Maximum Requested Percentage Rate Change Per Member: 40%

Number of Policy Holders Affected: 2,526

Continental Casualty Co. (the Company) requested a 33.57% increase for all policy forms. As the forms were issued in Virginia from 1990 to 2003, the experience was reviewed based on the rules in effect at the time of issue, they were reviewed according to the requirements of 14VAC5-200-150.

The Bureau of Insurance's (the Bureau) consulting actuary reviewed the filing and indicated that the rate increase will result in lifetime loss ratios more than the original target for this block (60%). Therefore, the requested rate increase was approved.

This increase will impact approximately 2,526 policyholders. The primary reasons for the rate increase are that policyholders are living longer and keeping their policies in force longer, which has resulted in more claims being filed than the Company anticipated when the policy was originally priced. The Company determined that a premium increase is necessary to ensure that sufficient funds are available to pay future claims.

The Company has stated that they may need to file for additional in-force premium increases in the future.

The Company is offering options to all to reduce the premium increase by reducing their coverage. These reductions could be in the form of lower daily benefits, a shorter benefit period, a longer elimination period, the termination of riders or any combination of these reductions, or a paid-up policy equal to the sum of premiums paid. Specific options are included in the letter sent to all policyholders notifying them of the rate increase and may be discussed directly with the company by calling its customer service department.

The filing can be reviewed on the Bureau's webpage under the Rate/Policy Form Search at: <https://scc.virginia.gov/boi/SERFFInquiry/LtcFilings.aspx>
