STATE CORPORATION COMMISSION

CASE NO. PUR-2023-00066

In re: Virginia Electric and Power Company's  
Integrated Resource Plan filing pursuant to  
Va. Code § 56-597 *et seq.*

ORDER FOR NOTICE AND HEARING

On May 1, 2023, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") the Company's 2023 Integrated Resource Plan ("IRP") pursuant to § 56-599 of the Code of Virginia ("Code").

An IRP, as defined by § 56-597 of the Code, is "a document developed by an electric utility that provides a forecast of its load obligations and a plan to meet those obligations by supply side and demand side resources over the ensuing 15 years to promote reasonable prices, reliable service, energy independence, and environmental responsibility." Pursuant to § 56-599 D of the Code, the Commission determines whether an IRP is reasonable and in the public interest.

Dominion states that it serves approximately 2.7 million electric customers in Virginia and North Carolina and that the Company's combined service territory in these two states covers approximately 30,000 square miles.<sup>1</sup> As indicated in its IRP, Dominion is a member of PJM Interconnection, L.L.C. ("PJM"), a regional transmission organization in the Mid-Atlantic region

of the United States.<sup>2</sup> The Company states that the IRP was prepared for its service territories in Virginia and North Carolina, which are both within the PJM region.<sup>3</sup>

According to the Company, the IRP encompasses the 15-year planning period from 2024 to 2038, using 2023 as the base year, and is meant for use as a long-term planning document based on a "snapshot in time" of current technologies, market information, and projections.<sup>4</sup>

Dominion states in its filing that the Company's IRP addresses the 2023 PJM Load Forecast, which includes a significant increase in the expected peak and energy demand in the Dominion Energy Zone over the planning period, with annual peak and energy load growth of nearly 5% and 7% respectively over the next decade. According to Dominion, the increase is driven primarily by data centers and, to a lesser extent, electrification in both the Company's service territory and in other service areas within the Dominion Energy Zone.<sup>5</sup>

Dominion states that its IRP presents five alternative plans ("Alternative Plans") to meet customers' needs in the future under different scenarios, which were designed using constraint-based least-cost planning techniques and proven technologies.<sup>6</sup> The Company states that all Alternative Plans utilize the load forecast prepared by PJM; assume a capacity factor for solar resources based on the lower of the design capacity factor or the three-year average of the Company's existing solar facilities in Virginia; and assumes that Virginia exits the Regional

Greenhouse Gas Initiative ("RGGI") before January 1, 2024.<sup>7</sup> The Company also presents sensitivities on all Alternative Plans that show the higher cost to customers if Virginia remains in the RGGI.<sup>8</sup>

Coincident with filing the IRP, Dominion filed a motion for entry of a protective order ("Motion for Protective Order") seeking to maintain the confidentiality of certain information filed under seal in accordance with 5 VAC 5-20-170 of the Commission's Rules of Practice and Procedure ("Rules of Practice"), 5 VAC 5-20-10 *et seq.*

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that the Company should provide public notice of its IRP; a public hearing should be scheduled for the purpose of receiving testimony and evidence on the Company's IRP; a procedural schedule should be established to allow interested persons an opportunity to file written or electronic comments on the Company's IRP or to participate in this proceeding as a respondent; and the Commission's Staff ("Staff") should be directed to investigate the IRP and file testimony and exhibits containing its findings and recommendations.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

- (1) This matter is docketed and assigned Case No. PUR-2023-00066.

NOTICE TO THE PUBLIC OF A  
FILING BY VIRGINIA ELECTRIC AND POWER COMPANY  
OF ITS INTEGRATED RESOURCE PLAN  
CASE NO. PUR-2023-00066

On May 1, 2023, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") the Company's 2023 Integrated Resource Plan ("IRP") pursuant to § 56-599 of the Code of Virginia ("Code").

An IRP, as defined by § 56-597 of the Code, is "a document developed by an electric utility that provides a forecast of its load obligations and a plan to meet those obligations by supply side and demand side resources over the ensuing 15 years to promote reasonable prices, reliable service, energy independence, and environmental responsibility." Pursuant to § 56-599 D of the Code, the Commission determines whether an IRP is reasonable and in the public interest.

Dominion states that it serves approximately 2.7 million electric customers in Virginia and North Carolina and that the Company's combined service territory in these two states covers approximately 30,000 square miles. As indicated in its IRP, Dominion is a member of PJM Interconnection, L.L.C. ("PJM"), a regional transmission organization in the Mid-Atlantic region of the United States. The Company states that the IRP was prepared for its service territories in Virginia and North Carolina, which are both within the PJM region.

According to the Company, the IRP encompasses the 15-year planning period from 2024 to 2038, using 2023 as the base year, and is meant for use as a long-term planning document based on a "snapshot in time" of current technologies, market information, and projections.

Dominion states in its filing that the Company's IRP addresses the 2023 PJM Load Forecast, which includes a significant increase in the expected peak and energy demand in the Dominion Energy Zone over the planning period, with annual peak

and energy load growth of nearly 5% and 7% respectively over the next decade. According to Dominion, the increase is driven primarily by data centers and, to a lesser extent, electrification in both the Company's service territory and in other service areas within the Dominion Energy Zone.

Dominion states that its IRP presents five alternative plans ("Alternative Plans") to meet customers' needs in the future under different scenarios, which were designed using constraint-based least-cost planning techniques and proven technologies. The Company states that all Alternative Plans utilize the load forecast prepared by PJM; assume a capacity factor for solar resources based on the lower of the design capacity factor or the three-year average of the Company's existing solar facilities in Virginia; and assumes that Virginia exits the Regional Greenhouse Gas Initiative ("RGGI") before January 1, 2024. The Company also presents sensitivities on all Alternative Plans that show the higher cost to customers if Virginia remains in the RGGI.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled public hearings on Dominion's IRP. On September 18, 2023, at 10 a.m., the assigned Hearing Examiner will hold a telephonic hearing, with no witness present in the Commission's courtroom, for the purpose of receiving the testimony of public witnesses. On or before September 12, 2023, any person desiring to offer testimony as a public witness shall provide to the Commission (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at [scc.virginia.gov/pages/Webcasting](https://scc.virginia.gov/pages/Webcasting); (ii) by completing and emailing the PDF version of this form to [SCCInfo@scc.virginia.gov](mailto:SCCInfo@scc.virginia.gov); or (iii) by calling (804) 371-9141. This public witness hearing will be webcast at [scc.virginia.gov/pages/Webcasting](https://scc.virginia.gov/pages/Webcasting).

Beginning at 10 a.m. on September 18, 2023, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.

On September 19, 2023, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, a hearing will be convened to receive testimony and evidence from the Company, any respondents, and the Commission's Staff.

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

An electronic copy of the Company's IRP may be obtained, at no charge, by requesting it in writing from Nicole M. Allaband, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or [nallaband@mcguirewoods.com](mailto:nallaband@mcguirewoods.com).
