OLD DOMINION ELECTRIC COOPERATIVE

CASE NO. PUR-2020-00227

For approval and certification of electric facilities:  
Wallops-Chincoteague Line Nos. 6745 and 6746  
69 kV Transmission Line Rebuild

ORDER FOR NOTICE AND HEARING

On October 30, 2020, Old Dominion Electric Cooperative ("ODEC" or "Cooperative") filed with the State Corporation Commission ("Commission") an application for approval and certificates of public convenience and necessity ("CPCN") for electric facilities: Wallops-Chincoteague Line Nos. 6745 and 6746 69 kV Transmission Line Rebuild ("Application"). ODEC filed the Application pursuant to § 56-46.1 of the Code of Virginia ("Code") and the Utility Facilities Act, Code § 56-265.1 *et seq.*

Specifically, the Cooperative proposes to (i) remove an approximately 0.5-mile segment of its existing overhead Wallops-Chincoteague Lines 6745 and 6746 just east of Wallops Flight Facility ("WFF") Runway 35 ("Existing Facilities"); and (ii) relocate and replace the lines underground in a new duct bank within existing and new right-of-way in Accomack County, Virginia ("Relocated Facilities") (collectively, "Rebuild Project").

The Cooperative states that the Rebuild Project is needed as the Existing Facilities' structures are nearing their end of life and need to be replaced.<sup>1</sup> ODEC states that the Rebuild Project is necessary to continue providing reliable electric transmission service consistent with the Cooperative's obligation to provide generation and transmission service to its Members who

in turn provide retail electric distribution service to their member-customers.<sup>2</sup> ODEC further states that while Lines 6745 and 6746 generally follow a direct-line path along Virginia State Route 175 ("Rt. 175") in the area of the Rebuild Project, the Existing Facilities veer away from the road into marshland to avoid proximity to the flight path of WFF Runway 35.<sup>3</sup> ODEC states that it cannot replace these structures in their current right-of-way due to conflicting requirements for the height of the structures. The Cooperative states that the Relocated Facilities will be placed underground and will follow a shorter, direct-line path along Rt. 175. ODEC represents that it will acquire two new 100-foot width right-of-way easements in properties paralleling Rt. 175.<sup>4</sup>

The Cooperative states that the desired in-service date for the Rebuild Project is May 31, 2023.<sup>5</sup> The Cooperative represents that the estimated cost of the Rebuild Project is approximately \$3.8 million.<sup>6</sup>

As provided by Code § 62.1-44.15:21 D 2, the Commission and the State Water Control Board ("Board") must consult on wetland impacts prior to the siting of electric utility facilities that require a CPCN. Acting on behalf of the Board, the Department of Environmental Quality ("DEQ") must prepare a Wetland Impacts Consultation on this Application, as required by the Code and Sections 2 and 3 of the Department of Environmental Quality - State Corporation

Commission Memorandum of Agreement Regarding Consultation on Wetland Impacts.<sup>7</sup> The Staff of the Commission ("Staff") has requested the Office of Wetlands & Stream Protection at the DEQ to provide a Wetland Impacts Consultation for the Rebuild Project.<sup>8</sup>

As provided by Code §§ 10.1-1186.2:1 B and 56-46.1 A, the Commission and the DEQ must coordinate reviews of the environmental impact of electric generating plants and associated facilities. Pursuant to the Code and consistent with the Department of Environmental Quality - State Corporation Commission Memorandum of Agreement Regarding Coordination of Reviews of the Environmental Impacts of Proposed Electric Generating Plants and Associated Facilities (August 2002),<sup>9</sup> the Commission receives and considers reports on the proposed facilities from state environmental agencies. The Staff has requested the DEQ to coordinate an environmental review of this Application by the appropriate agencies and to provide a report on the review.<sup>10</sup>

NOW THE COMMISSION, upon consideration of the Application and applicable statutes, finds that: this matter should be docketed; ODEC should give notice of its Application to interested persons and the public; public hearings should be scheduled for the purpose of receiving testimony and evidence on the Application as well as public witness testimony; interested persons should have an opportunity to file comments on the Application or participate

Specifically, the Cooperative proposes to (i) remove an approximately 0.5-mile segment of its existing overhead Wallops-Chincoteague Lines 6745 and 6746 just east of Wallops Flight Facility ("WFF") Runway 35 ("Existing Facilities"); and (ii) relocate and replace the lines underground in a new duct bank within existing and new right-of-way in Accomack County, Virginia ("Relocated Facilities") (collectively, "Rebuild Project").

The Cooperative states that the Rebuild Project is needed as the Existing Facilities' structures are nearing their end of life and need to be replaced. ODEC states that the Rebuild Project is necessary to continue providing reliable electric transmission service consistent with the Cooperative's obligation to provide generation and transmission service to its Members who in turn provide retail electric distribution service to their member-customers.
