued after the date that the state where the policy is issued adopts the revised regulation. The new model does not address rate increases consumers are experiencing on existing business.

The LTC Pricing Subgroup turned its focus to the review of these rate increases with the goal of developing a framework to achieve greater transparency and predictability in the review and approval of requests for LTC insurance rate increases.

Approaches

As a starting point, the subgroup surveyed states on various practices surrounding their review of LTC insurance rate increases. One of the first steps in the process was to develop consistency when using certain terms, including the term “recoupment of past losses”, when used in our discussions. For purposes of this document, the subgroup developed a consistent understanding of different categories of past losses.

The following charts illustrate the streams of potential losses or deficiencies stemming from two general sources – those stemming from past and future premiums being insufficient, and those stemming from past and future incurred claims being worse than expected.

At the time of a rate increase, sources of potential past premium deficiencies come from premiums that were paid by policyholders who:

- are active
- are in paid-up status (i.e., they are not on claim, but are no longer paying premium under the terms of the policy but may have future claims)
- have lapsed coverage, (i.e., they are not paying premium, are not on claim, and cannot have future claims)
- are disabled (i.e., on claim)

At the time of a rate increase, sources of future premiums come from the following two groups:

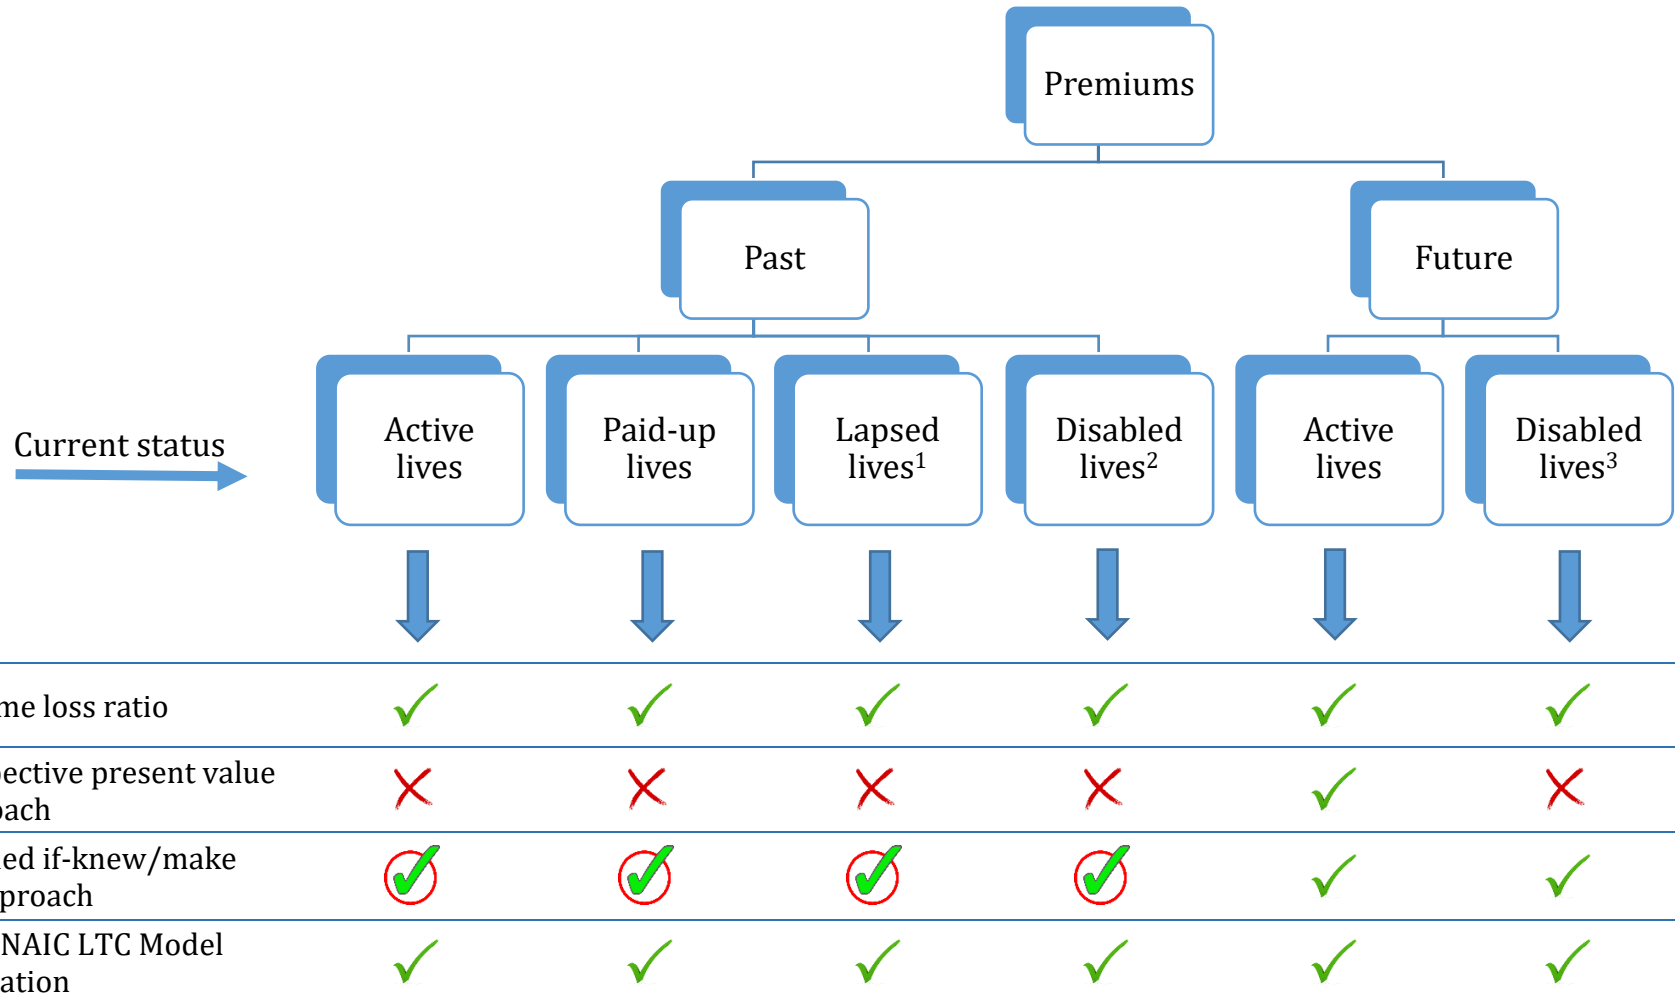

- policyholders who remain active and continue paying premiums
- policyholders who are currently on claim but recover and begin paying premiums again

At the time of a rate increase, sources of future incurred claims are:

- active premium paying policyholders who go on claim in the future

- disabled policyholders who are currently on claim, recover, and go on claim again in the future
- paid-up policyholders – this source of future claims is recognized in lifetime loss ratio calculations but not in projections of future claims for rate increases

Premium Shortfall Categories at the Time of a Rate Increase Request

¹ Includes voluntary lapses and those who died prior to generating a claim

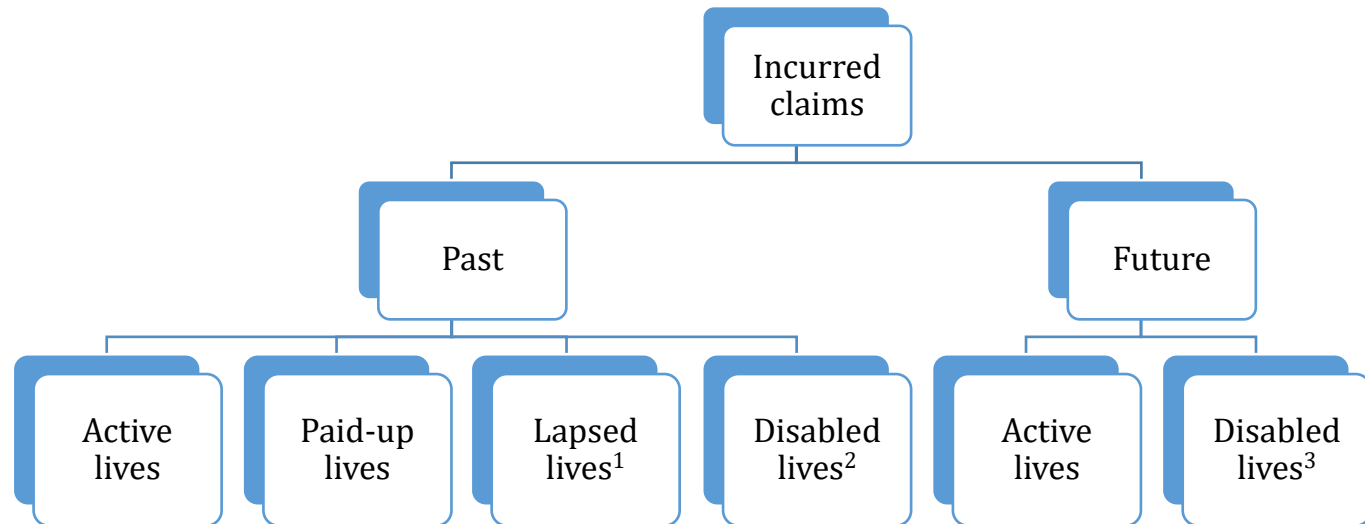

² Includes those who died while on claim and those who exhausted their benefits

³ Current disabled lives who might recover in the future and resume paying premiums

✗ indicates that the category is not reflected in the methodology, and any deficiency needs to be funded from a source other than a rate increase.

However, the deficiency could be mitigated by catch-up and transitional adjustments to the prospective PV approach. ⊗ indicates a partial recoupment since the method blends if-knew, which does not allow for any recoupment, and make up, which allows for full recoupment.

Categories of Adverse Claims Experience at the Time of a Rate Increase Request

Lifetime loss ratio	✓	✓	✓	✓	✓	✓
Prospective present value approach	✗	✗	✗	✗	✓	✗
Blended if-knew/make up approach	⊗	⊗	⊗	⊗	✓	✓
2014 NAIC LTC Model Regulation	✗	✗	✗	✗	✓	✓

¹ Includes voluntary lapses and those who died prior to generating a claim

² Includes those who died while on claim and those who exhausted their benefits

³ Current disabled lives who might recover in the future and resume paying premiums

✗ indicates that the category is not reflected in the methodology, and any deficiency needs to be funded from a source other than a rate increase.

However, the deficiency could be mitigated by catch-up and transitional adjustments to the prospective PV approach. ⊗ indicates a partial recoupment since the method blends if-knew, which does not allow for any recoupment, and make up, which allows for full recoupment.

Current status

As a second step in the process, the pricing subgroup identified several general methodologies that were consistently used across states. These are:

- The lifetime loss ratio approach, which allows for full recoupment of past losses and often results in the largest rate increase
- Unique state approaches, which are designed to limit the recoupment of past losses
- The amended model regulation, which, like the state approaches, limits the recoupment of past losses

The two state approaches discussed in the pricing subgroup are described below.

Prospective PV approach

This approach avoids a recoupment of past losses by considering only future projections. The following formula is used to compute an allowable rate increase for a block of LTC insurance policies:

$$\text{rate increase \%} = \frac{\Delta PV(\text{future incurred claims}) - \left(\frac{.58 + .85 C}{1 + C} \right) \Delta PV(\text{future earned premiums})}{.85 PV_{\text{current}}(\text{future earned premiums})}$$

where:

- Δ indicates the change in present value (PV) due to the change in actuarial assumptions between the time of the last rate increase (or the original assumptions if there was no prior rate increase) and the current assumptions
- C is the cumulative percent rate increase to date. For example, if the current rate, prior to the proposed rate increase, is 50 percent higher than the rate at initial pricing, then $C = .5$

The *current* subscript in the denominator indicates that the PV should be computed using current assumptions. The future earned premiums in the formula are based on the current premiums prior to the proposed rate increase. Regulators may wish to consider the addition of margin to the rate increase. For example, the $\Delta PV(\text{future incurred claims})$ term in the above formula could be multiplied by 1.1 to represent a 10 percent margin.

The formula is limited to **active, premium-paying policyholders** as of the time of the filing. All present value calculations in the formula should be based on the same set of current active lives.

For pre-rate stabilized policies, one could use .6 in place of .58 and .8 in place of .85:

$$\text{rate increase \%} = \frac{\Delta PV(\text{future incurred claims}) - \left(\frac{.6 + .8 C}{1 + C} \right) \Delta PV(\text{future earned premiums})}{.8 PV_{\text{current}}(\text{future earned premiums})}$$

Justification for the formula

The numerator represents the amount of additional funding needed, on a prospective basis, as a result of the change in actuarial assumptions. This amount reflects the increase in the PV of incurred claims, and is partly offset by the increase in the PV of future net premiums, where net premiums are computed by multiplying gross premiums by the loss ratio.

To compute the loss ratio, if P_0 is the premium at initial pricing and P is the current premium prior to the proposed rate increase, then:

$$P = P_0(1 + C)$$

so

$$P_0 = \frac{P}{1 + C}$$

The portion of current premium due to prior increases is:

$$P - P_0 = P - \frac{P}{1 + C} = \frac{PC}{1 + C}$$

Applying a 58 percent loss ratio to the initial premium and an 85 percent loss ratio to the increase portion, the loss ratio is:

$$\frac{.58 \frac{P}{1 + C} + .85 \frac{PC}{1 + C}}{P} = \frac{.58 + .85 C}{1 + C}$$

Since a loss ratio of 85 percent applies to the rate increase, which provides the additional funding needed, then:

$$.85 \Delta PV_{\text{current}} (\text{future earned premiums}) = \Delta PV (\text{future incurred claims}) - \left(\frac{.58 + .85 C}{1 + C} \right) \Delta PV (\text{future earned premiums})$$

The percentage rate increase, computed as $\Delta PV / PV$ of future earned premiums, is found by dividing both sides of the above equation by $.85 PV_{\text{current}} (\text{future earned premiums})$:

$$\text{rate increase \%} = \frac{\Delta PV (\text{future incurred claims}) - \left(\frac{.58 + .85 C}{1 + C} \right) \Delta PV (\text{future earned premiums})}{.85 PV_{\text{current}} (\text{future earned premiums})}$$

Possible Modifications to Prospective PV approach

The prospective PV formula is intended to produce a rate increase that is adequate to fund the projected increase in future claim liabilities. However, a regulator should consider modifications to the formula based on the following:

- Disapproval of a prior actuarially justified rate increase.
- A prior actuarially justified rate increase reduced by the regulator.
- Approval of a prior actuarially justified rate increase after significant delay, offset by any company delay in filing for an actuarially justified rate increase.

Note that the use of any prior “actuarially justified” rate increase requires justification and support, which may vary by company and by state. The use and amount of any prior actuarially justified rate increase must be agreed to by both the regulator and the company.

Examples of the modifications that could be made to the prospective PV formula are described below:

Catch-up Provision (For rate increase requests denied or delayed)

If part of a past rate increase request has been denied, or if there was a material delay in the prior approval, for the new rate to be consistent with the underlying methodology of the Base Formula, a company must be granted an additional rate increase amount, called the catch-up provision. The catch-up provision is designed to reflect in a new rate increase the necessary additional premiums based on the assumptions provided to the department at the time of the previous rate increase request that were not approved with the prior filing(s). It will not take into account any deviation in actual experience from assumed experience during that time period.

$$\text{Catch-up rate increase \%} = \frac{\text{AV}(\text{premiums requested}^P) - \text{AV}(\text{premiums approved}^P)}{\text{PV}_{\text{current}}(\text{future earned premiums})} + \frac{\text{PV}(\text{premiums requested}^F) - \text{PV}(\text{premiums approved}^F)}{\text{PV}_{\text{current}}(\text{future earned premiums})}$$

Where:

AV is the Accumulated Value at the time of the new rate increase request using the actuarial assumptions made at the time of the previous rate increase request(s).

PV is the Present Value at the time of the new rate increase request using the actuarial assumptions made at the time of the previous rate increase request(s).

Premiums Requested^P is the total past premiums that would have been collected had the entire rate increase request been granted in a timely manner based on the actuarial assumptions made at the time of the previous rate increase request(s)

Premiums Requested^F is the total future premiums that would have been collected had the entire rate increase request been granted in a timely manner based on the actuarial assumptions made at the time of the previous rate increase request(s)

Premiums Approved^P is the total past premiums that were collected based on the rate increase approved at the time of the previous rate increase request(s)

Premiums Approved^F is the total future premiums that would have been collected based on the rate increase approved at the time of the previous rate increase request(s)

For pre-rate stabilized policies, use .8 in place of .85.

Transition Provision (For Pre-Rate Stability products and other products where the last rate increase requests was voluntarily reduced by the company)

If the prior rate increase request was not subject to the Rate Stability actuarial certification or a past rate increase request has been voluntarily reduced from the amount per such certification, a transition period needs to be established for companies to make a single filing to provide the full amount of premium necessary to meet the actuarial certification (consistent with the Model Bulletin calculation requirements). This transition filing would establish the assumptions to be used as the “prior assumptions” for future Base Formula requests and the maximum “Prior Premium” scale for these policies based on those prior assumptions. For any new filing of a rate increase to the Prior Rate scale to be consistent with the underlying methodology of the Base Formula, a company must be granted increases from the current approved premium scale up to but not above the maximum Prior Premium scale as part of the Transition amount. In this instance, the company will not be allowed to recapture past premiums that would have been collected if the rate increase request had not been voluntarily reduced. To the extent that a company requests a Transitional increase and a state denies or reduces the amount, the amount denied would be allowed in future rate increase requests under the Catch-Up Provision.

$$\text{Transition rate increase \%} = \frac{\text{PV}(\text{premiums justified}) - \text{PV}(\text{premiums requested})}{\text{PV}_{\text{current}}(\text{future earned premiums})}$$

Where:

PV is the Present Value using the actuarial assumptions made at the time of the previous rate increase request(s).

Premiums Justified is the total future premiums that would have been collected had the previous rate increase request been based upon the entire amount calculated in the Base Formula and Catch-up Provisions at the time of the previous rate increase request(s)

Premiums Requested is the total future premiums that would have been collected based on the entire rate increase requested at the time of the previous rate increase request(s)

For pre-rate stabilized policies, use .8 in place of .85.

Calculation of Entire Rate Increase

Total Rate Increase = Base Formula Increase % + Catch-up Increase % + Transition Increase %

Blended If-Knew/Make-up Approach

This approach begins with the computation of if-knew and makeup rate increases, as described in the definitions below. Next, a blended average is computed between the if-knew and make-up increases, where the makeup component is weighted based on the percentage of original policyholders remaining in active, premium-paying status. Finally, a cost-sharing function is applied to determine the portion of the rate increase that is paid by policyholders, while the remainder is a cost borne by the company.

This approach requires the use of all components outlined in this section. It is not appropriate to use only one part of this approach to determine a rate increase.

Key definitions include:

- If-knew increase – increase to the premium rates such that the resulting rates, if in effect from inception of the form, would produce the greater of the initial target lifetime loss ratio or minimum loss ratio applicable to the form
- Make-up increase – increase to the premium rates such that the resulting rates, if in effect in future years, would produce the greater of the initial target lifetime loss ratio or minimum loss ratio applicable to the form
- Blended increase – weighted average of if-knew increase and makeup increase, with the makeup component weighted based on the percentage of the original policyholders remaining in active, premium-paying status
- Cost-sharing increase – blended increase reduced by the cost-sharing formula described below
- Maximum allowable rate increase – an increase that, in addition to any prior rate increase, results in a cumulative rate increase equal to the cost-sharing increase

Cost sharing

This approach requires a state to establish a cost-sharing formula to be applied the rate increase determined under this approach. The table below is an example of a formula where the rate increase is sliced into layers. The policyholder's share of the rate increase decreases with each layer.

Blended increase	Policyholder share of the increase
0-15%	100%
15-50%	90%
50-100%	75%
100-150%	65%
>150%	50%

For example, a blended increase of 70 percent would be sliced into three layers, consisting of 15 percent in the 0-15% layer, 35 percent in the 15-50% layer, and the remaining 20 percent in the 50-100% layer. The policyholder's share of a 70 percent blended increase would be $100\% \times 15\% + 90\% \times 35\% + 75\% \times 20\% = 15\% + 31.5\% + 15\% = 61.5\%$.

The example below illustrates the application of this method. It assumes that the minimum loss ratio applicable to the policy is 60 percent and that at the time of the rate increase filing, 40 percent of the original policyholders remain and are paying premium.

Experience Period	Without current increase			Premium at if knew level			Premium at make up level			With allowable rate increase			
	Earned Premium		Incurred	Earned	Incurred	Loss	Earned	Incurred	Loss	Earned	Incurred	Loss	
	Original	Actual	Claims	Premiums	Claims	Ratio	Premiums	Claims	Ratio	Premiums	Claims	Ratio	
Past	100	110	50	208	50	24%	110	50	45%	110	50	45%	
Future	60	78	150	125	150	120%	223	150	67%	137	150	109%	
Lifetime	160	188	200	333	200	60%	333	200	60%	247	200	81%	
Loss ratio at the original premium level				125%									
Minimum loss ratio applicable to the form				60%			Layer	PH share					
If-knew increase				108%			15%	100%					
Make-up increase				272%			35%	90%					
Remaining policyholders percentage				40%			50%	75%					
Blended increase				174%			50%	65%					
Cost-sharing increase				128%			24%	50%					
Past rate increase				30%			174%						
Maximum allowable rate increase				76%									

There are many possible refinements of the basic approach described above, such as:

- reducing the allowable increase if the original premiums were unreasonably low (i.e. lower than a benchmark premium calculated using assumptions that are deemed appropriate for the period in which the policy was priced and issued)
- basing the if-knew and make-up increases on a measure of profitability rather than on a target or minimum loss ratio standard

- calculating present values using actual and expected investment returns rather than statutory valuation rates
- specifying how margins for adverse experience and waiver of premium benefits should be treated in the loss ratio calculation
- specifying the level of granularity of the rate increase calculation (i.e. whether the rate increase should vary by benefit features, underwriting criteria, etc.)

NAIC Model Regulation

Section 20.1(C)(2) of the Model Regulation describes a 58/85 loss ratio standard, which recognizes the lesser of actual or expected past claims. The allowable rate increase computed according to the Model Regulation’s loss ratio standard applicable on the issue date of the policy, serves as a ceiling when using either of the above approaches.

Comparison of Approaches

Below are summaries of the results produced under each method for three actual rate filings received from three different carriers.

For each carrier, the earned premiums and incurred claims were multiplied by a random number to mask the carrier’s actual data. Note that all yearly figures are discounted with interest:

Carrier #1

Summary of rate filing	
Type	Pre Rate Stabilized (Individual)
Rate increase history	40% in 2010; 25% in 2015
Cumulative rate prior increase	$1.40 \times 1.25 - 1 = 75\%$

Accumulated and present values at 4.5% interest rate				
	Prior assumptions		Current assumptions	
	Earned premiums	Incurred claims	Earned premiums	Incurred claims
Past	29,881,320	30,254,745	29,312,302	30,254,745
Future	6,396,557	64,064,583	8,276,125	81,078,884
Lifetime	36,277,877	94,319,328	37,588,427	111,333,629

Summary of calculations	
Estimated % of active policyholders remaining	50%
Lifetime LR	296%
Maximum rate increase under 60/80 lifetime LR standard	1321%
Blended if-knew & makeup components:	
Makeup increase	3268%
“If knew” rate increase	498%
Blended with 50% active policyholders remaining:	1883%
With cost sharing	983%

Blended if-knew & makeup rate increase* (after backing out prior 69.6% cumulative rate increase)	519%
Prospective PV allowable rate increase	238%
* Rate increase assumes: (1) benchmark premium = original premium; and (2) 50% actives remaining.	

Carrier #2

Summary of rate filing	
Type	Rate stabilized (individual)
Rate increase history	None
Cumulative prior rate increase	0%

	Accumulated and present values at 4% interest rate			
	Prior assumptions		Current assumptions	
	Earned premiums	Incurred claims	Earned premiums	Incurred claims
Past	2,605,954	41,528	2,605,954	41,528
Future	4,537,414	3,795,819	4,382,489	5,514,785
Lifetime	7,143,367	3,837,347	6,988,442	5,556,313

Summary of calculations	
Estimated % of active policyholders remaining	71%
Lifetime LR	80%
Maximum rate increase under 58/85 lifetime LR standard	40%
Blended if-knew & makeup components:	
Makeup increase	59%
"If knew" rate increase	37%
Blended with 71% active policyholders remaining:	53%
With cost sharing	49%
Blended if-knew & makeup allowable rate increase^{1,2}	49%
Prospective PV allowable rate increase²	49%
¹ Rate increase assumes: (1) benchmark premium = original premium; and (2) 71% actives remaining.	
² The allowable rate increase would be limited to 40% based on the 58/85 lifetime loss ratio standard.	

Carrier #3

Summary of rate filing	
Type	Rate stabilized (individual)
Rate increase history	None
Cumulative prior rate increase	0%

	Accumulated and present values at 4.5% interest rate			
	Prior assumptions		Current assumptions	
	Earned premiums	Incurred claims*	Earned premiums	Incurred claims*
Past	1,272,279	221,055	1,272,279	221,055

Future	659,852	1,098,641	864,521	2,561,128
Lifetime	1,932,131	1,319,696	2,136,800	2,782,183

* Projected incurred claims include a 10% moderately adverse experience load.

Summary of calculations	
Estimated % of active policyholders remaining	77%
Lifetime LR	130%
Maximum rate increase under 58/85 lifetime LR standard	210%
Blended if-knew & makeup components:	
Makeup increase	308%
“If knew” rate increase	124%
Blended with 77% active policyholders remaining:	266%
With cost sharing	174%
Blended if-knew & makeup allowable rate increase*	174%
Prospective PV allowable rate increase	183%
* Rate increase assumes: (1) benchmark premium = original premium; and (2) 77% actives remaining.	

Other Considerations

Premium Rate Increase Caps

Some states, either by regulation or administrative practice, place caps on premium rate increases. In particular, New Hampshire adopted a rule that caps rate increases based on the insured’s attained age. In general, caps implemented by states have no actuarial basis, but instead are arbitrarily administered.

Although it is understandable that states may favor arbitrary caps in the interest of protecting policyholders from large rate increases, one concern is a potential solvency risk if actuarially justified rate increases are postponed along with the potential for substantial reductions in benefits due to state-specific guaranty fund limits. In addition, the need for future rate increases will be greater based on the degree to which requested rate increases are capped. Many states have worked with companies to successfully address large rate increases through the use of a pre-approved series of incremental increases, allowing rates to reach the appropriate level while fully informing the policyholders of the timing and amount of the full series of increases.

Delays in Filing and Delays in Approval of Rate Increases

Similar to arbitrary rate caps, delays in implementing actuarially justified rate increases due to either a carrier failing to file a needed rate increase, or delays in the regulatory approval of a needed rate increase, can pose a potential solvency risk. Several LTC insurance carriers have commented that delays in the implementation of needed rate increases lead to significantly higher rate increases later. For example, one carrier with a large block of LTC business estimated that each one-year delay of a needed rate increase adds a 5 to 10 percentage point increase to the needed rate increase.

Lifetime Loss Ratio Issue

Some regulators believe it is inappropriate to approve a rate increase that would lead to a lower projected lifetime loss ratio than in the prior rate increase filing. Where the prior filing was consistent with actuarially certified adequate premiums this would generally be an appropriate expectation unless sufficient justification is provided for an exception. Where the prior rate filing was not consistent with actuarially certified adequate premiums (e.g. most pre-rate stability business or filings limited by rate caps) or the company noted in its filing that if experience did not improve that additional rate increase filings are likely, the projected loss ratio from such a prior filing is not an appropriate limit.

Ian Patterson

Re: John Hancock Life Insurance Company (U.S.A)
2022 Inforce Rate Increase – JH CCII
SERFF ID: MULF-133663115

Dear Mr. Patterson,

This letter is in response to your objection dated August 10, 2023 regarding the above filing. Your questions/concerns are included below in bold with our responses following.

- 1) The rate increase history on the “Long Term Care Insurance Rate Request Summary – Part 1” does not match the history in section 7 of the actuarial memorandum. Please revise.**

The rate increase history provided in the actuarial memorandum was correct. We have revised the “Long Term Care Insurance Rate Request Summary – Part 1” file. The revised submission is attached. We apologize for any confusion.

- 2) Please provide the Active Life Reserve balance for each of the six segments of business displayed in “VA CCII Exhibits (split by BP and inflation).xlsx”.**

Please see the table below for the active life reserve balance as of yearend 2022 for each subset of business.

Custom Care II Active Life Reserves (YE 2022)

Product	Nationwide
Non-Lifetime, GPO Inflation	202,559,064
Lifetime, GPO Inflation	37,190,272
Non-Lifetime, Simple Inflation	644,166,045
Lifetime, Simple Inflation	91,024,566
Non-Lifetime, Compound Inflation	2,116,647,627
Lifetime, Compound Inflation	122,931,507
Total	3,214,519,081

- 3) Please provide the 14VAC5-200-153 G.2. demonstration for each of the six segments in Excel format with any source exhibits included.**

We have attached the file ‘VA CCII Exhibits (split by BP and inflation) Demonstration.xlsx’ to show the regulation test results by segment.

We would like to note that we always apply the “greater of” rule (original premium times the greater of 58% and the original pricing loss ratio and the rate increase premium times the greater of 85% and the

original pricing loss ratio) in demonstrating compliance with minimum loss ratio standards. However, please note that we don't believe meeting minimum loss ratio standards using the 58/85 or 60/80 regulation test was meant to apply at each inflation/benefit level. Separating the block at this level of granularity introduces credibility and consistency considerations, as

- a) some cohorts have a small number of policies, and
- b) policies can change cohorts based on benefit elections.

In addition, if rate increases are calculated and approved at this level, there would likely be rate anomalies across the cohorts. As a result, we do not ordinarily execute the test at this level, but rather use the aggregate calculation at the series level.

In order to understand the impact of the assumption change and ensuing rate increase on each of the cohorts, we have included a summary of the lifetime loss ratios for each of the cohorts for this filing vs the prior filing. As you can see, the loss ratios are generally consistent across the filings and no material subsidies have been introduced. There is very little business in cohorts where the loss ratios have dropped more than others. Please see the attached file "VA LLR Summary (split by BP and inflation).xlsx".

**2022 Filing Round

December 21, 2023

Bobby Toone

Re: John Hancock Life Insurance Company (U.S.A)
2022 Inforce Rate Increase – JH CCII
SERFF ID: MULF-133663115

Dear Mr. Toone,

This letter is in response to your objection dated December 14, 2023 regarding the above filing. Your questions/concerns are included below in bold with our responses following.

1. Clearly identify why this request is so much higher than previous.

The current average rate increase request for CCII is 31.8%, which is in line with our prior average request (also 31.8%). The current request includes the unapproved amounts from the prior filing as well as impacts from the 2022 study. A breakdown can be seen in the table below.

	CCII
2022 Assumption Update	23.0%
Prior Approval Timing	2.4%
Prior Unapproved Amounts & Timing	6.4%
Total	31.8%

Our prior rate increase filing (MULF-132322015) with a proposed average rate increase of 31.8% was capped by the bureau at 26.8% on February 18, 2021. At the time of the filing, we were asked to provide calculations based on the TX and MN methods under discussion at NAIC. The cap imposed by the department was from the information that we provided for the MN method based on our understanding of the MN method at the time. In particular, maximum statutory valuation rates were used in discounting. As we’ve continued to engage in discussions with others in the industry, it has become clear that investment returns are an important part of the MN methodology. Potential impacts (i.e., shortfalls) in investment returns is part of the cost that the company is sharing. For that reason, the prior MN method calculation upon which the approval was based was understated.

In addition, we completed an experience study in late 2022 which indicated that our claims experience had deteriorated since our prior study in 2019. As previously noted, the primary driver of the rate increase is due to morbidity, which accounts for 61% of the rate increase for CCII.

	CCII
Morbidity	61%
Mortality	36%
Lapse	3%
Total	100%

Incidence assumptions have changed favorably from the prior filing, whereas claim termination assumptions have emerged significantly unfavorably. Benefit utilization has emerged slightly unfavorably. Because of this pattern, we see the unusual outcome that updates to claim termination rates account for 97% of the increase due to morbidity with an additional 19% from utilization changes, offset in part by incidence. This is demonstrated in the table below.

Morbidity	CCII
Incidence	-55%
Terminations	97%
Utilization	19%
Total	61%

To provide further support for the impacts on the assumptions behind the rate increase, we have included A/E exhibits that show impacts by attained age. Please see the attached file "2022 A to E Exhibits.pdf" for additional detail. Our current assumptions are based on the combined experience for the CCI+ product series. We consider this is the most appropriate basis and experience to form the assumptions for our projections.

As shown in the Actuarial Memorandum and reproduced below, the primary driver of the termination change was due to early on claim experience (the first 5 months) based on the experience that has emerged.

Terminations (Count)						
Benefit Period	All Months		Months 1-5		Months 6+	
	A/E Before Assumption Update	A/E After Assumption Update	A/E Before Assumption Update	A/E After Assumption Update	A/E Before Assumption Update	A/E After Assumption Update
<10 years	97%	98%	95%	99%	98%	97%
10+ years	91%	96%	91%	102%	92%	93%
Total	96%	97%	94%	99%	97%	96%

2. The Bureau of Insurance has potential concerns about the requested rate increase:

1. Please respond or explain in detail why the requested increase is so large.

a. Given that the intent is to adjust rates so that additional requests will be unnecessary, barring significant changes in experience.

b. Given the advanced age of the Virginia insureds.

Please refer to our response above for question #1 summarizing the drivers of the rate increase.

2. Would the company be willing to spread the increase out over 2-3 years, without adjusting for the time value of money?

Our typical practice is to phase in the rate increase over 2-3 years on an actuarially equivalent basis with adjustments for the time value of money. We would be happy to discuss alternatives with you at your convenience.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Bobby Toone

Re: John Hancock Life Insurance Company (U.S.A)
2022 Inforce Rate Increase – JH CCII
SERFF ID: MULF-133663115

Dear Mr. Toone,

This letter is in response to your objection dated February 27, 2024 regarding the above filing. Your questions/concerns are included below in bold with our responses following.

- 1. After review of the Company's requested rate increase of 31.80%, this rate increase does not fully meet Virginia regulations 14VAC5-200-153. After review by the Commissioner, the following rate increase would bring the request into compliance.**

GPO: 31.40%
Simple: 32.00%
Compound: 23.30%

The Bureau would like the company to consider implementing the increase over 2-3 years without using the time value of money.

If this rate increase is acceptable to the company, please revise the actuarial memorandum and the necessary supporting documentation as well as the Rate/Rule Schedule - Company Rate Information and premium schedules. Once the updates are received, we will review for approval.

Thank you for the review and analysis of our filing. While we appreciate the conclusion, we continue to believe that the results should be determined at a less granular/ more aggregate level, consistent with past reviews. Please note that the approach the state has taken can create rate anomalies.

We will implement the phased in rate increase without applying actuarial equivalence, per the Bureau's request. The capped rate increases of 31.4% for GPO, 32% for Simple and 23.3% for Compound policies will be phased-in over a 2-year period, with 25% in the first year and the remainder in the second, as shown below:

CCII	Year 1	Year 2	Ultimate
GPO	25.0%	5.1%	31.4%
Simple	25.0%	5.6%	32.0%
Compound	23.3%	0.0%	23.3%

We continue to believe all rate increases filed are actuarially appropriate and justified, and in a future filing would continue to seek these amounts to restore the target Lifetime Loss Ratio on the business.

Due to the capped approval, we have redetermined inflation reduction landing spots and shared cost option percentages. The future inflation reduction landing spots are as follows:

Previously Elected Landing Spot	Current inflation	Proposed Landing Spot
None	5.0%	3.4%
2010	3.9%	2.4%
2016	3.2%	1.8%
2019	3.7%	2.2%
2010 and 2016	2.0%	0.8%
2010 and 2019	2.5%	1.2%
2016 and 2019	1.9%	0.7%

We have provided a revised filing package as well as rate tables reflecting the revised rate increases, landing spots and shared cost option percentages, for your review and approval. The following sections of the filing package have been updated:

- Section 3 – Requested Rate Increase
- Sections 4 & 5 – Nationwide and VA-Specific Loss Ratio Exhibits after the capped rate increase
- Section 8 – Proposed Landing Spots
- Section 9 – Premium after the capped rate increase
- Section 25 – Actuarial Certification
- Appendix A – Rate Increase Percentages
- Appendix D – Shared Cost Percentages

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

P.J. Beltrami, FSA, MAAA
