Dominion proposed to construct: (i) a new 230 kilovolt ("kV") switching station on land owned by a new data center customer ("Evergreen Mills Switching Station"); (ii) a new approximately 0.6-mile 230 kV double-circuit loop of the Company's existing 230 kV Brambleton – Yardley Ridge Line #2172 on new right-of-way ("ROW"), supported by seven structures, from a tap point along those lines ("Evergreen Mills Junction") to Evergreen Mills Switching Station ("Line #2172 Loop"); and (iii) a new approximately 0.6-mile 230 kV double-circuit loop of the Company's existing 230 kV Brambleton – Poland Road Line #2183 on new ROW, supported by nine structures, from Evergreen Mills Junction to Evergreen Mills Switching Station ("Line #2183 Loop") (collectively, the "Project").

On December 17, 2019, the Commission entered an Order for Notice and Hearing, which among other things: docketed the Company's Application; established a procedural schedule; scheduled a public hearing for April 14, 2020; required the Company to provide notice of its Application to all owners of property within the route of the proposed transmission lines and to certain local government officials; allowed interested persons an opportunity to file written comments on the Application; allowed any person or entity to participate as a respondent by filing a notice of participation; directed Staff to investigate the Application; and assigned the case to a Hearing Examiner to conduct all further proceedings in this matter on behalf of the Commission and file a final report.

NOTICE TO THE PUBLIC OF AN APPLICATION BY  
VIRGINIA ELECTRIC AND POWER COMPANY  
FOR APPROVAL AND CERTIFICATION OF ELECTRIC  
FACILITIES: EVERGREEN MILLS 230 KV LINE LOOPS  
AND EVERGREEN MILLS SWITCHING STATION  
CASE NO. PUR-2019-00191

On December 2, 2019, Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") an application for approval and for a certificate of public convenience and necessity to construct and operate electric transmission facilities in Loudoun County, Virginia

("Application"). Dominion filed the Application pursuant to § 56-46.1 of the Code of Virginia ("Code") and the Utility Facilities Act, Code § 56-265.1 *et seq.*

Dominion proposes to construct: (i) a new 230 kilovolt ("kV") switching station on land owned by the Customer ("Evergreen Mills Switching Station"); (ii) a new approximately 0.6-mile 230 kV double circuit loop of the Company's existing 230 kV Brambleton-Yardley Ridge Line #2172 on new right-of-way ("ROW"), supported by seven structures, from a tap point along those lines (the "Evergreen Mills Junction") to Evergreen Mills Switching Station (the "#2172 Loop"); and (iii) a new approximately 0.6-mile 230 kV double circuit loop of the Company's existing 230 kV Brambleton-Poland Road Line #2183 on new ROW, supported by nine structures, from Evergreen Mills Junction to Evergreen Mills Switching Station (the "#2183 Loop") (collectively, the "Project").

The Company proposes to construct the proposed Project in two parts. The Company proposes to first acquire the 160-foot ROW for the full Project, construct the Evergreen Mills Switching Station, and to construct the #2172 Loop ("Part A"). The second part of the proposed Project will consist of the construction of the #2183 Loop and the installation of the remaining breakers at the Evergreen Mills Switching Station ("Part B").

Dominion states that the proposed Project is to serve the load growth of "Data Center Alley" in Loudoun County; maintain reliable service for the overall growth in the Project area; and to comply with mandatory North American Electric Reliability Corporation Reliability Standards.

The Company states that the expected in-service date for the proposed Project is May 1, 2021, for Part A, and in 2025 for Part B. The Company states that the estimated cost of Part A is approximately \$21.2 million, including approximately \$11.4 million for transmission-related work and approximately \$9.8 million for substation-related work. The Company states that the estimated cost of Part B is approximately \$9.1 million, which includes \$4.1 million for transmission-related work and \$5.0 million for substation-related work.

### **Description of the Proposed Project**

The Proposed Route would originate from the existing Brambleton-Yardley Ridge Line #2172 / Brambleton-Poland Road Line #2183 double circuit system at a tap point approximately 0.1

mile west of the Yardley Ridge Switching Station, which is located near Loudoun County Parkway and Evergreen Mills Road. The new 230 kV double circuit transmission lines would extend approximately 0.6 mile to the proposed Evergreen Mills Switching Station, with the circuits being constructed in two parts as further described in the Appendix to the Application. From the tap point, the Proposed Route would extend for approximately 0.3 mile southwest to Evergreen Mills Road within a forested stream valley associated with an unnamed intermittent tributary to Broad Run. The alignment in this section is constrained by planned commercial development to the east and an existing sanitary easement to the west that parallels the stream. Angling to the south, the Proposed Route would span Evergreen Mills Road and extend for approximately 0.3 mile to the proposed Evergreen Mills Switching Station. This segment would span two unnamed intermittent tributaries to Broad Run and a storm water management basin, then extend into the proposed station adjacent to the Customer's data center facility within Arcola Center. The minimum, maximum, and average proposed structure heights are 35', 130', and 100', respectively.

All distances, heights, and directions are approximate. A sketch map of the proposal accompanies this notice. A more detailed map may be viewed on the Commission's website: <https://www.scc.virginia.gov/pur/elec/transline.aspx>.

The Commission may consider a route not significantly different from the routes described in this notice without additional notice to the public.

A more complete description of the Project may be found in the Company's Application.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled a public hearing in Richmond, Virginia, on April 14, 2020, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive testimony from members of the public and evidence related to the Application from the Company, any respondents, and the Commission's Staff. Any person desiring to testify as a public witness at this hearing should appear fifteen (15) minutes prior to the starting time of the hearing and contact the Commission's Bailiff.
