COMMONWEALTH OF VIRGINIA
STATE CORPORATION COMMISSION
AT RICHMOND, SEPTEMBER 15, 2021

ORDER FOR NOTICE AND HEARING

On August 13, 2021, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") for approval of a rate adjustment clause ("RAC"), designated Rider GT, pursuant to § 56-585.1 A 6 ("Subsection A 6") of the Code of Virginia ("Code") and the Commission's Rules Governing Utility Rate Case Applications and Annual Informational Filings of Investor-Owned Electric Utilities, 20 VAC 5-204-5 et seq. ("Rate Case Rules"). Through its Petition, the Company seeks to recover projected and actual costs related to electric distribution grid transformation projects that the Commission has approved as part of the Company's plan to transform its electric distribution grid ("GT Plan"). The Company states that Subsection A 6 requires it to petition for approval of a plan for electric distribution grid transformation projects, and also permits the Company to recover the costs of one or more electric distribution grid transformation projects through a RAC.

1 On August 26, 2021, pursuant to 5 VAC 5-20-160 of the Commission's Rules of Practice and Procedure ("Rules of Practice"), 5 VAC 5-20-10 et seq., the Commission's Staff ("Staff") filed a Memorandum of Completeness/Incompleteness stating that, upon the Commission's grant of the Company's requested waiver of certain requirements of the Rate Case Rules, the Petition will be deemed complete.

In Case Nos. PUR-2018-00100\textsuperscript{4} and PUR-2019-00154,\textsuperscript{5} the Commission approved Dominion's investments related to eleven projects in years 2019, 2020, and 2021 ("Phase I of the GT Plan").\textsuperscript{6} The Company now seeks cost recovery for these projects through a new RAC designated Rider GT.\textsuperscript{7} The projects include: (1) mainfeeder hardening, (2) targeted corridor improvement, (3) voltage island mitigation, (4) hosting capacity analysis, (5) the Locks Campus Microgrid, (6) physical security, (7) the Smart Charging Infrastructure Pilot Program, (8) telecommunications, (9) cyber security, and (10) customer education.\textsuperscript{8} The Company states that the Commission also approved the new customer information platform as part of Phase I of the GT Plan, and recovery of those costs is currently under review in the Company's triennial review proceeding, Case No. PUR-2021-00058.\textsuperscript{9}

The Company represents that the Commission approved Phase I of the GT Plan projects up to the maximum amount of investment previously deemed reasonable and prudent by the Commission ("cost caps").\textsuperscript{10} The Company further represents that, should costs exceed such cost caps, those costs would be incurred at the Company's risk; it would be the Company's burden to

demonstrate reasonableness and prudence for any such incremental investment.\textsuperscript{11} Dominion reports that eight of the ten projects are progressing in line with the overall budgetary plan within the cost caps.\textsuperscript{12} Two of the ten projects, Locks Campus Microgrid and physical security, have projected costs that exceed the cost caps; the Company asserts that these two projects are still reasonable and necessary to pursue, and the incremental costs of these projects should be approved by the Commission as reasonable and prudent.\textsuperscript{13}

The Company's RAC revenue requirement includes the Projected Cost Recovery Factor.\textsuperscript{14} The total revenue requirement requested for recovery in this Petition for the Rate Year beginning June 1, 2022, is $55,527,000.\textsuperscript{15} The Company states that the implementation of the proposed Rider GT on June 1, 2022, will increase a residential customer's monthly bill, based on 1,000 kilowatt hours of electricity usage per month, by $1.17.\textsuperscript{16}

\item \textsuperscript{14} \textit{Id.} The Company states that the Projected Cost Recovery Factor results in the operating income necessary for recovery of projected financing costs based on the expected investment balances at the beginning of the Rate Year, as well as recovery of operations and maintenance costs and plant depreciation expense, in addition to the amortization of deferred costs including financing costs incurred prior to this initial Rate Year. \textit{Id.} The Company states that, beginning with the next RAC filing expected to be made in 2022, the revenue requirement will also include the Actual Cost True-Up Factor. \textit{Id.}

Dominion requests a waiver, in part, of the requirements under Rate Case Rules 60 and 90 with respect to paper copies of certain Filing Schedule 46 materials.\textsuperscript{17} The Company states that the Rate Case Rules require the Company to provide key documents supporting the projected and actual costs of the projects, such as support used by senior management for major cost decisions as determined by the applicant, contracts, results from requests for proposals, and cost-benefit analyses.\textsuperscript{18} According to Dominion, the supporting documentation responsive to this requirement is voluminous and not easily viewed in hard copy format, and therefore the Company proposes to provide the documentation in electronic format only.\textsuperscript{19} The Company states that this request for waiver is consistent with recent Commission orders granting similar limited waivers.\textsuperscript{20}

The Company also requests that the Commission waive, in part, the requirements under Rate Case Rules 60 and 90 with respect to paper copies supporting calculations for the estimated annual revenue requirement required as part of Filing Schedule 46.\textsuperscript{21} The Company states that the Rate Case Rules require the Company to provide the estimated annual revenue requirement

\textsuperscript{17} Id. at 8. On April 27, 2021, in advance of the filing of the Petition, Dominion filed its Motion for Limited Waiver of Rate Case Rules, wherein the Company sought a limited waiver of Rate Case Rules 20 VAC 5-204-60 ("Rate Case Rule 60") and 20 VAC 5-204-90 ("Rate Case Rule 90") because the Commission has already deemed the underlying investments to be recovered through Rider GT as reasonable and prudent up to the cost caps. Id. at 6. On May 6, 2021, in its Order Granting Waiver, the Commission granted the Company's request for partial waiver of the requirement in Rate Case Rules 60 and 90, that the Company include the information in Filing Schedule 46(b)(1)(iii) through (v) with its Petition, and directed the Company to file information responsive to Filing Schedule 46(c)(1)(iii) with its Petition. In the Petition filed August 13, 2021, the Company states that it "complies with Filing Schedules 46(b)(1)(iii) through (v)" for the two projects for which projected costs exceed the cost caps. over the duration of the proposed project by year and by project, including all supporting calculations and assumptions.\textsuperscript{22} The Company states that the calculations supporting the estimated annual revenue requirement calculation involve workpapers that are not easily converted to a printable version and are not easily reviewed in hard copy format.\textsuperscript{23} Accordingly, the Company proposes to provide this documentation in electronic format only.\textsuperscript{24} The Company states that this request for waiver is also consistent with recent Commission orders granting similar limited waivers.\textsuperscript{25}

Finally, in conjunction with the filing of its Petition, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Order and Additional Protective Treatment ("Motion for Protective Order") and a proposed protective order that establishes procedures governing the use of confidential information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; the Company should provide public notice of its Petition; public hearings should be scheduled for the purpose of receiving testimony and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or to participate in this proceeding as a respondent; and the Staff should be directed to investigate the Petition and to file testimony and exhibits containing its findings and recommendations thereon.

We find that a Hearing Examiner should be assigned to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for

Protective Order and filing a final report containing the Hearing Examiner's findings and recommendations.

Further, for purposes of making the Petition complete and commencing this proceeding, we grant Dominion's requests to waive in part the requirements under Rate Case Rules 60 and 90 with respect to the filing of certain Schedule 46 materials.

The Commission takes judicial notice of the ongoing public health issues related to the spread of the coronavirus, or COVID-19. The Commission has taken certain actions, and may take additional actions going forward, which could impact the procedures in this proceeding. Consistent with these actions, in regard to the terms of the procedural framework established below, the Commission will, among other things, direct the electronic filing of testimony and pleadings, unless they contain confidential information, and require electronic service on parties to this proceeding.

We note that the proposed Rider GT, if approved, would result in an increase to customer bills. We realize that the ongoing COVID-19 public health issues have caused devastating economic effects that impact utility customers. We have responded to this economic emergency by, among other actions, directing Virginia utilities to offer extended payment plans, without late fees for those who are current on such plans, to protect customers from service disconnection.

---

We are sensitive to the effects of rate increases, especially in times such as these. The Commission, however, must and will follow the laws applicable to this case, as well as the findings of fact supported by evidence in the record.

Accordingly, IT IS ORDERED THAT:

(2) Pursuant to 5 VAC 5-20-140, Filing and service, of the Commission's Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. On August 13, 2021, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") for approval of a rate adjustment clause ("RAC"), designated Rider GT, pursuant to § 56-585.1 A 6 ("Subsection A 6") of the Code of Virginia and the Commission's Rules Governing Utility Rate Case Applications and Annual Informational Filings of Investor-Owned Electric Utilities, 20 VAC 5-204-5 et seq. Through its Petition, the Company seeks to recover projected and actual costs related to electric distribution grid transformation projects that the Commission has approved as part of the Company's plan to transform its electric distribution grid ("GT Plan"). The Company states that Subsection A 6 requires it to petition for approval of a plan for electric distribution grid transformation projects, and also permits the Company to recover the costs of one or more electric distribution grid transformation projects through a RAC.

In Case Nos. PUR-2018-00100 and PUR-2019-00154, the Commission approved Dominion's investments related to eleven projects in years 2019, 2020, and 2021 ("Phase I of the GT Plan"). The Company now seeks cost recovery for these projects through a new RAC designated Rider GT. The projects include: (1) mainfeeder hardening, (2) targeted corridor improvement, (3) voltage island mitigation, (4) hosting capacity analysis, (5) the Locks Campus Microgrid, (6) physical security, (7) the Smart Charging Infrastructure Pilot Program, (8) telecommunications, (9) cyber security, and (10) customer education. The Company states that the Commission also approved the new customer information platform as part of Phase I of the GT Plan, and recovery of those costs is currently under review in the Company's triennial review proceeding, Case No. PUR-2021-00058.

The Company represents that the Commission approved Phase I of the GT Plan projects up to the maximum amount of investment previously deemed reasonable and prudent by the Commission ("cost caps"). The Company further represents that, should costs exceed such cost caps, those costs would be incurred at the Company's risk; it would be the Company's burden to demonstrate reasonableness and prudence for any such incremental investment. Dominion reports that eight of the ten projects are progressing in line with the overall budgetary plan within the cost caps. Two of the ten projects, Locks Campus Microgrid and physical security, have projected costs that exceed the cost caps; the Company asserts that these two projects are still reasonable and necessary to pursue, and the incremental costs of these projects should be approved by the Commission as reasonable and prudent.
The Company's RAC revenue requirement includes the Projected Cost Recovery Factor. The total revenue requirement requested for recovery in this Petition for the Rate Year beginning June 1, 2022, is $55,527,000. The Company states that the implementation of the proposed Rider GT on June 1, 2022, will increase a residential customer's monthly bill, based on 1,000 kilowatt hours of electricity usage per month, by $1.17.

Interested persons are encouraged to review Dominion's Petition and supporting documents in full for details about these and other proposals.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Petition and supporting documents and thus may adopt rates that differ from those appearing in the Company's Petition and supporting documents.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled public hearings on Dominion's Petition. On March 22, 2022, at 10 a.m., a Hearing Examiner appointed by the Commission will hold a telephonic hearing for the purpose of receiving the testimony of public witnesses, with no public witness present in the Commission's courtroom. On or before March 16, 2022, any person desiring to offer testimony as a public witness shall provide to the Commission (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCLinfo@scc.virginia.gov; or (iii) by calling (804) 371-9141. This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

On March 23, 2022, at 10 a.m., either in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, or by electronic means, a Hearing Examiner appointed by the Commission will convene a hearing to receive testimony and evidence offered by the Company, any respondents, and the Commission's Staff on the Company's Petition. Further details on this hearing will be provided by subsequent Commission Order or Hearing Examiner's Ruling.
