APPLICATION OF

WASHINGTON GAS LIGHT COMPANY

CASE NO. PUR-2024-00146

For approval of the SAVE Rider
for calendar year 2025

ORDER FOR NOTICE AND COMMENT

On September 26, 2024, and in accordance with 5 VAC 5-20-80 of the State Corporation Commission's ("Commission") Rules of Practice and Procedure, Washington Gas Light Company ("WGL" or "Company") completed the filing of an application ("Revised Application") pursuant to § 56-603 *et seq.* of the Code of Virginia ("Code"), known as the Steps to Advance Virginia's Energy (SAVE) Plan Act, for approval of its SAVE Plan Rider for calendar year 2025 ("2025 SAVE Rider").¹ Pursuant to Code § 56-604 E, the Commission shall approve or deny, within 90 days, a natural gas utility's proposed SAVE rider adjustment.

According to WGL, the 2025 SAVE Rider consists of two factors computed for each customer class: (i) the Current Factor, which is based on expected program expenditures for calendar year 2025, and (ii) a Reconciliation Factor for the twelve-month period ended April 30, 2024, computed in accordance with § 56-604 E of the SAVE Act.² The Application states that the Company projects SAVE Plan expenditures of approximately \$108 million for calendar year 2025 for approved eligible infrastructure replacement programs.³ The Company further

represents that the proposed SAVE Plan investment for 2025 does not exceed 125% of the investment amount approved for calendar year 2025 in Case No. PUR-2021-00283.⁴

WGL proposes that the 2025 SAVE Rider rates become effective with the first day of the billing cycle in January 2025.⁵ WGL requests a Current Factor revenue requirement for approved calendar year 2025 eligible infrastructure replacement programs of \$30,208,973⁶ as well as a Reconciliation Factor revenue requirement credit of \$684,656,⁷ for a total 2025 SAVE Factor revenue requirement of \$29,524,317.⁸

As proposed by the Company, the 2025 SAVE Rider charge for a typical residential customer using 714 therms of gas annually is estimated at \$3.24 per month (\$0.0540 per therm for the Total Proposed SAVE Factor for January - December 2025), an increase of \$0.07 per month over the current 2024 SAVE Rider.⁹ This is based on a Current Factor charge of \$ 0.0554 per therm and a Reconciliation Factor of (\$ 0.0014) per therm, for a total combined SAVE Rider

⁶ Direct Testimony of R. Andrew Lawson at Appendix A, revised Schedule 46a. According to WGL, this amount translates to the Current Factors for the 2025 SAVE Rider that are shown in Table 1 on Page 12 of the Revised Application. The Company states that the 2025 SAVE Rider reflects the roll-in of SAVE plant costs incurred on and after December 1, 2022, in accordance with Commission approval in WGL's most recent base rate case, Case No. PUR-2022-00054 (the effective date of interim rates in that proceeding was November 26, 2022). rate of \$ 0.0540 per therm.¹⁰ WGL further states that the 2025 SAVE Rider for commercial customers will vary with individual customer load and usage.¹¹

Finally, as previously directed by the Commission,¹² the Company states it has evaluated its reconciliation methodology for computing the Reconciliation Factor. As explained by the Company, its Reconciliation Factor component compares "the actual SAVE Plan costs incurred with costs recovered through the SAVE Rider" over, in this case, the period from May 1, 2023 to April 30, 2024. The Reconciliation Factor for each customer class is either added to, or subtracted from, the Current Factor depending on whether there is an under or over collection of SAVE Plan costs for the SAVE Plan period.¹³ The Company has proposed an alternative methodology for the Commission's consideration.¹⁴ WGL, however, does not recommend the alternative reconciliation methodology, if approved by the Commission, be employed to compute the Reconciliation Factor for the 2025 SAVE Rider.¹⁵

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; that the Company should provide public notice of its Application; that any interested persons should be afforded an opportunity to file comments or request a hearing on the Company's Application; and that Commission Staff ("Staff") should investigate the Application and file a report ("Staff Report") containing Staff's findings and

which is based on expected program expenditures for calendar year 2025, and (ii) a Reconciliation Factor for the twelve-month period ended April 30, 2024, computed in accordance with §56-604 E of the SAVE Act. The Application states that the Company projects SAVE Plan expenditures of approximately \$108 million for calendar year 2025 for approved eligible infrastructure replacement programs. The Company further represents that the proposed SAVE Plan investment for 2025 does not exceed 125% of the investment amount approved for calendar year 2025 in Case No. PUR-2021-00283.

WGL proposes that the 2025 SAVE Rider rates become effective with the first day of the billing cycle in January 2025. WGL requests a Current Factor revenue requirement for approved calendar year 2025 eligible infrastructure replacement programs of \$30,208,973 as well as a Reconciliation Factor revenue requirement credit of \$684,656; for a total 2025 SAVE Factor revenue requirement of \$29,524,317.

The Reconciliation Factor for each customer class is either added to, or subtracted from, the Current Factor depending on whether there is an under or over collection of SAVE Plan costs for the SAVE Plan period. The Company has proposed an alternative methodology for the Commission's consideration. WGL, however, does not recommend the alternative reconciliation methodology, if approved by the Commission, be employed to compute the Reconciliation Factor for the 2025 SAVE Rider.
