Judith Williams Jagdmann and Jehmal T. Hudson
Commissioners, State Corporation Commission (SCC)
1300 East Main Street
Richmond, Virginia 23219

PUR-2021-00142

Dear SCC Commissioners Jagdmann and Hudson:

I write to you today in support of the State Corporation Commission's (SCC) recent approval of Dominion Energy's offshore wind project. As you know, the SCC's approval order included the stipulation of an explicit performance guarantee — a critical consumer protection measure that would ensure that Virginia ratepayers are held harmless in the event the project does not meet the capacity factor performance projected by Dominion.

Following SCC's approval of Dominion's offshore wind project, Dominion filed a petition for reconsideration of the performance guarantee with the SCC. Given that the offshore wind project is the single largest energy investment in our Commonwealth's history, as well as the first such project owned by an investor-owned utility, I believe the measure is necessary to protect customers already paying some of the highest electricity bills in the country.

I urge the SCC to reject Dominion's petition for reconsideration of the performance guarantee and move forward with the previous approval as ordered including the performance guarantee.

Yours in service,

L. Kaye Kory
Member, Virginia House of Delegates
