UPDATED

October 15, 2024

Dr. David N. Essah:

Pursuant to Rule 10 of the Filing Requirements in Support of Applications for Authority to Construct and Operate Electric Generating Facilities of the State Corporation Commission of Virginia, 20 VAC 5-302-10, this letter is to inform you that Virginia Electric and Power Company desires to acquire and operate an electric generating facility with a rated capacity of less than five megawatts. Specifically, Virginia Electric and Power Company plans to acquire and operate the Alberta Distributed Solar Facility, an approximately 3 MW AC facility located at Boydton Plank Road, Alberta, Virginia 23821. The fuel source for this project will be sunlight. Virginia Electric and Power Company will comply with all other requirements of federal, state, and local law related to the construction and operation of this facility.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd Flowers", written over a light blue circular stamp.
