Health Insurance Rate Request Summary
Summary of Key Information

Rates are being raised on all policies issued under this policy form to offset anticipated claims that are higher than originally expected. This is due in part to individuals living longer and keeping their policies longer, which has resulted in more claims being filed than anticipated when this policy was originally priced. As a result, premiums need to be adjusted to ensure there is adequate funding to pay current and anticipated future claims. This premium increase is designed to offset some of these anticipated increased costs and in no way reflects on the integrity of an individual's policy, nor is it based on an individual's claim history, current age, health status, or any other personal factors.
